

American Road Machine Co.,

MANUFACTURERS OF

ROAD AND STREET MACHINERY

HEAD OFFICE: Kennett Square, Pennsylvania, U. S. A.

TO THE PUBLIC:

The care of roads is one of the most costly and serious considerations of rural life, and anything that relates to the lessening of its labor and expense is worthy of the careful attention of all.

Our object is to stimulate this already rapidly growing interest, which has been greatly advanced by the introduction of road machinery. The "Tally Ho" and "Corduroy" do not harmonize. Modern life demands the best roads obtainable. The old method of "mending," by putting a scraper full of sod in a pile here and another there does not accord with the ideas of the thoughtful and progressive. The call is universal for good roads, and they cannot be made economically without the use of

IMPROVED ROAD MACHINES.

Our machines are built by the well-known firm of Copp Bros., of Hamilton, which is a guarantee for good material and workmanship.

Blenheim, Ont., May 15th, 1890.

American Road Machine Co., F. L. Wright, manager, 124 York St., Hamilton, Ont.:

GENTLEMEN,—We, the undersigned members of the Municipal Council of the Township of Harwich, having purchased one of your Champion Road Machines last year which gave such general satisfaction that this year we ordered three more. They prove to be all and more than they were recommended to be. As a labor-saving machine it cannot be beat. It does the work quickly and well at less than half the usual cost of such work. Parties who have seen the working of the machine say the cost is the best money ever invested by the Township, and we can safely recommend every Municipal Council to supply themselves with this machine. We consider the Champion

Machine much the cheaper machine to buy than any non-reversible machine at any price.

J. A. LANGFORD,

Reeve of Harwich Township. Co. of Kent, Ont.
October 9th, 1889.

To the American Road Machine Co., Hamilton, Ont.:

I take pleasure in saying that the Champion Road Machine ordered this fall by this municipality from your agent, John Hadlock, Esq., is giving great satisfaction in every way. While perfection itself on gravelly or sandy soil, we find it a great saving of both time and money on hard subsoil and stony ground, beside doing the work much better than can be done by any other method known to us, either in hilly or level sections. I feel quite safe in predicting their universal adop-

tion throughout this part of the Province.

Respectfully,

T. BYRON RIDER,

Reeve of the Township of Stanstead.
Port Hope, July 6th, 1888.

American Road Machine Co.:

GENTLEMEN,—I have used one of your Road Machines, and will say it will do all you claim for it. We would not sell our machine for \$1,000 if we could not get another. We can recommend the American Champion, and cannot see how any town can get along without one of these machines.

Yours truly,

WILLIAM RAY,

Street Surveyor, Port Hope, Ont.

Similar recommendations from City Engineer, Toronto and many others.

We will in the future, as we have in the past, ship our Machines on trial, subject to our Warranty, and will guarantee satisfaction in every case. We furnish prices, with testimonials, etc., etc., on application. All correspondence, including orders for machines and repairs, should be addressed to

No. 124 York Street,
Hamilton, Ont.

F. L. WRIGHT, Manager AMERICAN ROAD MACHINE CO.,

BRIDGE BUILDING!

The attention of Engineers, Contractors and all Municipal men is called to the merits of the Baer Patent Combination Bridge. This is a combined wood and Iron Bridge, and while possessing all the qualities for durability, strength, etc., possessed by iron bridges, is much cheaper in construction. Over 50 of these bridges have been built throughout Ontario during the past three years, and in every case the greatest satisfaction has been given. Parties desiring references are referred to the following parties: Robt. Scott, Chairman Board of Works, Mt. Forest; Jas. Anderson, Reeve, East Zorra, Strathallen; D. B. Rittenhouse, Reeve, South Zorra, Jordan Station; Robt. Beattie, Blanchard, Perth County, Kirkton.

Estimates and all other particulars cheerfully furnished on application to

B. BAER & CO.,

DOON, ONT.

County Rights For Sale.

Municipal Debentures Wanted.

I am desirous of purchasing any and all debentures of Towns, Villages, Townships and Counties, as they are issued (no matter for what purpose), and will pay the very highest price for them. MUNICIPAL OFFICERS will kindly bear this in mind and write, sending particulars and copy of By-laws, &c., at any time they are issuing debentures for sale. I have money to loan on first mortgage at very lowest rates of interest.

GEO. A. STIMSON,

9 Toronto Street, Toronto.
