

130424

December 9, 1933.

Mr. James Richardson,
President,
James Richardson & Son,
Winnipeg, Man.

Dear Mr. Richardson:

I duly received your letter regarding Canadian Airways and the possibility of using their services for work in connection with Hydro construction in the North.

I have already had opportunity to take this matter up with the Chief Engineer and Chairman of the Commission. You may rest assured that we will whenever possible get in touch with Canadian Airways in connection with any Northern freight or transportation service of any kind. The Chief Engineer advises me that the Canadian Airways service has been quite satisfactory where used.

Very sincerely yours,

AM/E.

Commissioner.
