SECTARIAN FEUD IN SCHOOLS

Ten Dovercourt Boys in Court for Assaulting Catholic Pupils.

Ten pupils of Dovercourt public school appeared before Magistrate Kingsford yesterday afternoon in the children's court, charged with assaulting a number of pupils of St. Anthony's separate school. After giving the boys a lecture his worship dismissed the charges against them.

For some time there has been sectarian bitterness between the scholars of the two schools and on two different occasions recently they have engaged in lively warfare. Nearly 200 of the Dovercourt boys made an attack on the Catholic school pupils.

A Polish woman in Winnipeg, who is alleged to have drowned her new-born babe in the lavatory of the hotel where she has been employed, is charged with murder.

REV. W. C. WHITE ORDAINED BISHOP OF HONAN, CHINA

Ceremony in St. James' Cathedral Marks Epoch of Canadian Anglican Church.

An event marking an epoch in the history of he Anglican Church in Canada took place in St. James' Cathedral yesterday, when Rev. W. C. White was consecrated Bishop of Honan, China.

Seven archbishops and bishops, amongst whom were Archbishop Matheson of Prince Rupert's Land, Bishop Farthing of Montreal, Bishop Sweeny of Toronto, Bishop Mills of Ontario, Bishop Du Moulin of Niagara, and Assistant Bishop Reeve of Toronto, assisted in the laying on of hands, and no less than 42 ordained representatives of the Episcopal Church were present at the ceremony.

Canon Tucker, general secretary of the Anglican missions, in preaching the consecration sermon, said that in the person of Bishop White, the Anglican Church were sending a representative endowed with special gifts, and one who knew missionary work as few knew it. The bishop-elect had worked among the lepers, and by following out the precepts of his Master in this way, he had well earned the highest office which the church could bestow.

The Anglican Church in Canada had outgrown the parochial stage, nay, more, it had outstepped even the bounds of nationalism, a fact signalized by the appointment of Bishop White as the first missionary bishop in the annals of the church in Canada.

With a rare burst of eloquence, Canon Tucker concluded his address by saying that he foresaw a young, vigorous church arising in China, new only in time, but old as the doctrines of Christ, the only church against which the gates of hell could not prevail, for it was built on foundations of which Jesus Christ Himself was the cornerstone.

Bishop Farthing then put the usual questions of faith, doctrine and dogma to the bishop-elect, who subsequently left to don his episcopal robes. On his return Archbishop Matheson handed him the Bible, and following the celebration of the holy communion, the benediction was pronounced.

A coincidence in connection with the consecration of Bishop White was the consecration of Rev. Arthur Lea, son of Joseph Lea of Toronto, as Bishop of Kiu Shiu, Japan, in St. Paul's Cathedral, London, England. Both services were held at the same hour and both church dignitaries are graduates of Wycliffe College, Toronto.

DR. SMITH'S RETIREMENT

Press Club Hopes He Will Not Lay Down His Pen.

"The Toronto Press Club hopes that a recent announcement made by Dr. Goldwin Smith relates only to the form of which his contributions to journals will appear, and that his many friends and admirers will continue to have the privilege of reading from time to time his comments upon public affairs.

"The Toronto Press Club takes this occasion of placing upon record the affectionate regard of its members for their distinguished honorary president. By the members of the press of Toronto, Dr. Goldwin Smith is known not only as a scholar, historian and publicist, but as friend, courteous, helpful and sympathetic. In his career as a journalist he has set a notable example of courage, honor and independence."

This resolution was adopted by acclamation at the meeting of the Press Club last night on the motion of John Lewis, The Star, and C. O. Knowles, The Telegram.

The meeting was fully attended the guest of the evening being Wilton Lockaye, who imparted some pleasing experiences to the audience C. L. Ensley, of Miss Robson's Company, was also present. Norman Lambert, The Globe, whose magnificent voice was heard for the first time in the club, contributed two songs.

NEW SCIENTIFIC HEATER

The Great Le Page Furnace is an Essential to Housekeeping.

An invention that will without doubt revolutionize the furnaces of the world has just been completed and is on exhibition at the offices of the Le Page Hygienic Furnace Co., 72 East Adelaide-street.

This furnace is the invention of W. N. Le Page, who is a well-known figure in many of the latest scientific achievements that have eliminated numerous of the old inconveniences that the people of the last generation were forced to bear. But of all his many triumphs it is probable that the last will be one that will keep his memory long green by the grateful housewife.

This furnace is not a coal-consuming heater. Gas is the only fuel that is required, and it will continually supply pure air to any room and can be regulated to the temperature without any difficulty. There are no ashes to sift, no coal to make the cellar dirty and it is most easily managed. The heat is provided by a steam coil, thru which two gallons of water steam is generated. It is conveyed without escaping to a larger coil of piping, in which it is superheated by an intensifier. A constant supply of fresh air, coming into contract with these coils as it is passed thru the furnace, is heated and distributed thru the house.

This wonderful Le Page furnace is essentially a hot air furnace, but it is free from all injurious substances, and by this means the house is kept free from all stagnant airs and acts as a preventive against bronchial diseases, where the ordinary coal heating is conducive. The furnace can be regulated by the simplest methods and the principle of superheated steam, a recent scientific invention, is here applied to produce the maximum of heat, with the minimum amount of fuel, thus ensuring economy and a steady, uniform temperature. This will also be a great deal warmer than ordinary, owing to the fact that superheat is 330 per cent. hotter than saturated heat. The furnace is also lined with asbestos, and installing one of these will reduce the insurance on the building to the minimum rate.

BEFORE TREATMENT

AFTER TREATMENT

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."
