NIAGARA-ON-THE-LAKE, Jan. 19.—To be locked up himself in the cell in which he was about to incarcerate a prisoner, was the novel experience of Chief of Police Watt of this town. Thomas Connolly was remanded to the cells on a drunk and disorderly charge, having not sufficiently recovered from the day he was arrested, to stand trial. The chief turned his back to the prisoner for a moment in the corridor of the police cells, when Connolly seized the officer, and thrusting him into the cell, locked the door and damped.

The noise raised by the imprisoned policeman finally brought assistance, and Chief Watt was liberated. Connolly was found in a barroom, begging the bartender for a drink. He fought all the way back to the cells, but was finally locked up.

When left alone Connolly set fire to the mattresses of his cell, and his shouts only saved him from a fiery death. He was taken to another cell and locked up after another big fight.

WON'T ACCEPT MONEY RAISED FOR RELIEF. Members of W. F. M. Refuse Thirty Thousand Collected for Disaster Sufferers.

HOUGHTON, Mich., Jan. 19.—(Can. The relief committee will try to distribute the money this week, although they declare they are able to take care of the sufferers without assistance.

President Meyer refused to accept the money on behalf of the strikers, on the ground that much of it had been subscribed by those who have opposed the strike of the copper miners.

PHYSICIAN'S SUIT AGAINST TOWNSHIP. Former M. O. H. Fails in Damage Action for Alleged Wrongful Dismissal.

CHATHAM, Jan. 19.—The case of Dr. J. C. Bell of Merlin v. The Township of Raleigh was dismissed in the county court this afternoon.

Dr. Bell was medical officer of health of the township during 1912. He was dismissed early in 1913, and he brought suit for \$400 damages against the township for an alleged wrongful dismissal. While Health Officer Dr. Bell insisted that residents refrain from draining into an open drain that runs thru the township, there was considerable opposition to this step, and the doctor claimed that as a result of his action in enforcing the regulations of the provincial board of health a movement was launched, and successfully carried out to oust him from the position.

The case was tried before Judge McBeth of London, owing to the fact that the senior judge of the county is a brother of the plaintiff. In the judgment given, each party pays its own costs.

William Coulter of the lake shore appeared before Magistrate Fleck and pleaded guilty to stealing five bushels of beans from the barn of John Burden, a Sarnia Township farmer. He was fined \$25 and costs.

SEVERE NEURALGIA Cured Through the Use of Dr. Williams' Pink Pills. There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuralgia, the commonest of all nervous disorders. This group also includes St. Vitus' dance, partial paralysis and the various forms of extreme nervousness and excitability. Each of these complaints exists because there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints. The reason why Dr. Williams' Pink Pills cure nervous disorders is that they restore weak, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nervous system is the highest of all. It is in this sense that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble. The following is an instance: Miss Annie Jones, London, Ont., says: "For over a year I was an intense sufferer from neuralgia, which located in my face and head. The pain was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. As time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had not known for years, and only those who have suffered from neuralgia can appreciate the blessing the pills have been to me."

If you are suffering from any blood or nervous disorder begin to cure yourself today with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

County Magistrate Hunt, by reason of his judicial fairness and use of common sense, more than his respect for the technicality of the law in giving his decisions, has gained a high reputation. In addition to being one of the best known men in Western Ontario. The squire was appointed a magistrate in 1878 and a stipendiary of the county in 1885. Before assuming his judicial responsibilities he was in turn a blacksmith, a school teacher, oil speculator, a contractor, a merchant, a reporter, an editor, railroad foreman, an alderman, and, in an emergency, a local preacher.

NEW TORY PAPER IN ST. CATHARINES. Project Stated to Be Afoot for Establishment of "Regular" Organ.

ST. CATHARINES, Jan. 19.—There is every indication that if the Canada Temperance Act is carried in Welland County next week, it will be tried in Lincoln County. This would affect Port Dalhousie, Homer, Jordan, Merriton, Niagara-on-the-Lake and Grimsby, and if carried would render every municipality in the county dry except St. Catharines. The move is due to the effort made to secure a shop license in Port Dalhousie.

Another Conservative Daily. A well-defined project is on foot to establish a new Conservative newspaper in St. Catharines. Past independence on the part of The Standard, the only Conservative daily between Hamilton and Niagara Falls, has caused several of the strong party men to feel that they need a "regular" organ. At the last municipal election the "machine" was used against them, and that he smashed it.

Reported to Government. The selling of "proxy" beer containing as high as five per cent. alcohol, resulting in the firing of three proprietors \$100 each, has been brought to the attention of the provincial authorities by the local license inspector.

A. T. Howes, of the Sells real estate publications of London, Eng., left this afternoon for Toronto and Montreal, en route for home, after quietly investigating realty conditions in the Niagara district, which has been much advertised in the old land.

GEN. PIQUART IS DEAD WAS DREYFUS' CHAMPION. Played Prominent Part in Trial Which Resulted in Acquittal.

AMIENS, France, Jan. 19.—The death occurred here today of General Marie-Georges Piquart, commander of the second French army corps, who was, except for the prisoner himself, the most prominent figure in the Dreyfus case. He was in his 60th year.

General Piquart, regarded as one of the most brilliant officers of the French army, rose to the rank of a very early age. He was an Alsatian by birth and an extremely good linguist, and this added his appointment to the general staff. It was while serving there that Piquart discovered a number of forgeries which had brought about the condemnation of Dreyfus to the horrors of Devil's Island. Piquart then after became one of the most enthusiastic applicants for a revision of the judgment on Dreyfus, and his zeal made "The World" by Sir Donald Mann, vice-president of the C.N.R., when interviewed on his return from the coast yesterday.

General conditions in the west were quiet, he said, but this he believed to be only the lull which preceded a resumption of activity in the spring. The fall had seen more land prepared for cultivation than ever before.

SIR DONALD MANN IS QUITE HOPEFUL. Present Western Stagnation Only the Lull Before the Spring Activity.

Whatever the result of the money stringency may be elsewhere it is to have no effect on the enterprises of the Canadian Northern Railway, which are to be pushed forward without any let up. That such was the case was the statement made "The World" by Sir Donald Mann, vice-president of the C.N.R., when interviewed on his return from the coast yesterday.

General conditions in the west were quiet, he said, but this he believed to be only the lull which preceded a resumption of activity in the spring. The fall had seen more land prepared for cultivation than ever before.
