LARGE'S CELEBRATION.

The workingmen of Toronto and Canada have good reason for celebrating Labor Day this year with more than usual enthusiasm. Compared with the state of affairs in the United States Canada has great cause for thankfulness. While the condition of the workness. While the condition of the workingman in the former country has greatily improved since the new tariff bill went into force there are not wanting features which cast an ominous shadow on the horizon. At a labor convention, recently held at St. Louis, the delegates went wild when Mr. Sovereign shouted: "These injunctions of the Federal courts must be violated. . . . CANADA'S GOLD FIELD.**

The discovery of gold in the Klondike country has had the effect of diverting the attention of the people of the United States, as nothing else could have done, to the other gold fields of Canada. In yesterday's New York papers the Michipicoten gold strike is given a leading position among the leading articles of the day. The Herald publishes a map of the district, while Tac Sun characterizes Michipicoten as a place of fabulous riches. The Sun is also booming the Mine Centre district and is lavish of its adjectives in describing some of the mines of that locality. The advertisement that Canada is receiving through the Klondike discovery is going to be of immense benefit in developing the mineral resources of the country generally.

The Bell Organ and Piano Company, Limited: The Seraphone.

The tone wonder of the century in organs! Since the introduction of the melodeon early in the century, the development of the reed has been sedulously followed by hundreds of aspiring musiciaus. The reed organ is to the melodeon, but surpasses it in all its attributes. The modern reed organ is now no more like its prototype than the electric light is similar to a farthing dip. Evolution has been the natural course and result, and to-day the reed organ is to be found in the homes of millions. The reed has been achieved, and as manufactured by the Bell Organ and Plano Company, Limited, and visitors are cordially intended to examine and study the very latest and most wonderful discovery in the accoustical world. compare with the tender self-sacrificing spirit of the weary, watch-worn mother by the side of her suffering little one? Such mothers take little or no account of their own weariness and weakness, but keep on until they drop. They seldom realize how completely their baby's health depends upon their own.

Every mother, and every woman who expects to be a mother, ought to obtain the health-bringing, strength-creating assistance of Dr. Pierce's Favorite Prescription. It gives elastic endurance to the organs concerned in motherhood, and nourishing vitality to the special nerve-centers.

Taken early during gestation, it makes motherhood perfectly safe and almost painless. Its beneficial effect is transmitted to the child in increased constitutional vigor. It protects the mother against relapse and improves the quantity and quality of nourshment during the nursing period.

It reinforces tired over-wrought women at every critical stage, and heals the special liseases to which they are subject. It was designed for this express purpose by an educated physician and skilled specialist. Dr. Pierce has devoted thirty years to this particular field of practice. His thousand-page book, the "People's Medical Adviser," will be sent free, for 31 one-cent stamps to pay the cost of customs and mailing only. Or, cloth-bound for 50 stamps. Address, R. V. Pierce, M. D., Buffalo, N. Y.

Mrs. J. B. Clough, Box 203, Lisbon, Grafton Co., New Hampshire, writes: "I am the mother of 1 nice baby four and a half months old. He is a perfect child and weighs about eighteen pounds, if you remember I wrote you about a year ago about my condition. I cannot give too much praise to your 'Favorite Prescription' as it saved me a great deal of suffering. I got along remarkably well, this being my first baby."
