

CANADA'S GREATEST RADIATOR MANUFACTURERS

GOLD as a Nation's
Standard . . .
is a Survival of the Fittest.

IN HEATING APPARATUS,
many a contest has been fought on the
lines of construction, durability and power
of heating, and in every instance, at home
and abroad the

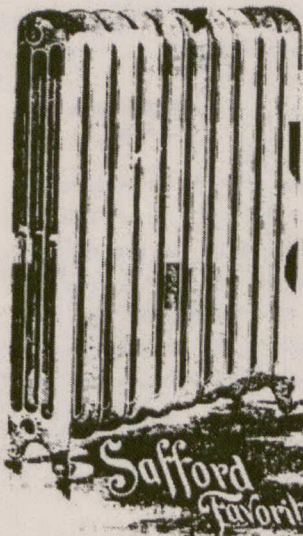

"SAFFORD"

with Screwed Nipple Connections—over-
whelmingly defeated all other forms of
Radiation made.

They are Artistically and Mechanically
Correct:

**NO BOLTS, NO PACKED JOINTS,
NO LEAKS**

Made in a Variety of Heights
for Low Windows, Halls and
Conservatories, and at any de-
sired angle for Columns, Corn-
ers and Curved Walls. . . .

"Safford" Radiators

for HOT WATER
and STEAM HEATING

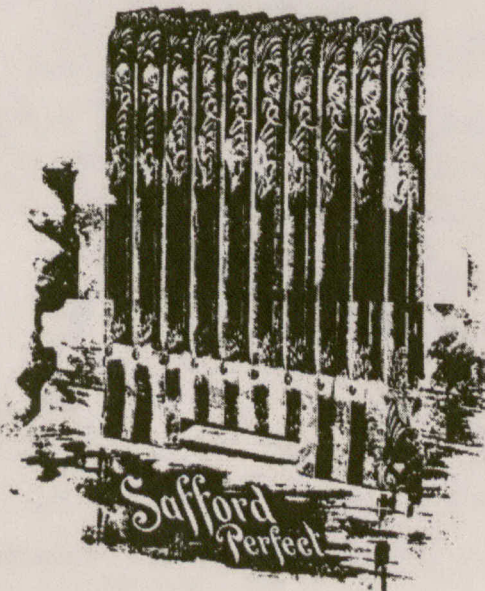

are being used by every Government in
Europe and on the Continent; have been
accepted for all the large office buildings
in Canada, and insisted upon by all lead-
ing Architects for their best work every-
where.

"Safford" Radiators compete
always against the World's
Markets on MERIT.

Manufacturers and
Inventors are

**The Toronto
Radiator
Manufacturing
Co., Ltd.**

TORONTO, ONTARIO

Largest Radiator Manufacturers
