THE STOCK OF TRADE.

Dun's Review says of Montreal whole-The little impetus given to wholesale trade by the unusually fine weather of three weeks ago has apparently received some little check, doubtless owing to less favorable atmosphere conditions, and the general brak-up of the country roads In various quarters a falling off in collections is reported, but it is gratifying to note that the district failure list for the week is the smallest in number, as well as volume, of liabilities, for some months.

A good many dry goods buyers are onfining present orders to closely-conidered needs, but on the whole the volume of business reaches a fair aggregate

Bookkeeper, High School education,
five years' experience, best references, desires change of position, May First. Salary \$15.—Box D 29, Times.

Nothing has as yet developed with regard to revised cotton quotations.

Boot and shoe manufacturers are but partially employed, and in the leather market no very large sales are reported locally, but there is a fair expert sut-

In groceries and other lines there is really little new. ABITIBI AFFAIRS

to note that the district failure list for the week is the smallest in number, as well as volume, of liabilities, for some months.

The market for iron, and heavy metals generally continues sluggish, the railways and other large consumers being buyers to a very limited extent. There have been some recent offerings of American pig iron, with no resulting business, however, and local quotations for ordinary foundry iron remain easy at \$29.80.

A good many dry goods buyers are confining present orders to closely-con-

WATCH REPAIRERS

New York, April 4—Business on the stock exchange yesterday exceeded all previous high records for the year, sales beig estimated at 1,250,000 shares. The large turnover was accompanied by several new high records among favorite issues, including United States Steel, which showed much of its former prominence.

Gains of one to four points were made by numerous industrials and specialities and the demand for low priced rails was unusually extensive.

and the demand for low priced rails wa unusually extensive.

The movement derived much of it momentum from favorable advices re specting general trade and industria conditions in various parts of the United States. The coal strike was in no per ceptible degree a market factor.
