Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

GRAIN WAS PUT IN BARN TOO QUICKLY, THRESHERS COMPLAIN

Anxiety of Farmers to Save Crops Causing Trouble.

BLYTH, Sept. 20.—The threshers are complaining considerably about the state of the grain. The farmers were too anxious to get their large yield in the barn, and put it in before it was thoroughly dry. In consequence it takes longer to thresh, and besides the grain is apt to be musty and not bring as good a price.

Fred Hargith had his leg and collarbone fractured and was badly shaken up yesterday when his horse ran away.

ST. MARYS FAIR HAS NEVER MISSED ONCE IN SEVENTY-ONE YEARS

Many Fine Exhibits at South Perth Society's Big Show.

ST. MARYS, Sept. 20.—The seventy-first fair held under the auspices of the South Perth Agricultural Society opened today. Not a year has been missed since the first show in 1846. This is believed to be a record for the district.

The local hydro commission has a display of electrical utensils.

C. W. Coupland, vice-president of the South Perth Agricultural Society, has been 35 years a director on the fair board, and has a fine musical display placed under a neat canopy in the centre of the hall.

He has on exhibition a program of St. Marys fair held in 1850, Edward Long, being secretary, father of the town treasurer, Miss M. E. Long, Mr.

Look at these two Circles

The small circle represents the amount of Bovril; the large circle represents the body-building value of that amount of Bovril.

These extraordinary powers of Bovril were proved by the independent investigation upon human beings carried out by one of the foremost Physiologists in the British Isles. In these experiments the result of adding Bovril to the normal diet of the individual was scientifically watched, and it was finally and definitely demonstrated to the satisfaction of the scientific world that the body-building power of

BOVRIL

is equal to 10 to 20 times the amount taken

No increase in price since the War.
