### COLLEGE MATTER IS ADJUSTED

Difficulties which arose between the students and faculty at St. Joseph's College, Moncton, as a result of which the whole of the junior class of nine members packed up and left for their homes some two weeks ago, are now straightened out, and it is expected that all the boys will be back at their studies within a few days.

The boys said that they presented a petition, asking that some of these disciplinary marks be erased, but the authorities had no authority to inflict these punishments carried with them demerit marks which affected the boys' standing in their grades.

One of the students denied that an effigy of the professor with whom the boys had the trouble had been burned on the college campus. They said that a celebration was held on the college campus on the night of April 19th's day and that during the festivities an effigy was burned, but they asserted that it was not intended for an effigy of the professor in question as was hinted in a press dispatch which was sent out from Moncton last week. They believe that this conclusion was arrived at on account of the fact that the festivities took place on the same date as that on which the dispute regarding discipline came to a head.
