A Week of Specials for the Home

The program of exceptional business planned for the month would be more than incomplete without just such attractions as are ontlined on this page. The housefurnishing departments are always strong features, and by careful preparation we are able to offer important reductions from regular prices without losing money ourselves. Special purchases of CARPETS AND FURNITURE, CUR-TAINS AND PICTURES, CHINA AND CROCKERY, combine to make this an occasion of more than ordinary interest, and home-owners will find the values positively without equal in Toronto. The precise fact is that no better bargains have been offered this year, and many of these things will be bought now for Christmas giving.

Brand New Carpets at a Big Reduction

During the recent general depression fewer people bought Carpets. and even the best manufacturers found themselves badly overstocked. We have been picking up special lots all the year at our own prices, and giving Toronto people such values as are never possible in a regular way. The result has been a quickened demand, and hundreds of families have carpeted rooms and entire houses at a saving of 25 to 50 per cent. Nothing pleases us better than to be able to help them do this, providing we don't lose the money ourselves, and any concession we get in the buying is being distributed among our customers for the sake of future business.

We have just closed another transaction that brings us between thirty and forty thousand yards new and handsome Carpets at a price below the actual cost of making. This is one of the most fortunate purchases we have ever made, and instead of holding for a big profit we put the entire assortment into the bargain camp to help along the special October selling. Anyone wanting floor coverings who misses this chance will be
