

Michipicoten. To fish this river you get off at Missanabic station and cross Dog Lake in a steam-launch, distance about ten miles, to Stony Portage, where the fishing starts. Good fishing is to be had from this point to where the river empties into Lake Superior, a distance of about forty miles. The fish are large (up to five and a half pounds) and game, the water rapid and lots of room to cast a fly. The stream has been very little fished. It probably is very little inferior, if at all, to the Nepigon. Guides and canoes can be secured at Missanabic, without any difficulty if advance notice is given.

From Mississicobie the tourist can make the journey to James Bay—the southern portion of Hudson's Bay. This is accomplished by canoe. The river cannot be surpassed for scenery. Good fishing and shooting can be had. The journey occupies from eight to ten days from Missanabic to Moose Factory, the Hudson's Bay Company fort and headquarters of the Company in this part of the country. The return, which is against the stream, will take fifteen to eighteen days and can be made either by the same route or by the Abitibi River to the upper Ottawa and Lake Temiskaming country reaching the railway again at Temiskaming.

White River. Fairly good fishing is to be had in this stream. The railway follows the river from White River station to Montizambert. The fish are not very large, averaging from one to three and a half pounds in weight. In the proper season, i.e., from August 1st to September 15th, the fish are plentiful. The advantage of this stream is that it can be fished without guides, as at no point is it more than a quarter of a mile from the railway between the above-mentioned points.

Peninsula. Station close to the shore of Lake Superior. Good trout fishing can be had along the shore of the lake between this point and Port Coldwell station; also in **Port Munro** stream, four miles west of Peninsula, and in the **Mink River**, about eight miles west of Peninsula. Canoes cannot be used in either of these streams. Plenty of fish to be had, and of a large size. There is a hotel at Peninsula, where the traveller can get a good clean bed, provided he does not wish to camp out.

Middleton. First-rate fishing to be had in Lake Superior along the rocks, at this point. It is also the station to get off at for any one desiring to fish the **Little Pic River**, situated two miles east. Good fishing to be had in this stream. Indians are always encamped at the mouth of it, and they can be engaged at any time to take the fisherman up the river. The only drawback to the river is that, for four or five days after rain, the water is so discolored that the fish cannot see a fly, which makes the fishing very uncertain; however, the fisherman can always depend upon having good sport in Lake Superior.

Prairie River. Situated two miles east of Steel Lake siding. The Company has had a trail cut out along this river, which starts about 500 feet west of where the river is crossed by the railway, and runs in a northerly direction for about four miles, where it strikes the river at the head of the rapid water. Fishermen from this point can wade down the rapids, where good fishing is to be had all along. The trail is cut quite close to the river, and can be easily reached from any point. Good fishing can be had in this water after the middle of June; but it is particularly good from August 1st to
