CRISIS IN AUSTRIA

Government Unable to Maintain Power and Republic Likely to Collapse

Berne, Nov. 16.—A serious crisis appears imminent in Austria. Political discontent and the economic distress are arousing the people. The Vienna government, it is reported, is unable to maintain its power, and the republic is likely to fall to pieces. Several groups declare for a union with Germany.

It is asserted that the Austrian army will not attempt to prevent a new revolution, as its officers have for some time been gradually replaced with socialists.

REVIVAL OF AMATEUR SPORT

Major Fred Smith, national physical director for Canada, will leave this evening for Fredericton to deliver a course of lectures on physical education. Today he said a wonderful revival of sport had taken place throughout the country especially in the maritime provinces. He had just returned from Glace Bay and plans are now under way for a huge programme during the coming summer season. The organizations behind amateur sport expect to have this programme arranged.

There is to be a meeting of the Amateur Athletic Union of Canada, maritime branch, in Halifax November 29 at which plans will be drawn up for a complete re-organization of the amateur sport in the maritime provinces. F. A. Dykeman of this city is to be secretary. A. W. Covey of this city will hold a meeting of the local amateur branch soon to line up a programme for the delegates to present at the association at the meeting in Halifax. It is understood that a strong delegation will go from New Brunswick to Halifax to look after the interests of amateur athletes in this province. This meeting is being held to arrange a large programme for next season as the Olympic games will be held in Belgium next summer and there is a possibility that probably New Brunswick may be able to enter for these games.

HAVE YOU SCROFULA?

Now Said to be as Often Acquired as Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise.

Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills,—there is nothing better for biliousness or constipation.
