Canadian Press Despatch

Realizing sales that finally swung the wheat market to the bear side came chiefly from speculators who had been active buyers on the recent break. Altho corn at first hardened on account of the scantiness of rural offers, the market afterwards sagged with wheat. The short interest appeared to have been eliminated and the pit was in poor shape to take any considerable amount of selling.

WINNIPEG, Dec. 3.—Wheat prices opened %c to %c higher, oats %c to %c higher, while flax was unchanged to %c lower. The feature of the future market was buying by exporters during the early hours, which caused prices to strengthen a little following the opening. When this demand was satisfied prices eased off around %c. Oats and flax showed weaker after opening. Closing figures for wheat were %c to %c under Wednesday, oats unchanged and flax l%c lower on both months.

The cash demand was fair for Nos. 1.2. 3 and 4 grades of wheat, exporters being the chief buyers to fill space. Oats, barley and flax were slow generally. Sales continue to be made by exporters on a goodly scale, one house working from 200,000 to 300,000 bushels yesterday and early today for export.

Inspections Wednesday totalled 394 cars, as against 1198 last year, and in sight were \$10.

Deliveries thru sine clearing-house were: Wheat, 24,000 bushels; oats, 178, 100 bushels; and flax, 3000 bushels.
