

done on a racing day on Lake St. Louis; it being reported that the Chateaugay buoy had been carried away it was decided to sail around the Pointe Claire buoy, a course of about seven miles to windward and return. All the boats at the start carried three reefs in the main sail and storm jib.

The start was as follows:—

Steersmen.

COQUETTE.....	A. HAMILTON.....	3.33.08
UNDINE.....	G. MARLER.....	3.34.30
DREAM.....	A. IRVING.....	3.32.10

"Valda" more than held "Chaperon" until Valois Bay was opened, when the wind lightened up, the sloop got into trouble changing jibs when the "Coquette" passed her. The wind let up steadily all the time the windward work was being done, and at Pointe Claire all were carrying full lower sail, but on the run it freshened up until it was heavy work carrying spinnakers.

The time of the race was as follows:—
