

An Inexpensive Durable Roof

—a roof that is easy to lay, that looks well, that is suitable for any class of building, is fireproof and is *guaranteed*.

SAMSON ROOFING

fills every one of these requirements. The felt body of Samson Roofing is *thoroughly* saturated with the waterproofing compound. It is upon this thoroughness of saturation that the life of a roofing depends. Its surface is hard and absolutely unaffected by any weather conditions, and cannot be ignited by sparks or burning brands. The cost of Samson Roofing is much less than shingles, slate, tin, etc., and very little labor is required to lay it.

With your order for roofing we supply complete directions for applying, and a supply of nails, and lap-cement for cementing the joints.

We have prepared an interesting booklet "The Roofing of Farm Buildings" which should be in the hands of everyone who thinks of building. It is yours for the asking.

Ask your dealer for Samson Brand.

More Profit Use Homestead Fertilizer and raise Wheat that Pays

31 BUSHELS OF WHEAT TO THE ACRE is what the German farmers raise. Average yield in this country, 15 bushels. Why? Because there is more fertilizer used in Germany, which is about the size of Texas, than the entire United States; but "we learn as we grow older." The consumption of fertilizer in the U. S. has increased 115 per cent. in ten years—a large portion of this demand is supplied by our factories located from Maine to California.

OUR POLICY IS TO ALWAYS MAKE THE BEST GOODS

Farmers should learn the composition of fertilizers required to grow crops on their different kinds of soil and how to use them. We have spent fifty years and a great deal of money to find out how to make the right kind of fertilizers—the kind that produce results.

We want agents for unoccupied territory under our Consignment contract. Write at once and tell your friends to do the same.

Tile Drainage Makes Worthless Acres Pay

MANY an acre that is now worth nothing can be made as productive as any land in its neighborhood, by a judicious investment in tile drainage.

Tile Drainage makes land more fertile, it lengthens the tillage season and it is a protection against drouth.

BUCKEYE TRACTION DITCHER

A perfect trench at one cut

This remarkable machine is in use all over the country and has been for years. With it one man can dig up to 150 rods of ditch a day and every foot of it will be of proper grade. Improve your own farm and at the same time make good money on the side after seasons.

Figure out where you can use tile drainage and size up your neighbors' farms. Then write for the Buckeye Book of Facts, No. 7
