not afford Mayne much comfort; his love and she flushed with shame and contrition for Violet Carlton was too deep-rooted for that. He found a letter at his rooms, summoning him home on a matter of busines cted with the estate, and the following morning he traveled down to the Midlands. Three days later, after exchanging several telegrams with his friend Hardy, he crossed ountry to Norfolk and joined the pleasure Sunbeam at Wroxham. And when he had greeted Mr. and Mrs. Jack Hardy a nger was called on deck and inroduced to him. He was speechless for the moment as he touched Violet Carlton's hand and looked into her amused eyes. "Mr. Mayne and I are not exactly stran-

gers," said the girl.

"I think Gladys mentioned your name i her last letter," was the demure reply.
"Miss Carlton is an old friend of the wife's," Hardy explained to Mayne, later in the evening. "She's a very fine girl, I assure you. Her people are all dead, and deserves lots of credit."

She's a woman in a thousand," Mayne

te and posted a brief letter to the Lonn publisher, as a result of which he slept that night with an easier conscience than he had enjoyed for weeks. Late the following morning the Sunbeam crept down the Bure, was blowing, an upward-bound yacht was The flannel-clad young men on board of her understand their business properly. The yacht luffed safely to one side, and the Sunbeam jammed her nose hard into the opposite-lying bank. There was a hoarse cry and a splash as Mayne, without ing. stopping to remove coat or shoes, plunged into the widening gap of deep brown water. He dived, missed the girl, and rose to the yards of him. Half a dozen frantic strokes and he had caught her arm as she was on the point of sinking again. Hardy pulled

Mrs. Hardy assisted the half-unconscious girl to her cabin, and a little later Mayne, his heart filled with gratitude as he thought of what might have been, went below for a change of clothing. The yacht and her apologetic crew went their way, and the wherry kept on her course to Acle Bridge and moored off the Angel Inn.

The next day was bright and mild—typical June weather. Violet, pleading fatigue, did not appear at breakfast. A lad from the Angel, who had been to the post, brought the letters on board; there was one he read it with heartfelt relief and satisfaction. He brought the proof-sheets of "The Touchstone of Life" out to the saloon table, with the intention of giving them the final for Mayne from the London publisher, and with the intention of giving them the final

your gallantry—"
"You can," said Mayne, rising. The girl edged away from him. "Is this your new book?" she asked, nervously. "Yes," Mayne assented, in an absent

tone. "Miss Carlton-Violet-" The girl was turning over the proof-sheets, her face flushing crimson as she read a paragraph here and there. She suddenly straightened up and confronted Mayne. The color had receded from her cheeks; her breath came short and quick.

"Oh, where did you get this?" she cried. 'It is my brother's. He wrote it—he gave it the name! I remember his reading the first chapter to me, It was more than three years ago, when he came to see me in Rome, where I was living as a governess

He felt a bitter harred and contempt for himself, but there was no longer shy doubt in his mind. Love had won him the victory.

"Thank godness it is not too late." he reflected. "With such a black stain on my soul I should not dare ask that pure, sweet girl to be my wife. I will go to her clean."

Johnson was the son of an army officer, Indian tea planter and smuggler, who gathered and settled on the state of a large fortune and settled on the red having odd little designs worked upon their hands that they are having odd little designs worked upon their hands that they are having odd little designs worked upon their hands that they are having odd little designs worked upon their arms and shoulders in faint delicate tints, says the New York Sun. An English dancer began this fashion with a butter brooded over his loss until his temper became ungovernable. The son as he grew up took the temperament of his father, and the two lived unhappily together, and finally the son attempted to kill his father but failed, was captured by the police and sent abroad.

that has made him rich.

Old-fashioned tattooing was done crudely with a needle, which often inflamed and irritated the skin. Nowadays it is done with an electrical contrivance, which etches a design finely and painlesely. Colored inks are used, and their use is a secret which the Japanese artists have mastered to perfection. There are books of wonderful colored designs for tattooing which one can choose from; birds, beasts and rentiles. The snake is a favorite with and reptiles. The snake is a favorite with the tattooed, some of whom have one represented as being wound about the arm from the wrist to the shoulder.

Ottawa, May 13—(Special)—The house of commons commenced morning sessions to-day and the idea is general that prorogation will be reached before the 24th of May, at all events strong efforts will be made to do this.

The Manitoba railway bill was again under discussion. Mr. Charlton led off with an hour and three quarters added to two hours which he has already devoted to the subject. He was followed by Mr. Bourassa in a two hours' speech. Both spoke strongly against the passage of the bill.

Hon. Mr. Sifton narrated the facts in connection with railway matters in Manitoba for the purpose of showing that three successive premiers—Greenway, Hugh John Macdonald and Roblin—had ennunciated policies in regard to cheap railway rates, this, in his mind, showing all were satisfied that such arangements would meet with the approval of the people of Manitoba.

Hon. Mr. Haggart arguet at a regular that the minion would be responsible for the merits of the bill. Hon. N. Clarke Wallace declared him self against the bill. Mr. Boyde spoke in favor of it.

The Manitoba railway bill was reported from committee and a vote taken at 2.30 on the third reading and amendment by Richardson that the bill be read this day six months.

Their Hands the Saving of Many.

London, May 13-Decided satisfaction has been expressed on the stock exchange

porary and that another erisis may be precipitated by the action of either Mr. Morgan or Mr. Harriman. The suspension of the settlements, announced by the committee this morning is of indefinite dura-tion, but each day gained helps the liqui-dation of accounts. The brokers worst af-fected generally hold options on Northern Pacific on which they can realize in June.

Dog love— yer understand;
But now, b'gosh, the boldest cur
Will run away and hide
When down the road Josiah stalks
With that redic'lous stride.
We thought Josiah'd get t' be
The district judge this year,
But that's before he plunged in stocks
An' won a thousand clear.
