NOBODY IS EXEMPT.
A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so called blood purifiers, which in many cases are merely strong cathartics. Such things are a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purgings is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets and they will help you.

It's a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease but cure the cause. Goes straight to it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However, Mrs. E. M. Faith of Byrd's Creek, Wis., writes:

"I have taken all the Tablets I got of you and they have done their work well in my case, for I feel a different person altogether. I had no doubt if I had not got them I should have been at rest by this time."

Mr. E. Willard, Oshawa, Ia., says: "Mr. White of Canton was telling me of your Dyspepsia Tablets curing him of dyspepsia from which he suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil Brooks, Detroit, Mich., says: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy me as I never have before. I gladly recommend them."

It will cost too, to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

LUMBER OPERATIONS.
Frederick Gleason. John Kilburn arrived home on Friday from the scene of his lumber operations in Maine and Quebec. Mr. Kilburn reports the outlook for the season's work to be very promising. There was about ten inches of snow in the woods when he left and a storm since, so that there would be enough to make long hauling good, but not enough for good yarding. The cut in Quebec this winter will be about up to the average. Mr. Kilburn will him cut from 5,000,000 to 6,000,000 in Quebec, and on the American side about 1,500,000. The cut on the Allegheny this winter will not be as heavy as last winter, but there will be a much larger cut on Black River. John McConnell of Marysville will cut from 8,000,000 to 10,000,000 on the Black River this winter, he being one of the heaviest operators. The cut on the Tobique this season promises to be as large as last, and all of this lumber will come down the St. John.

A TRUE FISH STORY.
An immense codfish was captured in a peculiar manner by Wm. Rolston and John McCallum, two young men of the west side, on Monday afternoon. They were out shooting at Sheldon's Point, when they saw a great commotion near the water's edge. They soon perceived that a sea-dog was struggling with an immense fish and had finally landed him. They immediately fired at the sea-dog; this frightened him away, when they rushed down to the shore and captured the fish. It proved to be a codfish weighing over forty pounds and measuring four feet eight inches long.

FINISHING RANGE CATTLE.

Some Lessons From the Ontario Winter Fair.

By P. W. Hodson, Dominion Live Stock Commissioner.

The recent Ontario Provincial Winter Fair at Guelph demonstrated once more that an educational show, without any of the so-called "attractions," can be made an unqualified success. The attendance was much greater than ever before, and although the vast building had been considerably enlarged during the summer, the accommodation was again found inadequate. Hundreds of farmers' wives and daughters were present, and took as keen an interest in the exhibits, especially the live stock, as did the men. The fair was a great success, and the lessons learned from it are of great value to the live stock industry in this country.
