NOT INCLINED TO OPPOSE FARMERS IN BYE-ELECTIONS

Apparent Policy of Liberal Party, Says Ottawa

Letter from Hon. Mr. King on the Matter and Opinion Expressed That, Where Farmers Have Candidate Nominated, Liberals Will Not Put up Man

(Special to Times.)

Ottawa, Ont., Aug. 28.—It would appear to be the policy of the opposition in the pending federal bye elections to place candidates in seats where representatives of the United Farmers or Grain Growers are nominated. This is fairly clearly indicated by the attitude taken by the Liberal convention held at Alexandria in the County of Glengarry, on Tuesday evening. At that convention a resolution was passed before the meeting tendering the Liberal nomination to Hon. W. L. Mackenzie King, but before the resolution was put to a vote the secretary, S. H. Cline, read a letter received from Mr. King on August 12 last. In this letter Mr. King referred to a meeting of the Liberal executive held that day and at which the unanimous decision had been expressed that should be tendered the nomination as representative of the county.

In his letter Mr. King thanked the executive but declared that his choice must be with the convention which would later be called. He further said, however, "I notice in the press reference to a farmers' convention to be held in Alexandria on Wednesday, the 10th inst., for the purpose of selecting candidates for the federal parliament and the provincial bye-election. I do not know whether this convention is called with reference in any way to the existing race in Glengarry or whether it is primarily for the purpose of selecting candidates for the general elections. The policy of the Liberal Party is laid down at the national convention just concluded is so akin in essentials to the policy of the United Farmers, as set forth in their platform, that contests at this time between a Liberal candidate and a farmer's candidate could not, in my humble judgment, prove other than detrimental to the interests of both.

"It is only effect, so far as I am able to see, would be to create such a division in the forces which are naturally opposed to the reactionary policy of the government in power as to afford the government just the opportunity it would like to have at the present moment. As leader of the Liberal party I should feel that I was placing both myself and the party in a false position were I to consider accepting any nomination which would have the effect at this time of placing me in an attitude of apparent antagonism to the farmers of our province. Such a position would be unjust to my own feelings, as it would be unfair to the aim and purpose of the Liberal party as expressed in the platform adopted at the recent convention. I hope, therefore, that in any mention which may be made of my name at the convention of Liberals on August 28 account will be taken of this all important consideration.

As a consequence of this letter the convention moved a vote of confidence in Mr. King and adjourned without nominating anyone. It is generally believed that the Liberal party will be followed in connection with all seats where bona fide United Farmers' candidates stand for election during the coming contests.

GIRLS WANTED

TO LEARN TELEPHONE OPERATING

REQUIREMENTS: Courtesy, Intelligence, Grade 8 Education

TELEPHONE OPERATING requires special knowledge and training, which is given in the School for Operators. Not only is this instruction given without charge, but the company pays you a salary while you are learning. In many lines of work a girl has to give her time for several weeks, or even months, learning a trade, and often in addition has to pay for the instruction. When the trade is learned and she is fitted for a position, she frequently has to wait more weeks or months before she can secure one.

Upon successful completion of the Telephone School Course, you are assured a position at once. Rapid promotion to responsible positions is possible for girls with ambition and intelligence, who are alive to requirements of a present day business woman at salaries in excess of most other lines of business.

GREAT INJUSTICE is done to many children by accusing them of obtuseness, inattention and stupidity, when they are subjects of physical defects of sight. At first glance they are slow to recognize a word, but it seems to come to them afterward. Such children, with the proper adjustment of glasses, often become the brightest of scholars.
