They act thoroughly but mildly, without causing any unpleasant sensation, unless the system is very much out of order, in which case the Pills may or may not produce some nausea. But their judicious use, according to the directions which accompany the medicine, shall, in the diseases named, give general if not universal satisfaction. The Proprietor warrants that no harm can ensue in any case from taking either the Pills or Balsam.

not a specific remedy, especially for Indigestion, Nervous Debility, Fever and Ague, Nervous, Periodical, and Sick Headache, Loss of Appetite, Pain in the stomach after eating, Weak and delicate Stomach, Masked or Dumb Ague, and Liver Complaints. Its effects are not confined to the stomach slope, like that of other stomachies in geto the stomach alone, like that of other stomachics in general use,—its power extends to the abdominal viscera, particularly the liver, which it deterges, as well as omulges the hepatic duets, and at the same time promotes digestion.

It is administered by Oriental Physicians with great success in pulmonary complaints and scrofula. Several of the most eminent physicians of the age have given the Balsam and Pills a thorough trial, and all of them extol the medicine in the highest terms. Their beneficial effects on the general health are usually permanent.
