was unconscious of any ability. We must never rest content with what we are and say, "There is no use in me trying; I can never be great at anything. I am not even clever now."

But the law of reserve power stands by us as a fairy god-mother and says: "There is one charm by which you can transmute the dull dross of your present condition into the pure gold of strength and power—that charm is ever doing your best, ever daring more, and the full measure of your final attainment can never be told in advance. Rely upon me to help you with new revelations of strength in new emergencies. Never be cast down because your power seems so trifling, your progress so slow. The world's greatest and best men were failures in some line, failures many times before failure was crowned with success."

Game is in Your Hands.

From the same material one man builds a hovel and another a palace. Bricks and mortar are just mortar and bricks till the builder makes up his mind what he will do with the stuff. We have all got "our circumstances," but we can, if we like, become more the creators and the architects than the blind bungling creatures of our circumstances.

There's a kink in every lot; there are lots of uncomfortable corners in every man's life, but it is marvellous how he can, if he will, not only "make the most" of these jarring elements, but make them the very stepping stones to his success and comfort, as well as the happiness of all who are associated with him. Take a lesson from the creatures as they find a way or make one for their own comfort. Look at puss and the rat in our picture. Here is a case in which a man may see that it is not only possible to have a good time in a tight corner, but where one may live on the most amicable terms with a natural foe.

This cat reared along with her kittens a baby rat that would never afterwards leave her. Both of these strange companions were alive and doing well quite recently.

The rat is over a year old and his foster mother has had other family cares in the meantime, but still they are inseparable, and likely to remain so. Let us find our happiness, as we will surely find our success in the principle of "If you'll scratch my back and I'll scratch your'n," for "life is made up not of great sacrifices or duties, but of little things in which smiles and kindness and small obligations given habitually are what win and preserve the heart and secure comfort."

Hoosier Press Drills

Plant at an even depth. Conserve the moisture in the soil. Insure a good crop.

HOOSIER PRESS DRILLS conserve the moisture in the soil, because they pack the earth over the seed when it is sown. This is the way the Northwest farmers are more certain of a good crop. The Hoosier gets the seed in the ground at an even depth and covers it. The Hoosier is Light Draft, has a positive force feed, never skips, never chokes. Has the greatest possible strength and will stand up under the severest strains. Absolutely guaranteed—Send for catalog and go to your local dealer and insist on seeing the Hoosier.

GOPHERS!

**Kill Them Before They
Ruin Your Crop and Soil**

Every year the gophers rob you of 3 to 5 bushels of grain per acre. They eat the seed, the tender shoots and the juicy joints. They keep throwing up unproductive soil, little by little, until eventually they ruin your farm. The farmer with gopher infested land, has a mighty serious problem on hand.

Why don't you use Mickelson's Kill-Em-Quick Gopher Poison? Thousands of farmers who have used it say it does the work thoroughly, cheaply and quickly. One 25c box will kill all the gophers on an 80 acre field. So

75c Saves \$200 to \$400

because there are at least 2000 gophers in an 80 acre field, and each gopher costs you 10c. And every pair raises about 16 young ones a year. Why don't you stop that big loss for good—now. Go to your druggist and get a box of Kill-Em-Quick, or order direct, postage prepaid, if your druggist does not sell it. It is absolutely guaranteed to do the work. If it fails, I personally will refund every cent of your money. Kill-Em-Quick is the most economical poison because it kills the most gophers per dollar invested. Mickelson's

Kill-Em-Quick Gopher Poison

will rid your fields of gophers, squirrels, field mice, pocket gophers and prairie dogs for less than one cent per acre. It has a peculiar odor and taste that is attractive. It draws them like a magnet and the merest atom taken into the stomach kills them instantly. It doesn't merelyicken them—it kills. Lead poisons are the only kind it pays to leave on your farm. Right now is the time to put Kill-Em-Quick into your fields. It is easy to use, quick-acting and cheap. Ask your druggist. Don't take anything except Kill-Em-Quick, the guaranteed Gopher Poison.

Write Me a Postal Quick

I want to send you my free book that tells you how to kill every gopher on your farm—how to save \$300 on every 80 acres—how to use Kill-Em-Quick for best results. Mail me a postal or letter now. Address me personally.
