

the rent of twenty Canadian farms.—
 What an excellent opportunity it affords
 the farmer to aggrandize himself and
 family.

CHAPTER XV. Page 81.

Indian corn a beautiful useful plant.—
 Its cultivation.—Ashes the best dressing
 for it.—Land well burnt has produced
 four crops running.—Its uses.—Many
 persons prefer the cultivation of it to that
 of wheat.—For a variety of good rea-
 sons.

CHAPTER XVI. Page 83.

Rye considered by some a profitable
 grain.—It will grow upon a sand where
 no other white crop would grow.—The
 farmer who has such land ought to culti-
 vate it extensively.—Makes tolerable
 good bread mixed with wheat flour.—
 Its peculiarity as a grain.
