RUSSIANS SUDDENLY TAKE OFFENSIVE AND DEFEAT THEIR ALLIED ENEMIES

Drive Austro-Germans Across the Dneister; Capture 6,500 and Many Guns -- Germans Have no Lack of Men or Munitions

Petrograd, June 11.—Suddenly assuming the offensive, the Russian forces in Galicia, south of Lemberg, have defeated the Austro-German forces upon the Dneister River, capturing 6,500 men, 188 officers, seventeen cannon and 49 maxims guns.

Official announcement of the victory was made by the Russian War Office today. The Austro-German army of General Von Linsingen has been driven back across the Dneister by the Russians, and the Austro-German drive against Lemberg from the south has been checked.

Genoa, June 11.—A despatch to the Tribune from Innsbruck says: The Russians bombarded the Austrian positions from Stanislaw to Belsk on the left bank of the Dneister. They have driven the Austrians across the river, making a large number of prisoners. The Austrians have also been obliged to fall back across the Dneister at Bukowina. The Russians stopped the advance of an Austrian column marching on Kolomea. The action was fierce and the losses heavy on both sides.

London, June 11.—The Daily Mail's Petrograd correspondent telegraphs that in addition to one million German troops pressing towards Lemberg, there were 800,000 moving against the Dneister line. He says that nowhere on the Galician front or in Poland do the Germans appear to be short of men or munitions.

The hope that the German government already has drawn upon all her resources in Italy, says the correspondent. Out of nine million available German troops and six million available Austrians, he says not more than three million have been put even temporarily out of action. It is true that their losses have been heavy and that even the best troops show signs of occasional exhaustion, but the gaps are filled immediately and the line presses on.

Orders for nine million shells in the dominion, 70,000 men making them.

Toronto, June 11.—At the Canadian Manufacturers' Association meeting yesterday, General Alexander Britton, chairman of the shell committee, said that so far orders for 9,000,000 shells had been placed in addition to 100,000 shell cases, 2,000,000 fuses, 2,000,000 primers, and 1,000,000 friction tubes.

Will help Canada. Toronto, Ont., June 11.—J. H. Sheppard, of Montreal, new president of the Canadian Manufacturers' Association, said yesterday:

"There are good reasons for expecting that at the close of the war, a trade agreement will be arranged between the allies that will include Canada, and if this is done, we will have a possible customer in Russia, alone, that will greatly benefit Canadian industry and that should make British Canada a manufacturing province of the first rank."

Weather Bulletin. Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

The shallow low area which was west of Mississippi yesterday has moved into the lake region, while the high pressure has passed to the Atlantic. Showers occurred yesterday in the western provinces and during the night in Ontario.

Maritime—Light to moderate winds, fair today; Saturday, moderate to south-west winds, warmer and partly fair with local showers.

New England Forecasts—Showers to-night; Saturday, partly cloudy; light variable winds, mostly west.

The Italians And Austrians In Real Fight

Former Forced Back Several Times But No Decisive Victory for Either Side

Genoa, via Paris, June 11.—A Lath despatch to the Tribune says: "The Italians began their march against Corvara on the morning of June 8, when the first detachments were near the city. Austrian artillery opened fire and heavy masses of the infantry which were thrown forward forced the Italians to fall back several times.

WONDER NOW IS WHY SECRETARY GAVE UP POST

No Trumpet Sound in the American Note

Washington, June 11.—With the publication of the German answer to the note, officials of the United States government and diplomatic circles generally discussed the probable character of the German government's answer.
