has a minimum draught of 10 feet. Ex-cellent quarters are provided for a crew of sixteen persons and, being an oll-burner, the Type can stay out at sea for a longer period than whalers us-ing steam, owing to the amount of fuel that can be carried. The whaling-gun, mounted on a roomy platform at the bows, is of the latest pattern and the apparatus for whale-hunting is generally similar to that used by the Pacific Whaling Co. On the trip this morning the Tyee was taken in a circle about half-a-mile from the outer wharf and an opportun-fty was given to those interested to observe the ease with which she is handled.
