

ple—no taxer can be imposed, or levied, or abolished, without its sanction—no loan can be contracted, or debt liquidated, or public contract concluded, without its approbation; in a word, it contains the precious germ of constitutional and representative government and popular institutions.

Advices from the port of Genoa of the 25th ultimo, announce the arrival of the French fleet, composed of the ships of the line Friedland, Souverain and Jena, and the steam-frigates Titan, Cacique and Panama, in the Gulf of Spezza on the 22nd ult. The two latter steam-frigates arrived at Genoa on the 23rd ult.

The Albatross, of Florence, states from private correspondence that warlike preparations are in progress at Modena. Brescia is in a complete state of defence. Three cannons have been sent to Reggio, and accommodations are preparing for a numerous body of Austrian troops, who appear to be shortly expected there.

Some rioting occurred at Ferrara on the 14th, and the Austrians fired on the people, without however wounding anybody. The inhabitants threatened to ring the tocsin, but the Cardinal Legate interceded, and having obtained the liberation of one of the citizens, who had been arrested by the Austrian soldiers, tranquillity was restored.

The Cholera.—Without counting Georgia, Caucasus, and the country of the Cossacks of the Black Sea, it already reigns in sixteen governments of the Russian Empire. On the 17th of October it broke out at Warsaw, and on the 30th at Moscow. Only one case has occurred in Austria, and one in Prussia. Up to the 29th ult. it had not visited Constantinople. The Allgemeine Zeitung of the 27th October says:—The cholera is advancing from the east to the west, but as yet it has not reached a more westerly point than Kertsch, on the sea of Azoff. The winter will impede its progress, but not change the direction it has taken.

PORTUGAL.—The Queen Dowager of England was at Lisbon on the 21st ult., on her voyage to Madeira. She was accompanied by the whole of the British squadron. The Queen of Portugal embarked in her state barge at the arsenal, and visited her on board the Howe.

The last advices are to the 28th ult. A change of ministry appears to be at hand, as Senhor Fonseca Magalhães had received instructions from the Queen to construct a cabinet from the juste milieu party, for the purpose of preventing the certain triumph of the Catholics at the approaching election of deputies to the Cortes; nothing decisive, however, had taken place. The Queen Dowager and suite left Lisbon on the 27th ult. in H. M. S. Howe, for Madeira. At the above date the peace of the city was well preserved, though the greatest distress prevailed among the people.

General Espartero is offered the embassy for Spain at the court of St. James'.

RUSSIA.—Lieut. General Count Woronzow, commander-in-chief of the Caucasian corps, has transmitted a report to the Emperor, stating that the Weila Salta has been taken after a hot and obstinate encounter. On the morning of the 26th of September the Salta was besieged. To the Russian Salta is in itself an unimportant village, but circumstances, and especially the strong fortifications and the incredible exertions of Schamyl to defend it, rendered the taking of it the most important, and in fact the indispensable condition of a happy termination of this difficult and tedious campaign.

SWITZERLAND.—On the 20th ult., the draft of a proclamation was agreed to by the Diet. It quotes the fourth article of the federal pact, according to which "the cantons cannot form among themselves bonds prejudicial to the nation." Nevertheless (the proclamation continues) the Governments of the high states of Lucerne, Uri, Schwytz, Unterwalden, Zug, Fribourg, and Valais, have formed among themselves a private alliance, which, since it has come to the knowledge of the other states, has very properly caused numerous and vivid apprehensions. The document then proceeds to point out the dangers likely to arise from the existence of the Sonderbund:—"In fact, an alliance which places the contingent of troops of the cantons which form part of the alliance, under the orders of a private council of war, supplied with full powers, and withdraws them thus from the federal authority, is prejudicial to the first interests, and injures the rights of the other cantons. An alliance, which, according to the declarations of some of the seven states themselves, is thus directed against the Diet itself and its resolutions, which organises beforehand an armed resistance to its decisions, cannot continue to exist in the general confederation, and by the side of it, without placing in great peril the interior security of the confederation, and without producing the dissolution of the common bond which unites the confederation." The Diet conclude their address by earnestly calling upon the seven cantons to regard their federal duties, and the peace and honour of the confederation.

SWITZERLAND.—Advices to the 28th ultimo, announce that the deputies of the Sonderbund had declared to the President of the Diet that the League was ready to dissolve in case the Diet guaranteed to the cantons composing it full religious and political liberty, and promised to maintain the rights guaranteed to the religious institutions by the 12th article of the federal pact.

The Austrian ambassador has left Zurich. On asking for his passports he gave an assurance that his Government would not interfere in any war that might arise between the parties.

NEW ZEALAND.—Advices from New Zealand to the 18th of June announce that a fresh incisive engagement had taken place between our troops and the natives at Wanganui. No lives were lost on our side, but several of the enemy were killed. Ruperala had been released from his imprisonment on board the Calliope, and allowed to go free on the undertaking of two chiefs to preserve peace.

We have received papers from the Cape to the 18th August. All was quiet on the frontier on the part of the Kafirs, but King William's Town had been visited by an awful storm, which did considerable damage to the buildings. Tents were struck down in an instant, trees uprooted, native huts destroyed, while some burning embers being among the thatched buildings, a commissariat store, a new guard-room, and large commissariat magazine, with stores, were fired and destroyed. To add to the alarm, the conflagration was within four yards of the magazine, and close to several ammunition wagons loaded with gunpowder. The confusion was indescribable. Several women and children ran down to the river, and, among others, the lady and children of the British commissioner, Captain Maclean, late 27th, the former losing her shoes, and, in consequence, having her feet much bruised and cut by stones, &c. in the course of the escape. They were exposed to the weather for two hours, when all dan-

ger having subsided they were enabled to return home. Much praise is due to Lieut. Russell, R.A., who, by his coolness and judgment, inspired confidence, and by which, under Providence, the threatened calamity was happily averted."

NEWFOUNDLAND.—Papers from St. John's to the 10th inst. brought to Halifax by the Steamer Unicorn, came to hand by the Eastern Mail last evening. From various parts of the Colony, painful accounts continue to be received of destruction among a considerable portion of the inhabitants. From Placentia Bay, St. Mary's Bay, Ferryland District, Conception Bay, Trinity Bay, and Bonavista Bay, appeals were pouring in for assistance from the Government, which the crippled resources of the Treasury would prevent being afforded to the extent desired, and appeals were in course of preparation to be forwarded to the Home Government.—Upwards of seventy individuals had arrived at St. John's from Bain, for the purpose of throwing themselves upon the bounty of the Government for shelter during the winter; but it is resolved to send them back again, and afford them such assistance in the district as the public means would allow.—New Br. Courier.

NEW BRUNSWICK.—The riotous proceedings which have so lately disturbed the tranquillity of several parts of this Province have met with a rebuke in the result of the trial of those guilty of violating the public peace, some time ago, at Fredericton. Four of them have been sentenced to 12 months' hard labour in the Penitentiary, five others to 6 months' do., and five more to 4 months' imprisonment in the common Jail.—The trial of persons charged with riotous proceedings at Woodstock is to come on yet.

PROVIDENTIAL ESCAPE FROM DEATH.—We learn, by a private letter from Woodstock, that John Grant, Esq., of the Crown Land Department, of this Province, one of the gentlemen employed in conducting the survey of the Halifax and Quebec Railroad, came very near losing his life in that service, under the following circumstances.—It appears that about noon on the 5th instant, Mr. Grant left the party of which he was in charge, on the line somewhere near the Tobique mountains, for the purpose of ascending a hill in the neighbourhood to make some observations on the face of the surrounding country, telling his party that he would return in about an hour. As he did not return at the appointed time, search was made for him, day after day, by the party, and to their great distress it was in vain. Mr. Grant, it seems, had lost his way in a fog, and continued to travel from the 5th to the 10th without a particle of food. When he was so much exhausted as to be able to travel no longer, he had the presence of mind to hang up his handkerchief on a tree by the river-side, as high as he could reach, before he laid himself down, with little prospect of rescue. His handkerchief was observed by three men who came to the opposite bank of the stream, one of whom crossed over in a canoe to fetch it, having not the least idea of finding its owner there. He discovered Mr. Grant lying in a state of insensibility, upon which he immediately obtained the aid of his companions, and they succeeded in conveying him to a house where he received all the attentions which his poor inmates had in their power to bestow. Medical aid was obtained from Woodstock, and after a few days, Mr. Grant was reported sufficiently recovered to admit of his removal to more comfortable quarters.

FEATS IN TELEGRAPHING.—A writer in the Buffalo Express states, that Mr. Porter, Superintendent of the Telegraph line from Buffalo to Toronto, often reads communications correctly by holding the ends of the wires in his hands, and observing the twitching of the nerves at his wrist.

It also stated, that Mr. C. C. Haskins, the operator at Queenston, by placing the end of the wire upon the end of his tongue, reads perfectly, and without the slightest error, by the sensation of the shocks. It is said that he has often done this. Such feats serve to excite our wonder, and to impress more distinctly upon the mind, the fact that telegraphing is yet in its infancy.—Mont. Courier.

The Propeller Phoenix, from Buffalo to Lake Michigan, took fire when within 70 miles of Sheboygan, and became a total loss. She carried upwards of 200 passengers, three fourths of whom were Highlanders. Some 30 of the whole took to the boats, and were picked up by the Propeller Delaware, on board of which every attention was paid to them. All the rest were either burned or drowned.

The steamer Magnet has been removed from the position where it grounded, and brought safe into dock in Kingston.

NIAGARA.—The Niagara Chronicle of the 19th ult., in announcing the death of Mrs. Lundy (noticed in the last number of the Berean,) makes the following reference to the estimation in which that lady was held by the community where her sphere of duty had of late been assigned to her:

"In the death of this estimable lady, her sorrowing family have to deplore an irreparable loss, society one of its most active and charitable members, and St. Mark's Church Sunday School has lost the services of one of its most zealous promoters. At the time when her fatal illness commenced, Mrs. Lundy was engaged with several other ladies in preparing clothing for the widows and orphans of poor immigrants."

PERSPECTIVE OF THE ESTABLISHMENT OF A FEVER HOSPITAL.—At a Special Meeting of the City Council, held on Friday last, a letter was read, addressed by Mr. A. Parent, Assistant Provincial Secretary, to the Mayor of Quebec, in reply to one from that functionary dated 2nd inst., from which it appeared that admission for Fever patients from the poorer classes in this city to the Marine and Emigrant Hospital, could not be granted; but stating that should the Quebec Corporation "be prepared to avail themselves of the permission lately granted by the Ordnance Department to use the Cavalry barracks as a Fever Hospital, until arrangements should be made by the City for the establishment of such an institution on a permanent footing, and to take the necessary steps for providing for its support, His Excellency would in such case be prepared to recommend to the Legislature to make an annual provision for such aid in its support as has been granted to the General Hospitals in the Province."

After the reading of this letter, Mr. Hall moved, seconded by Mr. McGie, and it was—

Resolved—That this Council is of opinion that as it appears by the letter received from the Government, that the Marine Hospital cannot be made available for the reception of fever patients belonging to this city, and as the Government is disposed to recommend an annual grant for the support of a Fever Hospital, should the Cavalry Barracks be taken possession of by the Corporation for that purpose; be it therefore resolved, that the Health Com-

mittee be authorised to have the same opened with as little delay as possible; and that an application be made to the Government in order that this subject may be laid before the Legislature at its next session."

From the Quebec Mercury, to which we are indebted for the above quotations, we also take the following report of a public meeting which took place on Monday, having reference to the same object:

A meeting of the citizens of Quebec was held yesterday, pursuant to a requisition presented to the Mayor, and thereupon convened by His Worship, His Worship in the chair. Dr. Kimlin was requested to act as Secretary. The following resolutions were passed—

Moved by T. W. Lloyd, Esq., seconded by J. LeMessurier, Esq., Secy., and Resolved, "That this city does not possess either a General or Fever Hospital."

Moved by Dr. Marsden, seconded by C. Delevigne, Esq., and Resolved, "That a Fever Hospital is at this crisis most urgently and imperatively called for."

Moved by the Hon. R. E. Coton, seconded by W. K. McCord, Esq., and Resolved, "That this meeting highly approves of the action of the City Council, on Friday, the 26th instant, in reference to a Fever Hospital, and that the grateful acknowledgments of this meeting are, in consequence, due to that body."

Moved by H. Gowen, Esq., seconded by John Racey, Esq., and Resolved, "That the City Council be requested to open the Cavalry Barracks as a temporary Fever Hospital, with the least possible delay."

Moved by J. P. O'Meara, Esq., seconded by F. X. Melilot, Esq., and Resolved, "That the inhabitants are willing to submit to an additional rate of assessment for this object, failing other sources of support."

It must now be hoped that, the Corporation having its hands strengthened by such an expression of public feeling, having the reasonable prospect of public aid from the Legislature upon the recommendation of the Executive, and a building, suited to the purpose, placed at their disposal, no impediment will intervene to carry into effect the design which, as one required both by humanity and by the suggestion of self-protection, may well find us willing to bear our share of the expense which it will occasion to the City.

IMPORTANT TO SEAMEN.—DESERPTIONS AT QUEBEC. In consequence of the inconvenience to which Ship Owners are subjected by the Desertion of Seamen at Quebec, and the extortionate Wages demanded for the return Voyage to the United Kingdom; the Legislative Assembly of Canada have passed an Act adopting the Provisions of the 8th and 9th of Victoria, cap. 116, the Act for the PROTECTION OF SEAMEN FROM CRIMES. The Law comes into operation on the 1st January, 1845. From and after that date no Seamen shall be Shipped at Quebec, or the Ports on the St. Lawrence, except by the owner, Master, Ship's Husband, or the Licensed Shipping Master, appointed for that purpose; every Seaman will be required to produce his REGULAR TICKET and discharge from his last Ship, or satisfactorily account for not producing them; and Deserters will incur the punishment of imprisonment and hard labour.—Under these Regulations, which will be adopted in all the Colonies, the breach of Articles, so disgraceful to Seamen will be obviated, and a check put to the extortions now practised upon them by the Crews at Quebec and other ports. THE LORDS OF THE ADMIRALTY have deemed it necessary to make these Regulations public, in order that Seamen may not plead ignorance of the law, should they violate their agreements, and therefore incur the punishment which will henceforth certainly be inflicted upon Deserters."

J. H. BROWN, Registrar General of Seamen.

CUSTOM HOUSE, LONDON. 21st October, 1847. A copy of the above notice was received, per Acadia, by H. M. Collector of Customs at this port; and we are informed that farther measures, rendering the regulation yet more stringent, will be introduced in the present session of the Imperial Parliament.—Morning Chronicle.

QUEBEC PROVIDENT AND SAVINGS' BANK.—It would not have surprised us if, under the embarrassments which have of late arisen, in monetary matters, the affairs of this useful institution had not manifested so decided a progress as is exhibited in a statement of its transactions contained in yesterday's Canadian: it appears to have had deposited, from the 1st September to the 30th of November, inclusively, £20,951 10 1 from which deducting the amount withdrawn, £14,307 8 10

the amount of deposits is found to have increased, £644 1 3 add to this the balance on the 31st of August, £20,110 3 9

and there appears at the credit of depositors the sum of £27,051 5 0 which, consisting in a great measure, as may be supposed, of the savings of the labouring classes, speaks well for the improvement of that portion of the community, and is a good testimony to the value of the institution.

ACKNOWLEDGMENT to the Pré-sé-ville Fire Company.—Mr. Wm. Hussack, sen., has presented £5. to this Company, in acknowledgement of the services rendered by them at the fire which broke out in Champlain Street on the 19th instant. By some oversight the account of that very threatening calamity was omitted in our last number. It occurred early in the morning of a very windy day, in a house nearly opposite the Cul-de-Sac, Mc Gill's Tavern, the property of Mr. Hennessy, schoolmaster, which was entirely consumed; and an adjoining house was much damaged. If it had not been for the exertions of the firemen, the conflagration might have spread widely, and become very destructive.

Steam navigation on the St. Lawrence seems to be closed for the winter. The Montreal and Canada went into winter quarters from Montreal; the Quebec came down to this port yesterday about noon. There is a great deal of floating ice in the river. All the shipping is gone. The navigation of the Hudson is probably closed by this time.

The weather changed on Friday last, so that the streets became dry and hard; and the cold has been severe since Monday; it has been said the thermometer was down to zero. There being hardly any snow on the ground, the roads were very bad, and wheel-carriages were in general use, till this morning; there has been a plentiful snow-fall during the night, and vehicles upon runners will be in general requisition to-day.

St. Andrew's Society.—The anniversary was celebrated yesterday by a Dinner at the Albion Hotel. James Dean, Esq., President, in the chair.

The Hon. Mr. Coton, President of the St. Jean-Baptiste Society, W. H. Anderson, Esq., of the St. George, and J. P. Bradley, Esq., of St. Patrick's, Major Brown of the 93rd, and several other gentlemen, attended as guests.—Yesterday's Gazette.

QUEBEC GAOL CALENDAR 1ST DEFR. 1847. Number of prisoners under sentence by Courts, 10 do. under the Police Ordinance &c., 67 do. Untried prisoners, 31 Military prisoner, 1 Debtors, 5 Total 114 (18 of the above are females.)
