

$\frac{1}{10} - x = (35 - 7) \frac{1}{3}$

Mental Arithmetic.

By *J. A. McLELLAN, M.A., LL.D., Inspector of High Schools, Ont.*

PART I.—FUNDAMENTAL RULES, FRACTIONS, ANALYSIS. PRICE, 50c.

PART II.—PERCENTAGE, RATIO, PROPORTION, &c. PRICE, 45c.

W. D. DIMOCK, A.B., H.M.

Provincial Model School, Nova Scotia.

Dr. McLellan's Mental Arithmetic supplies a want that we should have had supplied in our Schools long ago. Same progress cannot be made in Mathematical work, unless what we call Mental Arithmetic is thoroughly and systematically pursued. A boy who is conversant with the principles of Mental Arithmetic, as given in this little text-book, is worth as a clerk or accountant 50 per cent more than the prodigy who can boast of having "gone" through his written arithmetic half a dozen times.

J. S. DEACON, Principal Ingersoll Model School.

Dr. McLellan's Mental Arithmetic, Part I., is a credit to Canadians, and it supplies a long-felt want. It is just what is wanted for "waking up mind" in the school room. After two weeks use of the book with my class I am convinced that it is much superior to any of the American texts that have been used here both as to the grading of questions and the style of the problems.

J. A. CLARKE, M.A., H.M.H.S., Picton.

Dr. McLellan's Mental Arithmetic contains a great number of useful problems well adapted to develop by regular gradations the thinking powers of the pupil, and to suggest similar examples for the use of the teacher.

D. J. GOGGIN, Head Master Model and Public Schools, Port Hope.

Simple in its arrangement, varied in its types of practical questions and suggestive in its methods, it is the best book of its kind that I have examined.

From **THE WESLEYAN, Halifax, Nova Scotia.**

The series bids fair to take a good place in scholastic work.
