

# POOR DOCUMENT M C 2 0 3 5

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, OCTOBER 1, 1921

Practically all the St. John troops and packs have again resumed their activities after the summer months and are all reported to be getting away to a good start for a season of successful scout work. Several new troops and packs are also starting up, making a total of eighteen troops and ten packs in the district.

**13th St. John (Coburg Street Church) Troop.**  
On Tuesday evening the Coburg Street Christian Troop resumed their activities for the winter, with twenty-four boys present, under the direction of Scoutmaster Dunlop.

During the evening the troop formed up in horseshoe formation, and the following badges were presented: First-Class Badge, Grade A Cord, Public Healthman, Poultryman, Dairyman and Healthyman Badge to Scout Watson Clarke; Laundryman's Badge to Scouts Fred Bridgen and E. Perry; First-Class Badges to Patrol Leader Kirkpatrick and McKenite, and Tenderfoot Badge to Wm. Daley.

During the evening the troop received a visit from Mission Troop, who joined with them in their games. The pleasant evening was brought to a close by the singing of God Save the King.

**16th St. John (Tabernacle Baptist) Troop.**  
There were fourteen boys present at the Tuesday evening meeting of the Tabernacle Troop. Under the direction of Scoutmaster Howard and Assistant Scoutmaster Fry, assisted by the provincial secretary, a troop court of honor was organized, and will deal with any problems arising in the troop. The patrol system, without which no troop

can carry on successfully, was also outlined by the provincial secretary and will in future be carried out in the troop.

**10th St. John (Mission Church) Pack.**  
A Wolf Cub Pack has recently been organized in connection with Mission Church, with Frederick Choppin as cubmaster. There were twelve boys at the first meeting, and two sires were formed with Sixers George William and Harry Mowery in charge. A few games were played and a good start made on the Tenderfoot work.

It is understood that Rev. Mr. Cody plans to reorganize a troop in St. James' church. We are also informed that a troop is likely to be started in connection with Douglas Avenue Christian church.

Rev. Mr. Gabriel has consented to act as rover scoutmaster of the 1st St. John Rover Troop (Trinity). Good luck to Mr. Gabriel.

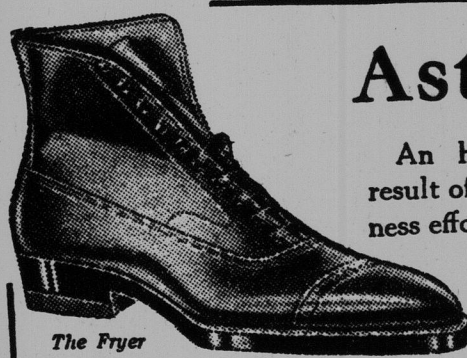

Wilfred Madsen has resigned as scoutmaster of Centenary Troop. No doubt the Rev. Mr. Fulton will not lose any time finding a scoutmaster for his troop, as it is understood that Mr. Fulton had a very successful troop in his church in Halifax and realizes the value of a troop to his church.

Commissioner Guy L. Short and Mrs. Short have returned after a very pleasant vacation spent in Truro and Moncton.

The open season for partridge, which is set by the governor-in-council for the province, begins today and continues in force until Thursday, October 20. The bag is limited to six birds a day and to twenty birds for the entire season.

## BASIC INDUSTRY HAS IMPROVED

More Confidence Expressed  
in Steel Trade Circles—  
Prices Going Up.

(The Iron Age.)  
"Leaders in the steel trade speak of larger mill operations in the last quarter of the year with a confidence they did not show as September opened. The past week has brought further signs of betterment."

"Following the advance of \$5 per ton in sheet prices made by several independent makers, the Steel Corporation's sheet subsidiary announced that from September 22 its prices also would be based on 230c. for blue annealed, 3c. for black, and 4c. for galvanized sheets. As in wire products two weeks previous, the sheet advances brought a flood of orders and specifications at the old prices, estimated at close to 200,000 tons."

"There is pretty general adherence to the new prices on black and galvanized sheets, but a few mills still quote blue annealed in all gauges at 225c., while some mills that price only on No. 12 gauge and heavier. Along with the sheet advance has come an effort to lift the sheet bar market. Two or three independent mills ask \$32, or \$2 above the present contract basis."

"It is too early to tell how far independent producers of the heavy products will hold for the advanced prices or how they will fare with the Steel Corporation itself, in view of its policy of meeting competition. A first effect has been the appearance of inquiry for bars for the last quarter of the year, and in some cases for structural shapes and plates. It is well understood that in the heavy products, especially rails, plates and shapes, present and prospective demand is only a fraction of capacity."

"The increased rate of wire, sheet and tin plate production is encouraging, but these high products make a smaller increase in input output than might be gathered from some optimistic reviews of the week."

"The pig iron market shows a decided increase in buying."

### DEER AND MOOSE.

Sussex Records—Deer are much more plentiful than last season. A number of very fine specimens have been shot in this county since the season opened. There is not the same rush for big game as there was last year. This is probably due to the fact that the sale of meat, except by the person by whom an animal is killed, is prohibited. Moose are not scarce, but there is not the same incentive to get after them as in the days gone by. The best counts yet have been selling locally for fifteen cents per pound.

### CONEY ISLAND TO HAVE \$1,900,000 BOARDWALK

Bids for the construction of a new boardwalk at Coney Island, of which the estimated cost was \$1,900,000, were opened the other day at the office of the Borough president of Brooklyn. Work on the new structure, from Ocean Parkway to Thirty-seventh street and will be two miles long, eighty feet wide and fifteen feet above the beach, will be formally begun on Saturday, when Edward Riegelmann, the Borough president, will deliver the first stake.

### Another Educational Lead.

La Presse: "The Minister of Education in the Lloyd George Government considers that there is, in the English educational system, too wide a gap between the high schools and the universities. He announces, therefore, that the British Government will spend about \$15,000,000 on the foundation of classical colleges or other institutions to provide means which will better prepare the pupil to pass from the high school to the university. Canon Chartres, vice-rector of the University of Montreal, has every reason to congratulate himself that the new system of the English Government has existed here for a long time. What is taking place in England demonstrates the clear-sightedness of the devoted founders of our classical colleges and proves the claim they have to our admiration and appreciation."

## "CHOOSE"

bids Fashion. "Suit your silhouette to yourself and your costume—it is the day of individuality."

BE natural; but be mindful that this advice is as ruinous to charm as are the rigid lines of the over-corseted figure. The unsupported figure all too soon evidences its neglect in unpleasing lines and sagging tissues that treacherously add perceptible years.

For the woman who would make the most of her natural beauty, there are some unobtrusive

## GOSSARD CORSETS

which join amazing pliability with healthful support, smoothing to slimmness where smoothing is necessary and graciously supplementing where there is need of it.

Our corsetiers are skilled in this elusive form of individual corsetry.

8 King Square.

### BLOW RESTORES MEMORY.

Poughkeepsie, N. Y., Sept. 30.—Arthur L. Fitzpatrick, who was seriously injured several weeks ago, when he was thrown from a trolley car, is thankful for the accident, which was the cause of restoring his memory, lost a year ago, when he was struck on the head in a bicycle accident.

Fitzpatrick is a conductor on the New Paltz-Highland trolley line, just across the Hudson River from this city. Several weeks ago, when he was pulling down the shades on a car during a rainstorm as he stood on the running-board, he was struck by a pole and thrown into a pile of stone. His skull was fractured. After an operation, which saved his life, he found that the effects of the bicycle accident had disappeared.

# Citizens and Voters of New Brunswick

## Do Not Let The Liquor Men Deceive You.

It is the same old bunch with a new name and it is the same old business

A Great British Statesman said: "Give me a sober people and I will provide the revenue for the Nation".

Lloyd George says: "The greatest enemy that Great Britain has is drink."

These men know the facts. They know from actual experience what destruction the liquor business wrought.

## On October 10 vote "Yes"

And help to make New Brunswick a Sober Province.

Issued by New Brunswick Temperance Alliance.

This Beautiful Genuine Canadian Wolf Set

Is only one of the many hundred fashions illustrated in Hallam's Fur Fashion Book. The large animal seal measures about 32 in. silky, lustrous and long is the fur.
