Lapponi Holds Out Hope For Recovery of Pontiff

Even Had Pope Been Well Sunday Would Have Been His Busy Day.

Rome, July 13.—(6.45 a.m.)—The condition of the Pope is stationary during the night. He slept at intervals, but was not entirely tranquil.

Rome, July 12.—Pope Leo has lived to see another Sunday, and with the Sabbath quiet which fell upon Rome came also peace and even progress to the Pontiff.

Tonight Dr. Lapponi made the following important statement in answer to the question if he believed that the improvement in the Pope's condition could continue:

"I believe that if the improvement lasts until July 21, we may not perhaps achieve an absolute cure, but we will secure such a general state of health in the patient as will allow our anxiety."

Participated in Mass.

During the morning the Pontiff participated in the celebration of mass in the chapel adjoining the sick chamber. The door connecting the sick room with the chapel was opened so that his holiness might follow the service.

The Pontiff had several hours' repose, Dr. Lapponi resting near him through the night. The physician twice administered injections to him, one of digitalis, to strengthen the heart, and another of camphor-camellia to overcome the patient's gastric depression.

This morning found the Pontiff with spirits bright and the conditions generally improved.

The Pontiff arose at 8.20 a.m., and after a brief conference issued the most encouraging official bulletin thus far given.

The pulse, which went down yesterday to 82, had risen to 86, while the temperature and respiration showed no abnormal characteristics.

Lapponi Visits Sick Chamber.

Pope Leo took his usual light breakfast and Dr. Lapponi, who has remained in attendance since the patient's case became desperate, felt sufficiently assured to leave the Vatican for the first time in five days.

When his daughter lies stricken with fever. When the physician left the sick room he was almost moved by high digitalis, including several cardinals, who rejoiced at seeing Dr. Lapponi tranquil enough to leave the patient's bedside.

Dr. Lapponi said by saying: "Yes, the Pope is better, but I beg you not to exaggerate in optimism in order to avoid a disillusion."

Dr. Mazzoni was also absent, which in itself gave the clearest evidence that the doctors themselves were relieved of immediate apprehension. Dr. Rosconi has been taken sick with fever, and was prevented from attending the Pope's case by the illness.

Five newspaper correspondents also have fever. During the afternoon the Pope felt strong enough to receive visitors. He dressed himself alone in white and went to sit in his usual arm chair, where he remained until 5.30. In the afternoon he received Cardinals Mathieu, Steinhilber, Adilardi and Casali. The Pope showed his usual brightness and lucidity of mind, and spoke to each without showing any perceptible fatigue.

To Cardinal Mathieu his holiness said: "I have not been able to pray to God to protect France and have the men now governing her people. I hope that the Pope's condition will be improved."

Conclude Mosaic Possibility.

He heartily thanked Cardinal Steinhilber, who told him that the whole situation was being handled in the best manner possible.

He then asked Cardinal Adilardi how he liked the position of vicar-general of the church to which he was appointed. The cardinal, who is the vicar of the pope, replied that he had not yet moved there, and that he would move there as soon as he could.

Later the Pontiff took a short nap and then received the cardinal who had just arrived from the Vatican. He was told that the Pope's condition was being handled in the best manner possible.

USED FUNDS OF THE BANK CUMMING ADMITS WRONG

Another Speculating Employee Finds Himself Heavily Involved by Slump in Stocks.

Newburgh, N.Y., July 12.—Joseph W. Cummin is in jail here on the charge of grand larceny. He was secretary-treasurer and cashier of the Cornwall Bank, and is alleged to be a defaulter to the extent of about \$50,000, wrecking the bank.

Yesterday the State Bank Examiner appeared at the bank, and before the examination of the books, Cummin took him aside and confessed that he was short in his accounts between \$40,000 and \$50,000. He added that he would render the examiner all assistance possible and point out the falsified accounts. A meeting of the Board of Directors was held, and Cummin was placed under arrest.

He was held for examination on Tuesday. Cummin, 29 years old, and has a wife and two children. He was president of the Board of Trade, vice-president of the Cornwall Realty Company, and president of the Board of School Trustees. The capital of the Cornwall Bank is \$25,000. Charles Cook, its president, Cummin was under \$7000 bonds. He at once voluntarily turned over to the bank all his personal assets, and secured a bond of \$10,000, which amounts to between \$15,000 and \$20,000. It is said Cummin speculated with the bank's funds.

ANOTHER CHAPTER OPENED.

Counsel for Gaynor and Green Left for England Saturday.

Quebec, July 12.—A new chapter has been commenced in the famous Gaynor-Green case. Mr. Alexander Tschereau, M.L.A., of the firm of Fitzpatrick, Parent, Tschereau, Roy and Cannon, received a cablegram from England on Friday, to the effect that Mr. Donald McMaster, K.C., of Montreal, the leading counsel in Canada for the United States government in the proceedings that took place in Quebec some months ago for the extradition of Col. John Gaynor and Capt. Benjamin Green, was in Montreal on Saturday morning, and before the Privy Council on a question of gratia to reject, if possible, the judgment rendered in the Superior Court some time ago, which gave Gaynor and Capt. Green their freedom.

Immediately on receipt of the cablegram, Mr. Tschereau, who was the leading counsel for the defence of the Americans in the extradition proceedings, communicated with his clients and left for England yesterday to contest the petition.

NO WOMEN'S AUTO CLUBS.

Members Disagree and Parent Society Withdraws Subsidy.

London, July 12.—Altho women's clubs are now numerous in London, it seems that the fair sex has not entirely conquered the art and science of "clubbability" as yet. For a serious variation of opinion have arisen among the members of the Ladies' Automobile Club that the Auto Club of Great Britain and Ireland, the stern parent, has been obliged to decree that no women's auto clubs are to be formed in the United Kingdom, and has withdrawn the subsidy of £1000 a year. Meanwhile the members in Scotland, who were the licensees in Scotland, which were the members of the Automobile Club for three years, remain a white elephant on their hands.

PARALYTIC DROWNED.

Montreal, July 12.—A sad accident occurred yesterday evening shortly after 6 o'clock, when Mr. Joseph Fallo fell from a yacht about a mile and a half below Longue Pointe and was drowned. He was one of a yachting party of twelve. They were merrily laughing and waving their handkerchiefs at the shore as they sailed along. The yachting party consisted of Mr. Fallo, who was partly afflicted with paralysis, and was supported by one of the yacht's lurches into the water and was drowned.

DROWNED NEAR TWEED.

Tweed, July 12.—An Italian working on the C.P.R. at White Lake, about three miles west of this place, was drowned while bathing last night (Saturday). The body was brought here today.

RIOT IN NEGRO QUARTER.

New York, July 12.—A riot, which required the reserves of three police precincts to suppress, broke out tonight in the negro quarter in West 62nd-street. The trouble was started by an attempt of Policeman Connor to arrest William Johnson, the leader of a gang of negroes, who were making a disturbance in the street. The police were assisted by a mob of volunteers of bricks and stones were hurled at him. Connor opened fire on a negro on a room and the shots were returned from windows of the house. Reserves finally restored order. A number of arrests were made.

Nothing but the finest goods at Thomas

WOMAN DOCTOR FOR VESSEL.

Marcellus, July 12.—Miss Sarah Brydo, M.D., an American, has been appointed doctor on board a vessel of the navigation company plying between Marcellus and Algeria. It is the first appointment of this sort that has been made. There are two candidates for other steamers.

Carnahan's Soda with crushed fruit.

DASH INTO ANTARCTIC RESULTS SUCCESSFUL YET

Men of British Ship Discovery Suffered Great Hardship in Voyage.

San Francisco, Cal., July 12.—Details of the accomplishments of the British Antarctic exploring expedition on the ship Discovery were related yesterday by Capt. William Colbeck of the relief ship Morning, the Discovery's tender, which arrived here on the return trip to London. He tells of hardships almost beyond the limits of human endurance, which were borne by the members of the expedition that they might reach the feat of having gone "farthest south" of all the expeditions which were ever started. In spite of their exposure only one man was lost.

The record as it now stands is latitude 82 degrees 17 minutes south, reached by a dash on sleds after the discovery had been frozen in the ice at latitude 72 degrees 30 minutes. The former record was 78 degrees 25 minutes, made by M. Borzhovnik in 1880. In addition, the men on the Discovery discovered a lot of new marine plants, and they were all of a low type of organism. Seals about the extreme southern regions, but the polar bear and the walrus are not there and no new animals take their place.

Over Land Worth \$5.

The tract of land in dispute, according to the valuation of an expert, is said to be worth, at \$45 per acre, only \$5 cents, but each of the disputants has spent hundreds of dollars in law costs besides having several previous encounters, in one of which Richardson nearly lost his life by an axe in the hands of the other party. Howard ordered an inquest. The body was viewed by the jury at 8 o'clock this evening, and the inquest was adjourned until Monday morning.

Plea of Self Defence.

The white man, Richardson, will urge a plea of self-defence. Mrs. Richardson says before her husband proceeded to extreme measures the man shot had attacked her, hitting her on the head with a brick. She says she was terrified and she was obliged to defend herself. She showed evidence of severe injury.

Parry Mountains Do Not Exist.

By landing at various points the party has also discovered that the Parry Mountains, as marked on the map, are lying due south of Mount Terror. Do not, in fact, exist, and were due only to the imagination of the discoverer. He was obliged to keep coasting along the ice instead of landing.

UNIONIST FIRED UPON AT STEARNS' FACTORY

Boss Gave Orders to Shoot at Union Pickets Who Walked Streets.

Syracuse, N.Y., July 12.—An Italian strike breaker at the factory of E. C. Stearns and Company this afternoon fired upon and wounded George Moore, a big burly fellow, who was walking the streets outside the factory. The rifle was claimed to have been procured by the heads of the company. The Italian boss is said to have told his men that they would be protected if they used the firearms. Mr. Moore is a big burly fellow, who had put weapons into the hands of his men. Moore's injuries are not fatal.

PETITION TO KING'S DAUGHTER

Brought Three Marks for Five Starving Children.

Berlin, July 11.—King George of Saxony has personally demanded the punishment of a newspaper editor for lese majesty. Some time ago the Editor, Rundscha, a weekly publication, printed an article concerning a petition brought by a needy widow to the King's daughter, Princess Mathilde, in which the princess sent her "but three marks for five starving children."

NOTED ENGINEER DEAD.

Utica, N.Y., July 12.—Joseph J. Hingworth, aged 76, one of the best known stationary engineers in the United States for forty-three years, died today. He was treasurer of the National Association of Stationary Engineers for six years.

FIGHT OVER WIRE FENCE RESULTS A KILLING

Oliver Richardson Fired Four Shots at Colored Man in Dispute Over Land.

Harrow, July 11.—A long drawn out quarrel between Edmund Matthews (colored) and Oliver Richardson (white) of the third concession of Colchester South, about two and a half miles west of this village, over the boundary between the two farms, culminated last night in a fight, in which Matthews received injuries from which he died this afternoon about 4 o'clock. Richardson had a revolver and fired several shots at Matthews, four taking effect, three in the body and one in the arm. The ball which, no doubt, caused death, lodged in the kidney.

Richardson and his two sons, who also took part in the mole, were arrested by the police in the morning, and they were held in the village lock-up, until this morning, when they, with Richardson, were taken to Harrow by Detectives Campbell and Mahoney of Windsor. In police court Mrs. Richardson and the sons were discharged, and the case remained pending the outcome of Matthews' wounds.

PRISON BREAKER DEFIES ARREST BY DETECTIVES

Quackenbush Seen on Streets, But Attempt at Recapture Was Fruitless.

The audacity of the daredevil convict, Quackenbush, whose third escape from the tools of justice in Toronto was accomplished under the rifle muzzles of the Central Prison guards on Friday night, is exciting the wonder of the police, knowing as he must that every available detective is on his trail, and that every officer on his beat has an eye open for the fugitive. He has been seen more than once since his escape from the city, as if he took a fearful pleasure in eluding his pursuers.

Information of his whereabouts was received from a reliable source on Saturday night, but the detectives who hurried to the place found that the quarry had eluded them and had covered his trails with such consummate cleverness that he seemed to have vanished into space. Other strenuous attempts to capture him have proved equally futile.

Why.

The question now asked is: "Why is this man risking so much to stay in Toronto?" Love for familiar haunts in the city, or the desire to see the accumulated sentence which his almost inevitable recapture would surely bring upon him. Neither would he be likely to be induced to him to run such a risk.

Why.

The police are well aware that the youthful "skylighter" who was hunted down at the Ontario penitentiary morning was not, as was at first expected, the only man operating in the community. He was only the tool of older and more experienced burglars, and at least one man is known to be in the hands of the police. It may have been, by the free masonry which exists among the class, to be forwarded by the detective department, some of whom express themselves as being confident that his recklessness and their love of danger is likely to place him in their hands very soon.

Light Cure for Lupus.

Of 804 Cases Treated by the Flinsen System. 412 Cured.

London, July 12.—Dr. Flinsen has transmitted to the Paris Academy of Sciences a tabulated list of cases of lupus on which the Flinsen light cure has been tried. Out of 804 cases, 412 have been pronounced cured. Of this number of cured, 124 have shown no signs of a recurrence of the disease after a period of from two to six years. The other 288 cases are of more recent date, and there is no doubt of their cure and they are believed to have been cured.

SIFTON'S NAME PUT FORTH FOR ALASKA COMMISSION

Vacancy Caused by the Death of Judge Armour Must Be Filled Soon.

Ottawa, July 12.—(Special)—Sir Louis Jette, Lieutenant-Governor of Quebec, arrived in the city yesterday, paid a hurried visit to the Prime Minister and left for home again in the evening. It is understood that the business which took Sir Louis to Ottawa was in connection with the Alaska Boundary Commission. The death of Judge Armour leaves a vacancy which must be filled by the Dominion government without much delay, as the commissioners will meet in September, and Sir Louis and his fellow commissioner will leave next month. Who the latter will be has not yet been officially announced, although the name of Hon. Clifford Sifton has been mentioned. Mr. Sifton has, however, without specifically doing the report, intimated that his connection with the case as chief counsel in the preparation of the British case might be barred him from acting as a commissioner. It was stated at the time of his appointment that Sir Louis Jette's acceptance of a commissionership was contingent upon his re-appointment to the Lieutenant-Governorship of Quebec for another term, and it is understood that at Saturday's cabinet meeting the renewal of his term was put thru, and an administrator to be appointed to discharge his connection with the Alaska boundary commission will be filled by the appointment of the Hon. Chas. Fitzpatrick. Mr. Fitzpatrick is a jurist of eminent ability. Mr. Fitzpatrick would do honor to the high position of Canada's representative on the arbitration.

SUGGESTION FOR DUELLISTS.

Paris, July 12.—A new invention provides bullets for pistols made of wax and tallow, which enable experts to confront and fire at each other instead of ordinary targets. It is thought this will insure greater precision, and the French press has published comments that if this is followed up it may enable duellists, by some possibility, to fight each other, and thus put an end to the bloodless duels which now plague Frenchmen up to the ridicule of the world.

Police on Train Hold Scoop in 3 of Bar Gang

Reading on orders from Provincial Detective Rogers, G.T.R. Constable Dunn arrested three members of the Stanley Park gang who had hidden in a box car near the foot of Dufferin street shortly before midnight on Saturday. They gave their names as William McKay, 24 Maude-street; Morris Kelly, 247 Parry-avenue, and John Rice.

Several Houses Unroofed.

Baltimore, Md., July 12.—During a severe thunderstorm to-day several houses were unroofed. Twenty persons were injured, but none fatally. The property damage is \$100,000.

Black Fiend Tortured By Enraged Mob of 200

Literally Skinned Alive and Pins and Knives Driven Into His Body.

Wheeling, W. Va., July 12.—A dispatch to The Register from Bluefield says: The full details of one of the blackest crimes that have ever blotted the history of the state has just reached this city. In Devon, a little 14-year-old girl was assaulted by a negro. The negro was afterward lynched by an enraged mob of over 200 men. The little girl was caught a short distance from her home by the negro and carried to a neighboring wood, where she was tied to a tree, bound and gagged. Her absence was noticed by the neighbors, who immediately formed themselves into a searching party. The girl was found in an almost dying condition, but was able to tell her story.

Blown Up Twenty Feet But Escapes With Life

Superintendent of a Copper Mine at Parry Sound Clashes With Dynamite.

Parry Sound, July 11.—A dynamite accident occurred at the McGowan Copper Mine today, in which Carl Anderson, the superintendent, was seriously injured. Five blasts were being let off from a surface work, and four exploded, and the fifth, not having gone off, Anderson approached to ascertain the cause. When he reached the spot the charge went off. He was blown 20 feet into the air. He will recover, but sustained serious injury to the left arm, and will lose three fingers from one hand.

Baby Swallowed a Pin.

Special Train Rushed Her to New York, 400 Miles Away.

New York, July 12.—The seven-month-old baby of Mrs. Lewis S. Thompson of Red Bank, N.J., whose husband has a camp on the Upper Saint Regis Lake, swallowed a safety pin on Friday morning. The camp is about six miles from Paul Smith's, where the child was taken to the doctor. Dr. B. J. James, who were there advised that the baby be taken to New York. The regular train had gone. They engaged a special, and accompanied by Dr. Trudeau, Jr., and the nurse, Mrs. Thompson left at 3 o'clock. They reached New York at about 11 o'clock at night and were met by Mr. Thompson. Dr. Winter was awaiting their arrival and took Dr. Winter only about two minutes to remove the pin, which had necessitated a journey of about 400 miles. It is said that Mrs. Thompson is about \$1000 for the special train.

Four Fatalities in a Day.

Rochester, N.Y., July 12.—Four fatalities were reported in this city to-day. At 6 o'clock this morning Martin Metzger and a man named Welch of this city attempted to cross the tracks of the New York Central at East Rochester. A long train of freight cars blocked the way, and Welch attempted to crawl under it. Welch got safely across. Metzger was caught underneath the train and was killed. He was hanging by shreds of flesh. He died later.

Lightning Kills Fish.

Woodstock, July 12.—The Review, speaking of the thunderstorm on Friday night, says: As far as can be ascertained, no serious damage was done by the lightning, save to the government fish tanks, which were struck and if this is followed up it may enable duellists, by some possibility, to fight each other, and thus put an end to the bloodless duels which now plague Frenchmen up to the ridicule of the world.
