### HAVE YOU MADE A MISTAKE

We all make them occasionally and when we discover our mistakes the best thing we can do is to correct them as little delay as possible. Many honest people have been induced to buy inferior cream separators because of false statements made by the manufacturers and their agents. Others have bought cheaply constructed machines for which great claims are made and which are advertised as being sold at a great reduction in price by mail order houses and others who have no reputation to sustain, and who have no interest in the separators they sell other than to convert them into money. As a matter of fact these machines are sold at a higher percentage of profit than is asked for Tubular Separators. They are cheaply built and scarcely worth anything at all. To those who have been unfortunate enough to buy these inferior machines we offer relief. We want them to enjoy using the best separator made and will help them to do so. If you have an unsatisfactory separator and want a good one come to us for information regarding our exchange proposition.

### TIME TO BUY CREAM SEPARATORS NOW

There never was a better time to buy the best of Cream Separators than right now.

The advantages derived from the use of the good Cream Separator are greater in the fall and winter than at any other time,—when the cows are old in lactation, the loss of butter-fat is otherwise greatest, and butter prices are highest.

Likewise are the advantages of the superior DE LAVAL separators greatest over imitating separators when the milk is hard to separate and the weather cold and variable.

In every case a DE LAVAL separator, of suitable size, will surely at least save its cost between now and July 1st next, and go on returning 100 per cent. per year on the investment for twenty years to come.

The agricultural and particularly the dairying outlook was never brighter and more promising.
