

BULK GOES TO A. PAUL KEITH

The Will of Vaudeville King
Is Read

ALL ARE SATISFIED

Generous Provision Made For
Widow, Numerous Bequests of
Minor Character and Rest to
Son, Who is Sole Executor

(Boston Post)
Announcement was made yesterday afternoon by the family of Benjamin F. Keith, to the effect that the will of the theatrical magnate had been opened and read by the widow and son.

After making "generous provision" for the widow, it is said that the bequests to the residue of the estate to his son, A. Paul Keith, who is made sole executor.

Value Not Stated

No statement has been given out as yet as to the value of the estate left by Mr. Keith. It is said by a person in close touch with his affairs, however, that certain newspaper estimates printed since the theatrical man's death in Florida, which placed it at \$800,000, were greatly exaggerated.

Mr. Keith's entire theatrical business was acquired some time before his death by his son and Edward F. Albee, the latter was Mr. Keith's general manager. They are now absolute owners and it is understood will continue the business as it is at present.

Numerous bequests of a minor character it is said are designated in the will. The son and the widow have expressed themselves as entirely satisfied with the provisions of the instrument, which will be filed for probate at Dedham, county of Norfolk in the near future. Mr. Keith's residence was in Brooklyn.

Since the funeral of his father, A. Paul Keith has remained in Boston. The widow accompanied her father, P. B. Chase, and her brother, to their home in Sparta, Ohio. The Keith Brookline residence is closed at present. Mrs. Keith was formerly Miss Ethel Bird Chase.

Official Statement
The official statement given out yesterday in regard to Mr. Keith's will follows:

A. Paul Keith announced today that the will of his father, Benjamin F. Keith, had been opened and read by Mrs. Keith and himself, but will probably not be offered for probate at once.

By its provisions, Mr. Keith makes numerous bequests of a minor character and after making generous provision for his widow, gives the residue to his son, A. Paul Keith, who is made sole executor. A. Paul Keith and Mrs. Keith stated that the provisions of the will are entirely satisfactory to them.

The entire theatrical business of B. F. Keith was some time ago acquired by A. Paul Keith and Edward F. Albee, making them absolute owners of it.

MORNING NEWS OVER THE WIRE

Manuel Josey, William Betts and Arthur Kearney, heard yesterday in the Westville mine disaster, died last night, bringing the death list up to five.

Yesterday's storm was severely felt in Albert county and the daily train on the Salisbury and Harvey Railway was snowbound last night about a mile from Salisbury. The passengers were taken to Salisbury in teams.

Parliament will adjourn for Easter recess on Wednesday and will open again on the following Wednesday.

A shipment of liquor seized at the C. P. R. station, Woodstock, was delivered to the consignees yesterday, as there was no violation of the law.

Rev. Frank L. Orchard, at present pastor of the Baptist church at Mount Auburn, has accepted a call to the United Baptist church, Woodstock.

The storm yesterday played havoc with the schooners at Westport. Schooner Loran B. Snow, which started to drag ashore was rescued by the tug Helena. Schooner F. Colgate, of Westport, is ashore at Irish Cove, but not damaged. The keepers of the Point Prim light report an unknown barge, without a tug, anchored twelve miles off the Gut.

A bill amending the land and tenancy act by making it illegal to distract for rent on goods in the premises on conditional purchase or bought on the installment plan and not fully paid for.

When such goods are taken the bill provides that the vendor may serve notice on the landlord and would be entitled to receive the balance due him or to have the goods returned.

ALTITUDE AND HEALTH

For some time it has been known that living at a high altitude brought about a definite change in the blood which rendered activity in the rarified atmosphere of heights more easy. Just what this change consisted in was not definitely decided. Some recent observations indicate that the problem has been solved and that there is an actual increase of the red blood cells, and consequently also of the hemoglobin, or red coloring matter, which acts as an oxygen carrier.

This is a very interesting conclusion for consumptives. It has been thought that altitude by increasing the activity of the lungs, was helpful to those suffering from pulmonary tuberculosis. It would seem, however, that it is not the external respiration but what is called the internal respiration—that is, the interchange of oxygen within the body—which is affected by living at a height.

The conclusion suggested is encouraging for the many consumptives who cannot go far from home, for it does away with one of the reasons why such patients were often sent to higher altitudes. Observation has shown in recent years that consumptives improve at ordinary elevations if only they live in the open air, thus affirming the scientific conclusions of these latest physiological observations.—New York Herald.

T. J. Philbrick, who carries mail from the East Alton post office to the trains, was working for \$12.50 a month, which he thought was not enough. Accordingly he resigned his position and when new bids were called for, offered one calling for \$18. No one else entered a bid and he got the work at his own price.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens
so Naturally That No-
body Can Tell

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyneth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 60 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning the gray hair disappears and after another application or two, your hair becomes beautifully dark, thick and glossy. Agent—Wasson's 8 drug stores.

RECENT DEATHS

Many friends in this city and elsewhere will learn with regret of the death of Mrs. John O'Brien, which occurred yesterday afternoon at her residence, 50 Mill street, after a brief illness. She had been in good health until a few days ago, when she was forced to remain indoors. Her illness was not considered serious at all, but yesterday she became suddenly worse and passed away very suddenly yesterday afternoon. She is survived by her husband, six sons and one daughter. The sons are John, Frank, Joseph, Wynn and Gerald, all of this city, and James, in Boston; the daughter is Mrs. Z. Lavigne, of this city. She also leaves one brother, John Burke, of Springfield (Mass.). The funeral will take place on Sunday afternoon.

Rev. E. Strong, D. D., died in Boston yesterday. He was for eighty-five years editor of the Missionary Herald and was widely known in the work of mission boards throughout the world.

John C. Arnold died at his home in Woodstock on April 1. He is survived by his wife, two daughters and one son. Mrs. Hornbrook of St. John is a sister.

The death of Mrs. Bertha, wife of W. R. McLaren, occurred at her home in Grand Falls a few days ago after a short illness of typhoid fever. She leaves her husband, three children, her mother, three brothers and two sisters.

B. Harrison Thomas, son of Rev. B. H. Thomas and Mrs. Thomas, of Dorchester, is dead after an illness of a year and six months of tuberculosis, which developed from an injury in his left arm. Mr. Thomas was formerly connected with the North End branch of the Royal Bank. He leaves his parents and two sisters. F. L. Harrison of St. John is an uncle.

TAFT'S ANTI-FAT RECIPE

Tells Regimen That Has Reduced His Weight 75 Pounds.

Major J. Edward Barry of Cambridge, Mass., who worries over increasing weight and is well past the 400-pound mark, heard that William E. Taft had obtained great success from a system of dieting. Mr. Barry wrote him at Yale and Mr. Taft, who weighed the diet which he says caused him to lose 75 pounds after March 4.

"My diet has not been severe," Mr. Taft wrote. "I have not drunk more than a glass of water or two at meals; I have given up bread and toast and all farinaceous food, all butter and fat, confined my meal to beef and mutton and fowl, and eschewed pork and veal, have omitted fat fish, like salmon, and have taken no sweets of any sort. Eat all vegetables but potatoes, and fruit that has too much sugar."

"Take moderate exercise every day. Try a game of golf or walk four or five miles each day. Do not lose too rapidly, because it is likely to injure the muscles of your heart if you do. Above all, be examined by the best physician you can get, if he will allow you to pursue this diet and you stick to it, I think you will reduce your flesh."

In a postscript Mr. Taft said: "I don't smoke or drink intoxicating liquors."

MISS CUDAHY LEARNING TO BE NURSE IN BOSTON

Boston, April 3.—Miss Helen Cudahy, daughter of Patrick Cudahy, a wealthy Milwaukee packer, has entered the training school for nurses at the Massachusetts General hospital. If the three months work as a probationer does not alter her mind, Miss Cudahy's recently announced intention of becoming a trained nurse she will then begin a three years' course. Between lectures and study hours she will join the other probationers in sweeping, cleaning and other similar duties.

BAD BLOOD

IS THE DIRECT CAUSE OF
Pimples.

Pimples break out on the face and body, and it is impossible to get rid of them, unless you cleanse the blood of all its impurities.

Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old, and reliable medicine has been in use for nearly forty years, and has a reputation unequalled by any other preparation for removing all the impurities from the blood and banishing the pimples.

Mr. Edward Paquette, Navan Centre, Ont., writes:—"One month ago my face was covered with pimples and a rash. I had tried a number of these so called blood purifiers with no avail. Seeing an almanac of yours in which you strongly recommend Burdock Blood Bitters, I decided to try a bottle, and after I had taken it I could see a decided change, and after using three bottles more all the pimples had completely disappeared."

GANG OF GIRLS SELLING MORPHINE

One Arrest Made in a Cam-
bridge Raid

LOT OF DRUGS FOUND

Buy in New York and Sell at
Large Profit is Belief—Arrest
Made in Raid on Den in Ne-
gro's House

Boston, April 3.—The discovery that a band of young girls had been illicitly carrying quantities of morphine, cocaine and other kindred drugs to Cambridge from New York, where it is easy to procure them, and selling them at a large profit, has started the Cambridge police because of the wide scope of the plan. A sweeping crusade which encircled the whole city has begun.

Find Drugs in Quantity

In a dingy back tenement reeking with filth at 146 Harvard street, the police found one of the members of the alleged gang. She gave her name as Mary Hasleton, twenty-one years old, of 1890 West Forty-third street, New York. In every room in the upper floors of the house were complete layouts for injecting the drugs, and large quantities of various drugs were found hidden.

The Hasleton girl will appear in the Cambridge Municipal court today to answer to a series of charges, including that of being a disorderly person, as well as being found with drugs in her possession. She is at present held in \$800 bail.

The police have set a drag net about the city to ensnare other girls who are known to be chums of the Hasleton girl. The den, which is owned by Louis Settleman, colored, has been under police surveillance for more than a month. Russell and a special man, Frank Andrew, were detailed to watch the girl's movements and the search warrant was secured and the police raided the place.

Battering in the front door, the two policemen with drawn revolvers, searched the premises. In the kitchen, hidden

Backache Banished.

Thousands of men and women are suffering from weak, lame and aching backs, and many of them unable to do any work for the pain.

The stitches, twinges and twinges are bad enough and give enough misery, but the backache, and the cause of it all are the disordered kidneys crying out in warning through the back.

Backache is kidney ache, and there's nothing to do about it for you, if you neglect it.

Doan's Kidney Pills cure every form of backache by curing the sick kidneys that cause it.

Mrs. Jack Mason, Springfield, N.B., writes:—"I have been suffering from backache for a very long time. I tried everything and did everything, but still I would suffer. One day I saw your advertisement for Doan's Kidney Pills, so I got 6 boxes, and I am glad to say that they brought me back to life again, and from now on I will never be without them."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.35, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

II ordering direct specify "Doan's"

How Nervous Men Get Most Out of Life

(From "Successful Men").
Every normal minded man wishes to get all he can out of life; and many a man knows that he is falling far short.

The successful man works, eats, and plays with the keenest enjoyment, because his nerves are keenly sensitive. He tastes, hears, sees and feels all with the highest emotions of vigorous healthy nerves. As a consequence, he has stamina, endurance and personal magnetism, which makes those near and dear to him worship his manliness, chivalry and strenuousness.

Without keen, sensitive, well nourished nerves, such a man would be an object of pity, and not the brilliant success he is. All men should have well-nourished nerves, but if the blood and vital organs do not supply the chemical or substance known as nerve fluid, then the waste of the nerves is not renewed daily and hourly as it should be. The nerves become exhausted, giving rise to such symptoms as trembling hands and limbs, cold feet and hands, melancholia, hysteria, timidity, nervousness, sleeplessness, digestive heart palpitation, pains in the back, headache, languor and weariness at all times. A most valuable nerve treatment, restorative in every sense, is to be found in the following prescription, emanating, it is said, from a brilliant and successful specialist on nervous ailments.

The treatment can be prepared in the privacy of home and thus causes no one any embarrassment. First get three ounces of syrup of sarsaparilla compound in a six ounce bottle. To this add one ounce of compound cod liver oil, shake well and let stand two hours. Then add one ounce of tincture cadomene compound (not cadomene) and one Mix. Shake well and take a teaspoonful after each meal and one when retiring.

It is astonishing to feel the new nerve force, the steadied nerves, and the control of every muscle in the body after using this. Overworked office men, and the many victims of society's late hours and dissipation will surely find in this the restorative, rejuvenating force they are sorely in need of. The ingredients are used in various prescriptions and any good druggist can supply them.

in a corner, were five colored men and the Hasleton girl. Suddenly the lights went out, and in the darkness the girl brushed past the two policemen and made her way to the upper floors. She was followed and went to a third floor bedroom, where she attempted to conceal a quantity of the drugs before the arrival of the officers. She was too slow, for both men seized her with the drugs in her possession.

Other paraphernalia used by drug fiends was also secured. While being conveyed to the station in the patrol car the two policemen and the girl had a free for all fight for a hand bag which she carried. The woman was slightly bruised in the struggle as the men wrenched the bag from her arm. In it were a morphine injector and one of the largest bottles of morphine which the police say they have ever seen.

The Curate—"Now, my dear children, I want you all to join me in singing that beautiful hymn, which I hope and trust we will sing together in the Great Beyond. 'Hush We Suffer Grief and Pain.'"

"Going Into a Decline," Tired and Worn-out

Constant Pains in the Chest and Back—Wonderful Results Obtained By Using Dr. Chase's Nerve Food

What a host of symptoms are summed up in these words: "Going into a decline." It means, in short, that the patient is daily growing weaker and weaker without hope of recovery. But read the letter quoted below and learn of the great food cure which naturally and gradually nourishes pale, thin, weak, tired-out men and women back to health and strength.

There is no treatment you can so well rely upon, for Dr. Chase's Nerve Food contains in condensed and easily assimilated form all the elements required to rebuild wasted and depleted nerve cells. It cures in Nature's way by filling the system with new vigor and vitality.

Mrs. Rena McNulty, St. Theodore, Que., writes: "I had almost constant pains in the chest, and backache. I was

tired and worn out nearly all the time. Four boxes of Dr. Chase's Nerve Food did me more good than all the medicines I ever took. My system seemed to be all run down and I was so weak I could scarcely do anything. The Nerve Food did wonders for me, and I was other women suffering as I did to benefit by my experience. I feel like a different person since using this great restorative."

Can you imagine any medical treatment better suited to the needs of a run-down system? As a spring restorative there is nothing to be compared to Dr. Chase's Nerve Food. It purifies and enriches the blood, builds up the system, and drives out pains, aches, tired feelings, and discouragement. Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

FEEL HEADACHY, DIZZY, BILIOUS? CLEAN YOUR LIVER! A DIME A BOX!

Sick headaches! Always trace them to a lazy liver; delayed fermenting food in the bowels or a sick stomach. Poisonous constipated matter, gasses and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Cascarets will remove the cause by stimulating the liver, making the bile out of the bowels. One taken tonight straightens you out by morning—a 1 cent box will keep your head clear stomach sweet, liver and bowels regular and make you feel bright and cheerful for months. Children need Cascarets, too.

the ferry was not run for the accommodation of the general public as no trips were provided between 7 and 8 a. m. and 5 and 6 p. m.

A resolution was passed condemning the misrepresentation being made in Europe regarding conditions in Canada, particularly in the matter of tradesmen, and a copy of the resolution will be forwarded to Premier Borden, Premier Fleming, the principal papers in Great Britain and to Alphonse Verville, labor member at Ottawa and to Ramsay MacDonald, labor member in the British house of commons.

A number of ward workers were present at the meeting and a number of new names were added to the list of ward workers.

AROSTOOK TO FIGHT THE POTATO DISEASE

Houlton, Me., April 3.—Farmers a potato dealers from all over Northern Maine to the number of 500 attended potato meeting here this week. The usual interest was due to the development of the powdery scab disease which was found in Aroostook county by pathologists of the United States Department of agriculture about six weeks ago. With their customary energy farmers of Aroostook have set about stamping this disease out and complete eradicate it from the soil and to this end there will be held in the county a conference of the seed dealers, followed by a meeting of the farmers and the speakers go to Presque Isle, Carth and Fort Fairfield giving a full day each place.
