Rev. Charles L. Ingles was heartly in accord with the idea of honoring the men who were going to the front in the defence of the Empire.

Do Something Practical. Do Something Practical.

Ald. Sheppard said the citizens should do something practical for the men, and he for one was willing to bear his share. The scheme of insuring the men's lives, which had previously been suggested, was all right in its way, but the men would have to be killed or wounded before they would benefit by it. "Do something for them while they are alive and not wait till they are dead," were his concluding remarks.

Ald. Hallam, with his usual impulsiveness, said that whatever was done should be done immediately, and deeds not words should be their watchword. He also moved that the arrangements be left in the anals of the Reception Committee of the City Council and the commanding officers of the Toronto Garrison.

Appoint a Committee. Rev. J. Pitt Lewis spoke in a patriotic strain and was frequently applauded. He thought that a large and influential committee of citizers should be appointed, thoroughly discuss the question and then make known their decision through the public press.

Dible press.

Lieut.-Col. Bruce did not think it.-necessary to provision the men, as that would be well looked after by the British Government. The best thing they could do, he said, was to provide for the relatives of those who went to the front.

Hugh Blain gave some good practical advice and thought it would be a good thing to insure the men's lives.

Full of Enthusiasm.

Full of Enthusiasm.

E. E. Sheppard thought there would be no occasion to make arrangements for the send-off. "This city is full of enthusiasm," he said, "and the people themselves will make the arrangements and turn out in thousands." As to insuring their lives, he thought it would perhaps be a good idea, and the matter could be simplified by procuring the rates of insurance, and they would then know where they stood.

Lieut. Col. Delamere suggested that a half-holiday be proclaimed the day of the departure. This met with general approval.

Mayor Shaw said the officers of the different regiments should be consulted about the practical side of the question, as they know what would be best for the occasion, and they could then advise the committee in charge of the affair.

Following the meeting of the citizens the Reception Committee of the City Council and Lleut.-Cois. Brace, Delamere, Mead and Cosby held a conference and agreed to present the contingent with a flag to stand in front of the commanding officers' tent, and to each of the men a souvenir in the shape of a silver match box, with the city's coat of arms engraved upon it, surmounted by a beaver.

## WILL SEND TWO NURSES. The Red Cross Society Negotiating to Supply the Contingent.

Medical Attendants.

When the Canadian contingent sails for the Transvaal, all that will make them as comfortable as it is possible to be comfortable in the front is being done. Yesterday council of the Red Cross Society met Ryerson's office, 60 College-street, and the matter of sending supplies and medical attendants was discussed. Those present were: Hon, Col. Gibson, president, in the chair; Dr. G. S. Rýerson, chairman of the Executive; Dr. J. G. Hodgins; Lieut. Col. Mason, Mr. James Scott, Dr. C. R. Dickson and Dr. C. A. Hodgetts, hon. secretary. Letters of regret were read from Dr. Nattress, Mr. D. R. Wilkie and Mr. J. W. Flavelle.

On Oct. 14 Dr. Ryerson wrote to His Excellency the Earl of Minto, the patron of the society, submitting proposals pertaining to the sending out of clothing, food, medical comforts and other supplies that were necessary, and also asking if public contributions would not be the best way to pay expenses. The Governor-General immediately replied, approving of all the proposals, and subscribing \$100. The organization of subcommittees at Ottawa, Montreal and elsewhere was also recommended.

After the reading of these letters a general discussion followed in regard to the sending of the supplies and two trained nurses. Dr. Ryerson was instructed to wire the Government in regard to transportation, and an immediate reply is expected.

"I said that Montreal women were sending tobacco and books and I asked what they purposed doing. I'm against candles, but such things as soups, canned vegetables and jams would be admirable and give the boys some of the delicacies they won't get on board, and yet are accustomed to in their homes. Then there are dominoes, draughts and shuffle-board, which would be very acceptable."

"Yes, they would come in handy. I'm a lover of whist myself, but I'm down on poker and stop it at sight."

"That's a hard job at times, isn't it?"
Colonel Otter threw both hands to the back of his head and laughed quite heartly for him. "Yes, that was my experience out west," he replied, "the men did play awfully."

More Offers of Enlistment.

Asked if he had received any more offers of enlistment, Colonel Otter said "Numbers." Among these there were two ladies who wanted to go as nurses, an Englishman who was in Tennessee, and had seen service in South Africa and Cuba, and Actor Mason Mitchell, who was an old scout of his in the Northwest, and had been wounded while fighting with Roosevelt's Rough Riders near Santiago.

Major Pellatt here strolled over from Col. Lessard's dinner and the interview ended.

WAR NEWS FROM KINGSTON. Boots Ordered for Toronto Officers -Hundreds of Applications

Lieut.-Col. Montizambert has received hundreds of applications from officers and men of corps in military districts Nos. 3 and 4, for places in the Transvaal contingent. The list includes nearly all the officers of the 14th Battalion, some from the 15th, 16th and 40th Battalions. There will not be any trouble in obtaining double the required number of volunteers from this district.

The following letter will be sent to Secretary of State Chamberlain:

"We the undersigned members of Her Majesty's Army and Navy Veterans of the city of Toronto do herein desire to convey to you our unbounded admiration and our entire sympathy and approval of the spirited and practical policy which you have adopted in dealing with the 'South African question,' carrying conviction alike to the friends and foes of the Empire, creating a welcome and heartfelt reassfrance to every Briton in this hemisphere, and, if possible, a still greater confidence and gratitude to the hearts of our beloved, but down-trodden, countrymen in the Transvaal. The sincere and carnest prayer of your humble and devoted admirers is that our Almighty God and Father may long continue to afford Her Majesty and her subjects the power of your mature and judicious ability in their behalf."

Apparently the earlier sensational stories originated in the skir mishes between the armored train and small detachments of Boers, although since then much may have happened to the little garrison. It is difficult to understand how refugees arriving at Lorenzo Marquez should have come into possession of news of serious Boer losses at Mafeking. At the same time, it must be remembered that much news from the Transval is likely to come by way of Delagoa Bay, as most other channels are strictly censored.
