WALL STREET CURB.

New York, July 6.—The market closed fairly strong following a day of active trading. The ending of the Democratic convention at San Francisco caused a buying movement early in the session, which was helped along by easy money. Early gains were reduced by profit-taking toward the close. Asphalt, after reaching 75½, receded fractionally. Steamship held firm at 2½.

Considerable strength was evident in the oils. Maracaibo sold up 3½, to 28½, later losing part of this gain. Salt Creek moved up a point, at 34½. Cosden was strong, selling at 7¾, agnew high for the present movement. Omar was firm. White Oil was active around 19½.

The mining list was quiet.

NOVA SCOTIA EARNINGS.

According to Hayden, Stone & Co., net earnings of Nova Scotia Steel & Cosden & Stone and the preferred dividend, amounted to \$6 per share on the common stock last year. They say that there is a settled improvement in all branches of the company's business and that the current year's carnings should materially exceed the 1919 figures. Orders for steel are on hand to cover production for the balance of the year.

SUGAR PRICES.

The wholesale quotations to the retail trade on Canadian refined sugar, Toranto delivery, are now as follows per 100-lb. bags:

CHECK BORROWING.

On the money question, the National Bank of Commerce, New York, says:

"Until the railroad situation improves sufficiently to afford an adequate physical basis for the prompt liquidation of commercial and agricultural credits, the increased discount rates adopted by many of the federal reserve banks can hardly be expected to do more than check further borrowing; thereafter they should be a strong influence in effecting a curtailment of outstanding credit, in preparation for the heavy autumn requirements."

bosed sale of the Australian business of the Sherwin-Williams Paint Company, One report had it that the company was receiving \$1,300,000 in cash and \$2,000,000 in preferred shares in a new company for this sale. The view was expressed that it is probably the company's intention to dispose of all its foreign business and devote its attention exclusively to the development of its domestic and export business.

Quebec Ry. Stock Buoyant on Rumor of Coming Fusion

Montreal, July 6.—Rumors that the long-standing differences between the Quebec railway management and the French shareholders is likely to be settled, caused the stock of this company to be buoyant today. This morning it opened at 30 and closed this afternoon at 34½. Another rumor on the exchange stated that the Quebec Railway would be fused with the Shawinigan Power Company.

COMPANY.

Be:leville, Ont., July 6.—(Special)—Protase J. Blanchard, a young man of this city, was this afternoon by Magistrate Mason committed for trial on a charge of theft of \$221.98 from the Dominion Express Co. It is alleged that the money disappeared after the package had been delivered to Blanchard.

An address on the modern conception of public health administration was given by Dr. C. J. Hastings, M. O. H., at the meeting of the Tork Ploneers and Historical Society at the Shawinigan Power Company.

### **PRICES ARE CUT** IN CORN MARKET

Assumed More Solid Dimen- Result of Ideal Crop Conditions and of Big Receipts.

New York, July 6.—The session of the stock exchange today was accompanied by general but irregular accessions to last week's spirited rally, events over the three-day recess receiving Table interpretation in professional quarters.

Dealings assumed wider and more solid dimensions than at almost any period in the previous month. Transportation shares were the only issues of importance to continue their sluggish and uncertain course.

Money was the paramount factor, call loans soon easing from their opening rate of mine per cent, with free supplies at seven per cent, in the less active the higher-price level of the last hour.

While the branches of the federal reserve bank as a whole failed to show York clearing house statement of last Saturday reported substantial improvement. Actual cash holdings over legal requirements by that institution rose to the largest total but one so far this year.

The foreign exchange market was moderately active on an accumulation of children accession of the corn market today, chiefly as a result of ideal crop conditions and of big receipts. requirements by that institution rose to the largest total but one so far this year.

The foreign exchange market was moderately active on an accumulation of business over the holidays. British bills cased slightly, but marked strength was shown by French and Belgian remittances, also Italian exchange. Terms of the new Swiss \$25,000,000 loan by a United States syndicate at an eight per cent. yield indicates that the Helvetian republic is feeling the world-wide money strain.

There was no change in the character of the stock dealings, steels, equipments, oils and motors continuing to lack, he evidenced by the net-sains of 2 to 5½ points in Repiogle, American and Baidwin Locomotives, Mexican Fetroleum and Studebaker, Sales amounted to 565,000 shares.

All classes of bonds, including Liberty and internationals issues, shared in the better tone of the investment market. Total sales (par value) aggregated \$11, 175,000. Oid United States bonds were unchanged on call.

ANNUAL SUMMER SCHOOL OPENS AT ALBERT COLLEGE

Quebec, July 6.—Interviewed by a correspondent, Mr. L. A. Lapointe, federal M.P. for Quebec East, declared that in his opinion the Unionist government was about to meet its doom. Nothing could save that tumbling down administration, said Mr. Lapointe.

Questioned whether he had not been mentioned as likely to receive openings from the new cabinet, the M.P. for Quebec East, smilingly said that he did not think that any one in this province was "so far gone" as to believe such nonsense.

Regarding Guelph Hospital

Montreal, July 6.—Journeymen barbers have decided to go on strike for higher wages. They demand a minimum of \$25 per week and 50 per cent. of all taken in over \$35. This will necessitate charging 25 cents for a shave and 50 cents for a haircut, the master barbers contend, and they have refused the demand. Under present systems the average pay of barbers is about \$17 per week, with 50 per cent. of anything earned over \$25.
