Horse Right

If you would have the right horse. Don't handicap a promising colt with unwise management during the first few months of growth. Make the grain and feed he gets more beneficial by giving a little of Dr. Hess Stock Food. It increases digestion by supplying the system with bitter tonics, iron for the blood, nitrates to expel poisonous material from the system; such ingredients being recommended by Professors Winslow, Quitman, Finlay Dunn and all the noted medical writers.

Smaller quantities at a slight advance. Duty paid.

Where Dr. Hess Stock Food differs in particular is in the dose—it's small and fed but twice a day, which proves it has the most digestive strength to the pound. Our Government recognizes Dr. Hess Stock Food as a medicinal tonic, and this paper is back of the guarantee.

## OWNERSHIP OF LAND.

How can I find out the owner of the N. E. 1 section of 25—tow., 28—Range, 18 W. 2 merid. for sale?

Sask. SUBSCRIBER.  
Ans.—Write the secretary of the municipality or the assessor.

## CLEANING COINS.

Please give a recipe for cleaning copper and silver coins for mounting. QUERIST.

Ans.—Copper coins can be cleaned either by washing in a fairly strong solution of oxalic acid, or by dipping a slice of lemon in salt and rubbing the coins.

Silver may be cleaned best by putting it into warm soapy water and scrubbing it with a brush. Then polish with electro-silicon or some other good polishing powder. Finally drop them into a vessel of hot water in which a teaspoon of liquid ammonia has been added for each pint of water.

## AGRICULTURAL MOTORS.

Could you give me the names and addresses of firms in Canada and the States that are turning out agricultural motors? I would also like to have any knowledge or opinion you may have of same.

Sask. H. W.

Ans.—We understand a company has been organized to build in Canada motors after the well known Ivel model. We are informed that some of these motors will be ready the coming summer. In fact we understand the Jas. Stewart Co. of Winnipeg will have at least one ready for seeding. We are not aware that they are at all in general use in America. The price of petroleum products for fuel is so high here that it interferes with the more common use of motors. We have seen one of the Ivel models working and it seems to give good satisfaction.

## Gossip

A purebred Percheron stallion five years of age is announced for sale in this issue by E. Mawhinney of Holland. Good terms are offered as Mr. Mawhinney is removing to the coast.

Mr. John H. Stout of Westbourne, Man., writes that he has bought of Geo. Kinnon, Cottenwood, Sask., the great herd bull Sittytton Hero 7th, three times Champion at Winnipeg—first for bull and two of his get in 1901, and 2nd at the Pan-American the same year, being only beaten by the \$5,000.00 Lord Banff. He is sired by Sittytton Hero, dam 39th Duchess of Gloster. Since then this bull has headed the first prize herd at Regina for the last three years and at Calgary this last year. This Gloster blood added to that left by Baron Gloster 4th should bring Mr. Stouts' herd up to a very high standard.

These are days of preparation at "Hillcrest," the Clydesdale stock farm, belonging to Mr. Russell Taber of Condie, Sask. The spring show at Regina is about to be held and Hillcrest has a few prospects that are expected to catch the judge's eye. The veteran stock horse Baron's Gem keeps as fresh and smart as ever and is coming out in fine fettle. In the well lighted, conveniently arranged box stalls are several fillies that have won prizes before and unless something very highly sensational comes out will add a few more honors to their names. Eva's Gem is a very fetching three-year-old by Baron's Gem. Baroness, a big, growthy two-year-old by the same sire is putting a true Clydesdale filly's top on what have always been conceded almost perfect feet and legs. Baron's Sunbeam is another two-year-old of a different appearance or top, but with typical Clyde legs; and in the Baron's Gem yearling filly is one of the sweetest youngsters we have ever seen. These are a few of the standard bearers for Hillcrest and can be depended upon to stand at the fore end of this class.
