It is our most fervent wish and prayer that it may not degenerate into a lifeless service, but, that its influence may pervade all the avocations of common life; and that all our works may be sanctified with the Word of God and Prayer. PROVINCIAL EXHIBITION.

A GOOD-SIZED DINING ROOM .- As it was necessary t provide a room of extraordinary dimensions for the approaching Agricultural dinner during the time of hold ing the Annual Fair at Kingston, in this month, the Com-mittee inspected the City Hall, but found the largest room in it was only 95 feet by 55 feet. There was another room of the same dimensions, in the same building but it is at present used as a Church, and besides, it was not deemed advisable to separate the dinner party.—The centre part of the market wing was then examined, and in the upper part of it was found waste space, which, at a trifling expense, would have given a room of 170 ft. by 55. Messrs. Mc Pherson & Crane, however, settled the matter by placing a room in a new Stone Warehouse at the disposal of the Committee, measuring 170 feet long, by 55 feet wide, in which may be seated comfortably, an immense assemblage. What a sight it will be to see over a thonsand persons sitting together in a room clear of all obstructions, every man with his bottle of wine before him, included in his dinner ticket !—Argus. centre part of the market wing was then examined, and him, included in his dinner ticket !- Argus.

THE LEAGUE AT BROCKVILLE .- On th 29th of August, a full meeting of the Brockville Branc of the British American League was held in the publ Market House of that town, the Chair being taken D.

It was explained that the meeting was called at the instance of the Executive Committee, *firstly*, that the Delegates might lay before their constituents an authentic report of the proceedings of the Convention; and secondly, to determine on the facilities of the meeting of the whole propriety of calling a great mass meeting of the who people of the Counties of Leeds and Grenville, on an ear day, to take into consideration the state of the Provinc The last two resolutions approve the calling a public met The last two resolutions approve the calling a public meet ing of the two Counties and appoint a Committee to mak arrangements. It is expected that an immense numbe of people, not only from the Counties, but from othe parts of the Province, summoned to attend, will be presen on tne 15th; Mr. Henry Sherwood, Colonel Gugy, an Mr. Murney of Belleville, have promised to be in Brock ville on that day. HIGHLAND EMIGRANTS IN GUELPH.eral hundred emigrants from the estates of the Duke Argyle have passed through Guelph, on their way to Owen's Sound in very destitute circumstances, their means were completely exausted, one company of 50 persons not having a single dollar among them. Of this small party, al had died by the way ; they had buried three the day before they arrived here ; two or three families of young children had lost their mothers ; and we observed one man endeavouring to preserve alive a motherless in-fant, aged four months, by feeding it from his mouth.

Among the many blessings attendant upon improvements in the social condition, and the advances of our race is intelligence, is the prolongation of human life. With the increase of intelligence has grown up a knowledge for the elements of health, and a regard for them, and commensurately with the strides of science have we acquired the means of arresting discase, and averting its ravages. Notwithstanding the progress we have imade, statistics show that even now, one sixth of the whole population die annually of consumption. One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering burnanity, is now with the state's Bakfash OF WILD EHERDES

DR. WISTAR'S BALSAM OF WILD CHERRY.

DR. WISTAR'S BALSAM OF WILD CHEERTY. What time establishes and consectates, what experience adopts and confirms, what all men in all places unite in saying is good and valua-ble, is so no doubt. A popularity of this sort fixes in society its roots so deep and strong, that time cannot destroy it. The success which has attended this medicine for several years past, has or ercome the prejudices of all respectable men, and the article has taken a stand among the class of discoveries and blessings of the age ; and when resorted to in season, eradicates the disease for which it is recom-mended.
