

WINDSOR DAIRY SALT

Is The Cheapest You Can Use

not alone, because it is the purest and best salt for salting butter. But because it will salt more butter, pound for pound, than any other salt you can use.

The big creameries will tell you this—and show you tests to prove it. The Agricultural Colleges demonstrate this every day.

Every farmer and dairyman—who is getting good prices for butter—is using Windsor Dairy Salt.

It is pure—it makes beautiful butter—it works in quickly—and it is the cheapest in the end. Just try it yourself.

Company being foremost in all desirable features
Desirable vacancies for agents to devote either entire or spare time to work. Apply to any branch office, or to:

HEAD OFFICE, TORONTO

MR. FARMER

YOU need not lie awake at night worrying about that mortgage if the amount is covered by a Life Insurance Policy. If you should die the policy will pay off the mortgage. If you live 15 or 20 years, according to the plan chosen, you have the money in hand, the real cash.

Rates and particulars from any of our agents.

HOT WEATHER the Ideal Time to Use a DE LAVAL CREAM SEPARATOR

THERE is no time when the use of the DE LAVAL Cream Separator is so indispensable to the profitable production of cream or butter as during the hot weather of midsummer.

The use of the separator at this season usually means the difference between a profit and a loss in dairying. It accomplishes a great saving of butter-fat that goes to waste with any other method of separation and enables the production of a higher quality of cream and butter-fat than is otherwise possible.

Moreover, with a DE LAVAL the advantages over other cream separators are greatest at this season, because the separation is more complete and the cream heavier and more even in texture. The machines turn more easily and the capacity is greater, getting the work through more quickly.

If you haven't a separator you can scarcely afford to defer the purchase of a DE LAVAL, or if you have a separator which is not doing satisfactory work, there is no better time to discard it in favor of a DE LAVAL, first trying the machines side by side for your own satisfaction, which every DE LAVAL agent will be glad to give you the opportunity to do.

See the nearest DE LAVAL agent at once, or if you do not know him, write us direct for any desired information.

"Monarch" Engines Save Running Cost

"Monarch" Engines give more power than their rating, yet use no more fuel. This is due to good material and design. The fuel tank is one solid piece, preventing leakage. Every drop of "Monarch" fuel gives a return in power, and full power at that. It pays to get a "Monarch." The "Monarch" pays for itself by saving fuel.
