

WATERLOO NEWS RECORD

THE WEEKLY MARKET

There was the usual large attendance at the regular weekly market held this morning both buyers and sellers being out in full force. Farm produce then was in abundance with prices ruling the same as last week. Eggs were a little more plentiful and sold at 58 cents per doz. while butter remained firm at 52 cents per lb. There was very little fowl offered a few chickens being quickly disposed of at 35 cents per lb.

Third Carload of Wood Arrives

The third carload of wood to arrive from Algonquin Park was placed on the siding at the G.T.R. on Thursday and the train is being unloaded and piled in the rear of the market building, and when the opportunity arrives a saw will be installed and the wood cut up into short lengths. Owing to the mild winter and the abundance of coal the demand for wood has not been as great as last year, but, had the conditions been the same as in the fall of 1917 there is no doubt but what the fuel committee would have had their hands full supplying the demand. An order had been placed for 300 cords to be cut and delivered but a very small amount of this will be required for present needs. When the full allotment arrives it will be necessary to have it piled in the Municipal yards for future use but even with the interest added of the investment and should it be necessary to carry the wood over until the fall of this year even at the price then, since our townpeople will make no mistake in buying their wood from the town. It is only necessary to reflect back one year when coal and wood were two of the scarcest articles imaginable, and, while the supply is equal to the demand today the fuel committee should not be lulled into providing in case there should be an emergency. The little extra cost in storing the wood in the yards still leaves the price within reach of any of our citizens.

The decided change in the weather from real spring to winter was the incentive to induce many out to the park last night, and, while the weather was not of the best, it being a little rough in spots still Jack Frost had done his "bit" and the large number of skaters of both sexes enjoyed themselves to the fullest extent. While there was no artificial light this did not inconvenience the skaters in the least, and, should the present cold snap last the lake will be thronged with a galaxy of the youth of the town enjoying a spin on the winged steel.

Mr. S. Dopp, who has been confined to his room the past week is so far recovered as to be up and around and his many friends will hope to see him out again in the course of a few days.

A number of hockey fans left this afternoon for Toronto to take in the Kitchener Newman Hall, game which takes place at the Arena tonight. Our local sports have not lost confidence in the World's Champions and will support them to the limit.

No more felicitous tribute or send-off could be paid to any young man than that which was tendered Mr. Arthur Kilroy at the hospitable home of Mr. & Mrs. James Lockie on Wednesday evening when about a score of his young Presbyterian companions were invited to spend the evening with the guest of honor prior to his leaving for Detroit, where he has secured a fine position. Arthur has been, a general favorite with his young friends who, while very sorry to part with him, wish him much happiness and prosperity in his new home.

Those who were fortunate enough to be present at the Y.W.C.A. Parlor on Tuesday evening last, were permitted to enjoy a treat such as is seldom offered to a Kitchener audience. The occasion was the first of a series of addresses on literary topics, to be given by Mr. B.W.N. Grigg, B.A. of Waterloo. The subject was "An Hour of Two with Shakespeare." The speaker first referred in turn to the good birth, early education and favorable environment, and then in detail to the general conditions prevailing during the time of the great dramatist, all of which combined to produce the greatest literary genius in the history of the English language. By the use of numerous quotations, which Mr. Grigg apparently can command at will, from the many and various works of

Shakespeare, the speaker entertained his audience and demonstrated the wonderful genius and master mind, which were able to produce these remarkable works.

The remaining lectures of the series will be awaited with a great deal of interest, as in the able hands of Mr. Grigg, they will undoubtedly be equally entertaining and instructive.

The sad intelligence was received in town this morning of the death in Edmonton Alta last Sunday of Mr. Conrad Weidenhammer, brother of Dr. J.F. Weidenhammer of town. For a great many years the deceased has made his home in the West but was born and raised in this section and his many friends will learn with regret of his sad death. The deceased was in his 53rd year. No particulars have been received as to the cause of death. The funeral was held on Wednesday January 22nd at Edmonton.

English service will be held in St. Johns Lutheran Church Sunday evening.

Mr. J. Benson is spending the week-end with friends in town.

Mr. and Mrs. F. Burgoyne of Kingston are visiting friends in town for a few days.

Opening Meeting of the New Club. The Lutheran Boy's Club held their first meeting in their new Club Rooms last night and quite a lot of business was transacted. A Bible Class was also formed. The boys are quite interested in the club and are progressing rapidly. The meeting then was adjourned with the Lord's Prayer.

YOU CAN BE CURED OF CATARRH

Interesting Address By Rev. Mr. Carlyle. Rev. Mr. Carlyle, rector of All Saints Church, Windsor and a returned army chaplain was the speaker at the first of a series of five lectures given in St. Saviour's Hall, Waterloo, on Friday evening. His subject was "Problems of Peace" and the large audience present was much impressed with his address which was of an interesting and instructive character.

Rev. Mr. Carlyle spoke particularly of the men at the front and his study of the many peace problems confronting the nations at the present time, enabled him to give many timely suggestions as to the methods which should be adopted in taking up the task of reconstructing and the questions of the returned soldiers, labor, religion etc. Mr. Carlyle has been in great demand as a lecturer in United States and Canada since his return from the front where he served eighteen months in France as chaplain with the 18th Battalion. Those who heard him Friday evening deemed it fortunate that he was able to come to Waterloo.

Y.W.C.A. Notes. The Young Women's Christian Association have planned some very interesting Classes and Clubs for the winter months.

On Monday night last at 8 o'clock Rev. Dr. Scott began his Bible Study Class which proved very helpful to all present and was only a taste of the feast in store for those attending this class.

The Lecture on Tuesday night—the first of a Series of Lectures—by Mr. B.W.N. Grigg B.A. of Waterloo was greatly enjoyed by an appreciative audience.

The Story on Tuesday night from 7.15 to 7.45 conducted by Mrs. M. Durhan and the grate fire was enjoyed by all present.

The Young Women's Christian Worker's League follows the Story Hour at 8 P.M. Mrs. Boehmer is giving a Series of talks on "Prayers" these talks are most inspiring. The Collegiate "Others Girls" Club which meets every Friday at 4.15 is just what the girls seem to need and enjoy.

On Monday night next from 7.15 to 7.45 Miss Bean begins the Choral class. A vocal lesson and a good "Sing" is in store for all who attend.

If a sufficient number desire Gymnasium or First Aid classes will be arranged for if possible. There is still room for a larger number of girls young women in any or all of these different classes and a most cordial welcome is tendered to all especially strangers in the city meet with us and enjoy these privileges.

Court of Justice is The British Plan

OUTLINE OF LEAGUE OF NATIONS AS SET FORTH IN SCHEME PREPARED BY LORD CECIL
PARIS, Jan. 24.—The much-discussed British plan for a league of nations, which has just been completed, can now be outlined in concrete form for the first time. The following details, though unofficial and subject to alteration, represent in substance the plan that will be laid before the peace conference. The main feature of the league provided for in the plan will be the establishment of machinery for handling international disputes. This will be based on an agreement among the members of the league not to interfere with the territorial integrity of states, or to permit others to interfere with them. The rendering of assistance and guidance to new and undeveloped states to maintain freedom of transit and just commercial relations between the members of the league are some of the principal aims to be supervised by the league.

Committee on Trade. A committee to rule on the question of trade in ammunition and arms and those which would also come up for study international problems relating to economics and sanitation will be

appointed. A like central body for handling international labor questions is provided for in the plan.

In this connection it is held that all international bodies now existing and any which may be created be brought together in some central place, which will be the capital of the league, and work in close co-operation with the league if the effort to promote international co-operation is to be successful. The British plan provides for a general conference of the delegates of all nations and members of a smaller executive council for the transaction of ordinary business.

A Secretariat for the league would be provided over by a man of authority and experience in European affairs, sitting at the capital of the league, with all necessary diplomatic immunities. Periodic calling of the league's delegates is provided for, but it is pointed out that it probably would be convenient for states to appoint representatives to the capital who would act for their respective countries until more authoritative delegates arrive.

The plan excludes some states, like Germany, from the league for the present on the ground of untrustworthiness, but it holds that this exclusion should not be prolonged unnecessarily. Every civilized state with a settled Government will be invited to join in the league. Provisions for separate representation for India and the British dominions is provided for.

Disputes for settlement are divided into two classes—justiciable and non-justiciable—and each state will be the final judge as to whether a dispute is justiciable or not.

The establishment of a permanent court of international justice for the settlement of justiciable disputes is proposed and until it is created a court of arbitration is suggested. Either a council or a conference of the league is thought to be the proper organization for the consideration of non-justiciable claims.

Amazing Power of Bon-Opto To Make Weak Eyes Strong Doctor Says It Strengthens Eyesight 50 per cent in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Victims of eye strain and other eye weaknesses and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses. Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes, which induced fierce headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the type writing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription at home. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist of weak, watery, itching, smarting, itching, burning eyes, red lids, blurred vision of eyes inflamed from exposure to smoke, sun, dust or irritation. It is the best of the few few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in this city by
