Trescott wrote to "E. Marsden, agent," and the answer decided him. He could have a far better time than would be his if cooped up in some stuffy room at an expensive hotel, and the thought of a whole house to himself for an entire month was attrac-tive after having occupied the tiny bedroom and parlor of a bachelor apartment for eleven months. So Marsden engaged to have the farmhouse put in proper order by the first

Saturday in August.

It was with pleasurable anticipation that Trescott climbed into the buckboard that met him at the station. The farm that met him at the station. The farm was a comfortable looking place, some fifteen acres in extent, and bordering a small lake. The house, a two story frame, was painted, and beds of flowers made the front yard gorgeous.

Inside it was the pink of cleanliness, but the place struck a chill to his soul. The expression of the furnitume re-

He spent a fairly comfortable afternoon and was just about to rouse himself to go in and prepare supper when the sound of wheels caught his ear, followed in a moment by the jangle of the doorbell.

He raced across the yard and through the house to present himself at the door. A young girl stood on the porch, while an elderly woman sat in the covered buggy.

"Good afternoon," was her brisk greeting. "Is Mrs. Trescott at home?"

"There isn't any Mrs. Trescott," he said, with a laugh, "unless you mean my mother. She is in England just now."

"I am Miss Marsden," she explain "I drove out to get acquainted and see how you liked the place. I supposed, of course, that there was a family."

Spanking does not oure children of bed-wettings. There is a constitutional cause for this trouble. Mrs. M. "Have you been thinking over that homemaking proposition?" he asked. Eva looked up, with a smile.

"I think I lack the courage to make a try," she confessed. "It has been very easy here. It is best to leave well enough alone."

"Do you think you would care to take on a single contract?" he suggested. "You have spoiled me for a bachelor apartment."

"I might help you get started in a flat," she agreed. "I usually take a vacation after the summer season is over. I could help you buy your things and settle them."
