

large in amount, stimulated and encouraged the commencement of this important undertaking.

Now that, under favourable auspices, the work has progressed so far towards completion, and the prospect is before them of being ere long in possession of an edifice which, it is believed, shall be an ornament to the city, as well as a credit to the congregation and the Presbyterian Church, your Committee have reasonable grounds for the expectation that efforts, commensurate to ensure the regular and full completion of the whole, will be at once taken, and carried out.

Your Committee are encouraged to hope that many who have not yet been called upon will be found willing to contribute, in proportion to the means with which Providence has blessed them, and that all will feel it a privilege and an honor, as well as a duty, to extend or increase their contributions if necessary, and if within their power.

Statements of receipts and expenditure in connection are submitted by the Treasurer, and herewith, also, an abstract statement embracing expenditure incurred, and an approximate estimate of the amount still reckoned to be needed, in connection with the funds already provided, in furnishing the remainder of the works, shewing a deficiency of \$10,042 still required fully to complete the whole.

All of which is respectfully submitted.

E. MCGILLIVRAY,
President Temporal Committee.

J. P. ROBERTSON,
Secretary.
