Great Catches of Herring Along the Kent Co. Coast.

Interesting News From Many Sections of New Brunswick

(Continued from Page 5.) Restigouche.

CAMPBELLTON, May 1.—H. R. Murray, late of Newcastle, has leased the large building known as the Patterson block and has ing known as the Patterson block and has transfermed it into a handsome hotel, which he will open May 7 as the Commercial. The house has 35 bed rooms, lunch counter, livery stables, sample rooms, elegant sitting and smoke rooms and barber's parlor. Its situation on the river bank, right opposite the depot, will make it a most convenient house for tourists and the travelling public.

Sunbury Co.

MAUGERVILLE, May 4 —Large catches of gaspereaux are being made on the Portobelle and adjacent waters. Rafting commenced at the Mitchell boom yesterday. Steam power is used, as last year, for loading the joints. Tug Admiral passed here at 6 a. m. with the first raft of

Scarlet fever is quite prevalent here. The board of health have placarded several houses.—Councillor Banks sewed barley on the 19th ult., which is new up.—Thomas Bridges is leading a woodboat with hay from the Perley farm.

Kent Co.

RICHIBUCTO, May 5.—Great catches of herring are being made off here and all along the coast to the north. The best haul reported so far was made this week at Escuminar by James Legoof of this town, who with three men landed in two days one hundred and fifty barrels. Small beats off this harbor have secured as many as forty barrels this week. They can be disposed of to the lobster dealers at one dollar per

A band of ten tramps and beggars, made up of men, women and children, have been around this vicinity for the past ten days. They have a horse and wagon and a little tent to live in. One of the men has a club foot, another has a cancer eating his nose off, while the wemen and children are bare-

footed. The Coxey army can contain ne harder looking specimens of humanity.

Ourran & Little of Kingston have been awarded the contract for building the creamery at St. Nicholas River.—The fine weather has enabled the farmers to commence work. The wind being off shore is also favorable for putting out lobster traps.

to be opened on the middle of this month.

SUSSEX, May 5.—Mr. Atherton, the well known herseman of Amherst, N. S., and Mrs. Atherton, arrived here by train last night, and are about to make Sussex their future home. For the present they are staying at the Queen hotel.

A letter from Mrs. W. A. Teol, matron of the Boys' Industrial school of St. John, endersed by J. W. Dewney, the superintendent, was received today by Mrs. Garvin, whose sen with another lad by the name of Coates were sent to the school for breaking into the school house a short time since, gives an excellent account of young Garvin's

operation within ten days.

The Vendome hotel here has been disposed of to A. T. LeBlane and Fred Legere. The Queen fietel has also been taken under lease by Pascal Hebert, late of Memramceok.

J. Deveber Neales, grand secretary of the Orange association, has issued a warrant under the dispensation of Grand Master Kelly for the organization of a new Orange lodge in Monoton. This will be the third lodge in Monoton, and it will start with a membership of 62. The Orangemen will occupy their new hall in the Bank of Nova Scotia building in about a menth. The carpenters and masons are now busy getting up the building.

The Amateur Athletic association has not yet recovered from the base ball craze of a

of his son Saturday in the 87th year of his age. His funeral will take place tomorrow.

Frank Stockton will leave here on Monday with his famous stallion, Red Wilkes, for Nova Scotia, first visiting Amherst.

Large numbers are returning this spring from the United States, all bringing with them the old story of "Stay at home, boys."

NEWBURG JUNOTION, May 4 —Several farmers sowed grain on April 3rd, a remark-

farmers sowed grain on April 3rd, a remarkably early period. Grass is growing very rapidly.

Joseph Rebinson has his new house nearly ready for occupancy.

Jeremiah Dickinson was fortunate in having another house, his house at Acker Creek being burned last night.

Benton, May 4.—The funeral of Themas Godsoe who died on Tuesday after a lingering illness, took place on Wednesday afternoon. Rev. Themas Todd, the efficiating clergyman, was assisted by Rev. Fred Tedd of St. Stephen. Ernest Thomas has bought the farm from

Miss Nancy Kearney, consisting of 100 ocres of land, formerly known as the Daniel Kearney property.

Samuel Nixon, who has spent the past few years in California, on returning home this spring has decided to remain and work the old farm, ewned and occupied for many years by his father, Henry Nixon, who is now in fallier health.

bridge on York street was recently pur-chased by Charles A. Lewin from John Chittick.

ering of the choirs of the various parities. At the afterneon session on Tuesday an xegetical paper on the Greek of Hebrews viii.
was read by the Rev. H. W. Little, and a
practical paper on the same passage by the
Rev. E. P. Hurley, which were fully and
ably discussed. A service was held in the
parish church in the evening at 7.30, which
was well attended by the parishieners, and
an instructive sermon was preached by the
Rev. A. W. Smithers on Some Lessons of
the Ascension. There was a celebration of
the holy communion on Wednesday at 8 a.
m., the Rev. S. J. Hanferd efficiating.
The church was tastefully adorned with
choice fiewers and plants, and presented a
very pleasant appearance. After a prolonged and busy session on Wednesday, the
chapter adjourned with a warm expression
of thanks to Rector Warneford and friends
for the hospitality shown to the visitors. A of thanks to Rector Warneford and friends for the hospitality shewn to the visitors. A standing vote of thanks was also accorded to the Rev. O. H. Weeks, for a handsome contribution of books to the deanery library. It was decided, on the invitation of the rector of Greenwich, to held the next meeting at Oak Point.

Staying Up Nights.

(Puck.) Dodge—"Isn't that the Rev. Dr. Courtly of the Camel's Eye Memorial church? He's looking quite pale." Ledge—"It's overwork. He's been making a very careful study of the scriptures in order to clear up a certain question." Dodge—"What question?" Lodge—"He's trying to find authority to justify a man in swearing off his income tax.

Westport, N. S.

Capt. G. C. Haley, of the schr. Jessie B., says that for the last four years he had been a great sufferer from rheumatism in his knee, which at times swelled up and became very painful. He tried many remedies without success until he obtained some of Dr. Manning's german remedy, which gave him almost instant relief. He also says: "I have need it for indigestion flatulence, cold in the mest instant relief. He also says: "I have used it for indigestion, flatulence, cold in the stomach, cramps, neuralgia, and in fact for almost every kind of pain or ache. I would not be without it, he adds, at any price." Dr. Manning's german remedy is manufactured only by the Hawker Medicine Co., St. John, N. B., and is fer sale by all druggists and dealers.

Here

At Home. "Having used your Syrup for Indigestion with gratifying results, I have much pleasure in testifying to the benefits received

from it. Nothing that I had ever before tried gave me such speedy and permanent relief." Yours truly, E. Y. VAUGHAN.

To THE GRODER COMPANY, St. John.

LETTERS FROM THE PEOPLE.

April 11, 1894.

To the Editor of The News: SIR,-Permit me to ask you for a little space in your interesting paper to express my epinion of some of the statements made by your correspondent. Whilst I might not feel like endersing all of W. B. Fawcett's complaints or charges made against the Do-minion government, yet I consider his efforts

minion government, yet I consider his efforts a step in the right direction, and that the farmers were somewhat indebted to that gentleman for fearlessly taking up his pen in uttering our complaints and advecating a fair deal towards one of the most important industries—an industry that all acknowledge is now languishing and much depressed, especially in the maritime provinces. A great change has come upon us, and the altered circumstances in which we now find ourselves placed, not only by the opening up of the stances in which we now find ourselves placed, not only by the opening up of the Northwest territories, but also of the western states, make it impossible for us to hold our own in population and to compete with western producers, we being in a harder climate and soil less fertile, consequently the great need now for the farmers to assert and press their rights upon our this spring has decided to remain and work the old farm, ewned and occupied for many years by his father, Henry Nixon, who is now in failing health.

A building lot on the south side of the no representative farmer in the house of commons. I think we have some whose

bridge on York street was recently purchased by Charles A. Lewin from John Chittick.

Kingston Deanery.

Kingston Deanery.

The spring chapter of the clergy of this rural deanery was held at the rectory, Norton, May 1. There was a full attendance, including the Rev. E. A. Warneford, rural dean, who presided at all the sessions, and Revs. D. Pickett, H. W. Little, A. J. Cress well, S. J. Hanferd, N. C. Hansen, A. W. Smithers, E. P. Hurley, H. S. Wainwright, D. J. Wetmore. Reports were presented from the hon. secretaries of the Choral union and the Sunday school union. It was decided to held the annual meeting of the S.S. T. A. in August. Revs. D. Pickett, N. C. Hansen and H. S. Wainwright were appointed examiners for the deanery prize scheme. A committee was also selected to arrange for the next meeting of the Choral union at some place convenient for the gathering of the choics of the various pari. Jes. At the afterneon session runs the former in the house of commens. I think we have some whose business or profession runs the farm, not the farm running the protession, and even our own esteemed member, Mr. Woed, is too much of a railway man to pay much attention for our complaints about single cattle rates on the I. C. R. He replying they are carried as cheap as on western roads for the same distance, I would say that he is some what mitstaken, as I know of special rates being given to carry oar loads of cattle on western roads, about the same distance as from Sackville to Halifax or St. John, for \$12.50, or about half of our present rates. The great discrimination in favor of long hauls has slaughtered our markets, wrongfully taking from us our only protection, namely, near access, and very much less freight. This is unjust to us, and should now be changed, and it would, in my opinion, not be teo much to ask for freight on the I. C. R. not to be more than one half what it now is on all farm products. This would help us to compete with western products. But it will be asked, what about the receipts on the Interc western roads, about the same distance as frem Sackville to Halifax or St. John, for \$12 50, or about half of our present rates. The great discrimination in favor of long hauls has slaughtered our markets, wrongfully taking from us our only protection, namely, near access, and very much less freight. This is unjust to us, and should now be changed, and it would, in my opinion, not be too much to ask for freight on the I. O. R. not to be more than one half what it now is on all farm products. This would help us te compete with western producers. But it will be asked, what about the receipts on the Intercolonial railway. I the receipts on the Intercolonial railway. I answer this concession will not be as much as has in the past been given to help other industries whose productions have been carried ever the read at a loss, and consecarried ever the read at a loss, and consequently at the expense of the farmers. I would also say that the falling off of receipts would not trouble us, as it is the people's road and the majority of the people are farmers, who contribute more to the revenue, or a heavier percentage to their wealth, than the business or menied man. I would suggest that in order to establish the equilibrium between expense and income, that the pruning knife be applied, and that a lot of dead and pretty near useless branches be trimmed and lopped off that are not needed and always have been the cause of little fruit bearing—persons who live in luxury and who would not be forced to leave the country if their salaries were lessened. There is much more that should be said, but fearing that a lengthened communication fearing that a lengthened communication will trespass on your space, I will therefore for the present close by adding that changes we want and changes we think we should have, and that while we have not much

have, and that while we have not much power, neither as a body have had influence enough to attract the attention of our finance minister or the minister of agriculture, while they have been endeavoring to ascertain the wants and wishes of other industries. We notice that at the last deminion election that the maritime provinces contributed much to the strength of the present government, and that unless our interests here are new considered and changes made, we shall feel forced to make changes at the next general election.

changes at the next general election.

W. W. FAWGETT. Sackville.

Keep Thyself Pure.

The striking motto of the White Ribboners relates to the realm of morals, but of no less importance is it that the motto be applied to the physical system. Hawker's nerve and stomach tonic and Hawker's liver pills are the greatest of all blood purifiers and health givers. Ask your druggist for them.

Saved His Life.

Atchison Globe A physician recently saved a man's life in a way that was miraculous. He told the man he must have an operation performed and it would cost him \$75. The man couldn't raise the \$75 and he is alive to-

"Here," said the farmer, "just split up some of that railroad timber, and 'I'll give you a good meal." "Alas! I cannot," said the tramp; "the greater part of my life has been passed walking on such as those. It is too much like breaking up home ties.—
[Puck.

Just look at that fellow on the bicycle, will you? What in the world is the use of him humping up so? He must be trying to put his shoulder to the wheel.—[Indianapo-

While engraving a matrimonial invita-tion, a New York artist made a curious blunder. The invitation read thus: "Mr. and Mrs. Jehnson have the pleasure te re-quest your presents at the marriage of their daughter."

Pitcher's Castoria.

TRADE OF ST. JOHN.

April's Imports and Exports Fall Off.

As Compared With the Same Month Last Year.

The statement of the import trade of St John for April shows a decline of \$123,838 John for April shows a decline of \$123,838 compared with the same month last year. The decline was almost equally divided between free and dutiable goods, the former showing a less of \$62,662, and the latter \$61,176. Of dutiable goods can declined \$8,241, manufactures of fron and steel \$8.187, glass and glassware \$7.513, cotton \$7.293, oils, except kerosene, \$4.267, sibs. \$7,293, oils, except kerosene, \$4,367, silks \$4,093, and woollens, seeds, kerosene oil, earthenware and china, and manufactures of wood, each between \$3,000 and \$4,000 The total imports last menth were only

\$65,152 less than in April 1892.

The free goods list last menth compared with April, 1893, as above stated, shows a decline of \$62,662. In April, 1893, there was cotten weel imported to the value of \$28,024, and sheepskins with wool on, \$16,489. 428, neither item appearing at all on last month's list. Then \$10,659 worth less tea was imported last month, \$8.833 worth less of hard coal, and over \$2,000 each less of lumb ir and salt, besides other minor reductions. tions. This accounts for more than the real loss, but is connterbalanced by larger imports in some lines last month. For example, raw hides to the value of \$9,944 were ample, raw hides to the value of \$9,944 were imported last month, a most unusual thing, and accounted for by the collapse in the United States market just as the import of sheepskins was last year. Settlera' effects show an increase of \$3,381 last month. The big importation of cotton in April, 1892, is accounted for by the then favorable condition for buyers in the foreign markets.

Turning to the list of exports, and com-paring them with those of April, 1893, the figures as given below show a falling eff last month to the extent of \$130,546. The item of lumber and its products alone would account for this, being \$130,349 less than in April, 1893. But there was also a decline of \$3,628 in fish, \$1,351 in animal and agricultural products, and over \$4,000 in other articles. Among the items of increase last month were household effects, \$7,045, and a ship sold to Norway, \$6,318. The following is a detailed statement:

The lobster dealers of Portland, Me, will prepare a petition to the next legislature for a ten and one-half inch lobster law the year around. They say that the present nine-inch law will soon result in the destruction of the lobster. Under the present law, the canners and foreign market only are benefit-ted.—[Press.

GENERAL NOTES

Traffic returns of the C P R for week ending April 30 were \$372,000, a decline of \$85,000 compared with same week last year. Canners outside the combine are effering future vegetables at seductive prices .--

Stocks of Canadian hops have been pretty well cleaned out of the hands of the grower, there being probably eight or ten bins left altogether of 1893. For choice qualities the market has a tendency towards higher prices.—[Advocate.

The first lots of new cheese fer the season, over a thousand boxes, were shipped at Montreal last week for Liverpool per s s Lake Huron, which also took a considerable quan-

and a lot of cattle and sheep.

At Kingston, Ont., last week, cheese sold on the board at 10 7-16c, and at Brockville for 10-13-16 to 10 15-16s.

It is said that there is between 20,000 and 30,000 bbls of American flour in store at Mentreal, which owners are waiting to place, some of which is being offered at \$3.10 to 3 15 c i f. St Jehn's, Nfid.

Bran is cheaper in the west, being offered at \$18 laid down in Mentreal, in car lots. Middlings are also offered cheaper there.
Fancy creamery butter sold in Montreal last week at 22 to 22½c, and eastern tewnships dairy at 20 to 21c. Roll sold at 19 to 22c. The market is weak there, and New York has also gone off 2c within a week. The English market is demeralized.

A WOMAN'S RESCUE. An Interesting Story From Paris Station— A Sufferer for Six Years Finds Relief After Many Remedies Had Failed.

Mrs. E. H. Skinner is a well known and esteemed resident of Paris Station, Ont. To a representative of the Review Mrs. To a representative of the Review Mis. Skinner recently told a very interesting story of recevery to health after long years of illness. "I had been ill," she said, "for about six years, my blood had become thin and watery, bringing about a weakness amounting almost to a cellapse. There were numerous distressing symptems, such as dizziness, severe headache, and palpitation of the heart; and yeu can scarcely form an idea of what I suffered during that time. During the six years I was ill I was tion of the heart; and you can scarcely form an idea of what I suffered during that time. During the six years I was ill I was treated by four doctors in Brantford and one in Paris, but they seemed not able to do anything for me. When the physicians failed I tried many remedies, but with ne better results. All this cest a great deal of meney, and as I derived no benefit, I was completely discouraged. I tound myself growing weaker, and hardly able to go about. And yet one never wholly despairs, for seeing Dr. Williams' Pink Pills so strongly recommended, I determined to try them, and I have reason to be thankful that I did so. I had not been taking Pink Pills long when for the first time in the years I found myself 'improving. Gradually the troubles that made my life miserable disappeared, and I am again a healthy woman, and have no hesitation in saying that I believe I owe not only my recevery but my life to Dr. Williams' Pink Pills." As there are thousands of women throughout the country similarly troubled, Mrs. Skinner's story of renewed health will peint to them the remedy which will prove equally efficacious in their cases. Dr. Williams' Pink Pills are very valuable to women. They build up the blood, restore the nerves, and eradicate these troubles which make the lives of so many women, old and young, a burden. Dizziness, palpitation of the heart, nervous headache and nervous prostration apeedily yield to this wonderful medicine.
