On common fences the continuous wire stays are sure to bend and the locks to lose their grip under continual pressure of your horses or cattle. And once they do, the top wire, soon followed by those below, will sag and destroy the efficiency of your fence.

Nothing like that can happen to our Dillon Hinge-Stay Fence. The short, stiff hard steel wire in our hinge-stays cannot bend when the lateral wires are weighted down, owing to their being so short and jointed at each strand wire.

Pressure of a horse on the top wire brings the "hinges" in the stays into action and prevents them from bending, and when pressure is relieved the fence springs back into place again.

The lateral wires are High-Carbon Hard Steel and coiled to provide for expansion and contraction by heat and cold, and are also crimped at the intersection of the stays and strands to prevent the stays from slipping sideways—therefore no locks are needed.

Buy the Dillon Hinge-Stay Fence. It's "twice as strong." Twice as good an investment. Catalogue free.

### Additional Locals.

—Mr. Joshua Howes, one of the oldest and most influential residents of Minto, died suddenly on Wednesday morning of heart failure. Mr. Howes was an extensive land owner and saw-miller and was prominent in municipal politics and temperance and Christian work. Mr. Howes was a man universally respected and of the very highest character. A good man has gone, will be the funeral remark.—Harriston Review.—Deceased was the father of Dr. D. E. Howes, who was in charge of Dr. Clapp's practice here this spring.

—The Mildmay Athletic Association are going to build a rink this summer in the front lot of the park. The association will become incorporated under the name of the Mildmay Park and Rink Company, with power to erect and conduct a skating rink, etc. The directors are now out canvassing for stock, and are making satisfactory progress. The rink will be about 60 X 140 feet, and will have all the modern equipments. This project should have the support of all our patriotic people, as the matter of procuring a harmless recreation for the young people in the winter evenings should interest every person.

—Mr. H. S. Arkell, B. S. A., who for a couple of years has been lecturer in Animal Husbandry at the Ontario Agricultural College, has been appointed Professor of Animal Husbandry at McDonald College, Ste. Anne de Bellevue, Que., and assumes his new duties on June 1st. His first work will probably be to purchase the stock that will be required in the animal husbandry department, which, for the present at least, will make dairy and swine husbandry the more important features of the courses to be taught. There is already a splendid herd of Ayrshires on the farm. Representatives of the other breeds will be added and a complete course in animal husbandry established. Professor Arkell is a brother to Miss B. Arkell, teacher in the Mildmay Public school.

### WESTERN FAIR, LONDON.

The "Western Fair" of London, Ont., is again to the front with great preparations for 1907. The dates this year are Sept. 6th to 14th. A large amount of money has been expended upon the Grounds and Buildings this year and everything will be in a first-class condition for the comfort and convenience of visitors and exhibitors.

Several thousand Prize Lists have already been mailed and hangers and large posters are being sent out. Several new classes have been added to the Prize List. There will be a class for Ponies. There will also be a Dog show this year in connection with the Exhibition. The interest of the Exhibitors has been carefully considered in arranging the Prize Lists.

The attraction Committee will provide a very interesting and entertaining programme. Knabenshue with his airship will be seen daily.

The Secretary, Mr. A. M. Hunt, will be pleased to mail a Prize List or give any information regarding the Exhibition on application to the office, London, Ont.

### Ontario Liquor License Act.

LICENSE DISTRICT OF SOUTH BRUCE.

Notice is hereby given that Henry Ruetz of the Village of Mildmay, has made application for permission to transfer his tavern license for the premises known as the Station Hotel in the Village of Mildmay, to W. W. Beitz of Mildmay, and that said application will be considered at the meeting of the Board of License Commissioners to be held at Grand Union hotel in the Village of Teeswater on the 16th day of July, 1907, at the hour of one o'clock p. m.

All persons interested will govern themselves accordingly.  
 BENJ. CAMMON,  
 License Inspector.

Dated at Walkerton this 18th day of June, 1907.

It is the old saying that the Canadian people love to be humbugged. We are reminded of this by seeing agents canvassing our town with packages of dry goods. These packages are sold for various prices. People forget how extremely low all classes of goods are at tee present time and fall easy victims to the travelling humbugs. They could buy a much better class of goods from our home merchants for less money. These city sharks travel through the country and make a fortune out of it.

The earliest signs of coming general elections are beginning to appear. Members are explaining things to their own constituents; Cabinet Ministers are arranging tours; nominations for next term are already being made; vacant fat offices are left open dangling; the faithful, foolish phalanx of "hidebounds" are being wheedled into line; arguments are handed out to prove on the street corner that "the other fellows are just as bad," and soon the old tricks will be used to make the elector toe the Party mark instead of using his own intelligence in voting for the country's good. Sure thing, elections can not be very far off.

A newspaper is in no sense a child of charity. It earns twice every dollar it receives, and it is second to no enterprise in contributing to the up-building of the community. Its patrons reap far more benefits from its pages than its publishers, and in calling for support of the community in which it is published, it asks for no more than in all fairness belongs to it, though generally it receives less. Patronize and help your local paper as you would any other enterprise because it helps you, and not as an act of charity.

### THE USE OF THE HOE.

It's easy, very easy, to save doctor's bills, green grocers' bills and achieve success at one and the same time by simple and inexpensive means.

Our forefathers' garden plot stand-by, the hoe will serve the purpose admirably. This long-handled implement of simple form will do wonders to human nature as well as for plant growth, and a few minutes exercise with it daily for even ten days will be most convincing of its great value.

Outdoor life is a prime requisite for human health, and, therefore, for happiness. The hoe brings back, chest and arm muscles into action and hence invigorates and strengthens the very portions of human anatomy which the average business man seldom uses, though he needs them virtually to keep in good condition. It furthermore induces circulation, strengthens the heart and opens the pores.

For plant life the hoe is a wonderful exhilarator and benefactor. It need not be plunged deeply into the soil, but should be drawn just below the surface. This requires but trifling strength or energy and accomplishes much.

### WHICH WINS?

A man went into a wholesale warehouse in Toronto and asked for a position. He looked good to the boss, who said: "All right. I'll give you \$500 a year and an increase of \$100 a year for five years."

"I'll tell you what I'll do," said the seeker after work. "I'll take \$500 a year and an increase of \$25 at the end of each six months. Give me that and I'm yours."

"I'll give you that if you would rather have it that way, but it's a losing game for you," cautioned the wholesaler.

"Never mind; I'm satisfied," returned the new employe.

Who had the best of the bargain?

### IT WAS HIS DOG.

An automobile dashed along the country road. Turning a curve, it came suddenly upon a man with a gun on his shoulder and a weak, sick-looking old dog beside him. The dog was directly in the path of the motor car. The chauffeur sounded his horn, but the dog did not move—until he was struck. After that he did not move.

The automobile stopped, and one of the men got out and came forward. He had once paid a farmer \$10 for killing a calf that belonged to another farmer. This time he was wary.

"Was that your dog?"

"Yes."

"You own him?"

"Yes."

"Looks as if we'd killed him."

"Certainly looks so."

"Very valuable dog?"

"Well, not so very."

"Will \$5 satisfy you?"

"Yes."

"Well, then, here you are." He handed a five dollar bill to the man with the gun, and added, pleasantly, "I'm sorry to have broken up your hunt."

"I wasn't going hunting," replied the other, as he pocketed the bill.

"Not going hunting? Then what were you doing with the dog and the gun?"

"Going down to the woods to shoot the dog."—Youth's Companion.
