

The large and constantly increasing demand among farmers for the annual reports and bulletins of the experimental farms is a gratifying evidence of the growing desire for information among this class of the community, and of the high esteem in which these records of the work are held. The facts brought together in the present issue will, it is hoped, be found of much practical value to the Canadian farmer and fruit grower and assist materially in the advancement of these industries in this country.

I have the honour to be, sir,  
Your obedient servant,

WM. SAUNDERS,  
*Director.*

To the Honourable  
The Minister of Agriculture,  
Ottawa.
