Ottawa, 10th Sept., 1904.

Gentlemen,-

I am directed to inform you that the Department has had a communication from its agent on the Blood Reserve, stating that there was an arrangement with your Company under which the three principal chiefs, with the interpreter, should visit eastern Canada at the company's expense.

Will you be good enough to advise this Department as to the terms of the arrangement, if any, as this is the first intimation the Department has had of such an understanding.

Your obedient servant,

  
Secretary.
