TORONTO WHOLESALE MARKETS-WEEKLY REVIEW.

THURSDAY, May 12, This market has been decidedly dull and inactive all week. There has been very little of either flour or grain offered, but that little seems to have been sufficient for the wants of buyers. These were apparently only for the supply of immediate local wants, except in the case of peas, which were wanted for shipment. The consence has been that sales have been few and far between; and the downward tendency in outside markets has caused these few to be made at weak prices. A slight fall of rain has been highly beneficial to the growing crops, but a good deal more would be a further advantage. Stocks stood on Monday as follows:-Flour, 6,948 bbis.; fall wheat, 106,565 bush.; spring wheat, 117,376 bush.; oats, 6,282 bush.; barley, 110,163 bush.; peas, 28,940 bush., and rye. 6,686 bush.; against on the same date last year:— Flour, 9,540 bbls.; fall wheat, 202,933 bush.; spring wheat, 118,307 bush.; oats, 22,800 bush.; barley, 26,501 bush.; peas, 24,190 bush., and rye, nil bush. ons show a fall of 1d. on club wheat and on corn; Markets have been quest this week with the tendency of prices generally downwards. During last week markets were decidedly dull clining prices. This seems to have been due ipally to large arrivals of foreign wheat; out 60 cargoes arrived and all sold were sold a decline. In London business is said to have en nominal, buyers holding off for further re-ctions. Flour also was in good supply and PRICES AT FARMERS' WAGGONS. crease and largely in excess of the consumption. the imports amounted to 305,000 to 310,000 quarters of wheat, and 140,000 to 145,000 bbls. of flour, and home deliveries to 146,848 quarters, making a total supply equal to 530,598 to 538,410 quarters Rye.

The quantity of wheat and flour in transit on the 5th inst. was 2,200 quarters, against 2,471,000 quarters on the 28th ult., and 1,210,000 on the corresponding date last year. Continental advices for the week ending on the 23rd sit state that in France the Easter holidays rendered the wheat trade quiet, and caused the country markets to be very poorly supplied. Farmers were said to have become rather short of wheat, and seemed disposed to hold what re-Country markets to be very poorly supplied. Farmers were said to have become rather short of wheat, and seemed disposed to hold what remained, at least until the harvest could be better judged. Thus wheat ruled firm, whilst type was generally dearer, being scarce. Reports from 73 markets showed 17 advanced; 14 firm; 29 unchanged; 5 calm, and 8 declined. Imports remained small, though on the increase; the total arrivals in the six principal ports being 103,000 qrs., against 51,000 qrs. in the previous week. The closing quotations, free on railway waggon at Havre, were as follows:—Australian 53s. per 420 lb.; Red Winter, 50s. to 50s. 6d.; Michigan, 50s. to 50s. 6d.; Californian, 50s. to 51s. In the ports transactions were restricted, owing to the enhanced pretensions of holders; sellers were firm, but buyers reserved. At, Marseilles, however, there was more activity. Flour was advancing at Paris with small stocks both there and else-FREIGHTS.

vanced considerably for future delivery. Rye was very animated, owing to the advices from Russia and the ungenial weather. The offers from Russia were very restricted, and only a few forward transactions occurred from Libau and Konigsberg. Millers were buying as little as possible on the spot. At Hamburg a fair demand for wheat prevailed, and with small supplies prices were reading in former of sallow. tending in favour of sellers; American red win-ter was bringing 48s. 6d. to 49s. 6d. delivered; and Tye 44s. to 44s. 6d. Russian advices report From Odessa, on the other hand, the crop reports are favourable, but business generally in the south of Russia remained restricted by the lowness of the stocks and the absence of any fresh in South Australia was estimated at the beginning of March as being 137,000 tons, or about 600,000 quarters, of which 55,000 had been exported; business was inactive. In Victoria the harvest is said to have been very productive. States mar-kets, particularly New York, were fairly active at firm prices in the latter part of last week, which was due to a small movement from the West; favourable advices from Continental West; favourable advices from Continental Europe, and an unusually low rate of ocean freights, along with a desire on the part of shorts to "cover." Since then, however, there has been a reaction in prices, and markets seem easier, probably in sympathy with England. BARLEY—There has been scarcely any business done; holders have almost ceased to offer in despair of a bid. There were, however, some cars sold on Tuesday and yesterday on strictly p.t., but admittedly at a further fall in price. The season is practically closed, and sales can certainly be made only at sacrifices; but our quotations must be regarded as nominal. Street receipts small; prices from 70 to 78c.

PEAS—Have been in active demand. There were sales on Friday of a cargo of uninspected for 74jc. at a lake port, and of a mixed lot No. 1 and ordinary and choice N. 2 on the spot at 75c. Lo.c., and on Monday of a lot of No. 2 also at 75c. Lo.c., The feeling yesterday was easier, with sellers at previous prices, and buyers a cent less sellers at previous prices, and buyers a cent less and ordinary and choice N. 2 on the spot at 75c. f.o.c., and on Monday of a lot of No. 2 also at 75c. f.o.c. The feeling yesterday was easier, with sellers at previous prices, and buyers a cent less. Street receipts very small; values from 65 to 75c. Ryr.—Nothing doing, and prices nominal at about 36 to 96c.

Sexde—There is nothing of any consequence doing; small lots can be had as before.

HAY.—Pressed has remained inactive, with no movement reported in car lots. Receipts on the market have been very small, but apparently sufficient. Prices have ranged from \$8 to \$12, with the great bulk at \$10 to \$11.

Syram—Offerings small and prices unsettled, but the supply apparently equal to the demand. From \$7 to \$8 for sheaf has been the general run. Potatyes—Car lots have been very dull and very slow of sale, even at a heavy decline; a sale was made on Monday at 55c., and they seem no better yesterday. Street receipts small, but prices declined to 65 to 70c.

APPLES—Have been scarce and in good demand; good qualities when really sound have been worth \$1.75 to \$2.00, but no others are wanted at any price.

Farms For Sale.

The Detroit, Mackinac, and Marquette Railroad Company, NOW OFFER FOR SALE OVER 1,350,000 ACRES,

Of the Choicest FARMING and TIMBERED LANDS in the Northern Peninsula

Destined to be the best wheat-producing region in the world. These lands are situated in the counties of Chippewa, Mackinac, Schoolcraft, and Marquette, and embrace many thousands of acres of the best agricultural lands in the State of Michigan.

Among those in the counties of Chippewa and Mackinac are tracts of what are known as the "burnt or cleared lands." These lands offer many advantages over the prairie lands of the West, as the timber lands adjoining insure a supply of fuel at little cost. The soil being a rich clay loam of great depth. The timber remaining upon the land being generally sufficient for the settlers use in building and fencing.

These partially cleared lands are now offered at the low price of from \$4 to \$4.50 per acre, one fourth cash, and the remainder at purchaser's option, at any time within nine years, with interest payable annually at seven per cent.

Roads are being opened through these lands, and no better opportunity has ever been offered to men of small means to secure a good farm, and intending purchasers will be wise by availing themselves of this chance before prices advance, as the lands are being rapidly taken and settled upon

payable annually at seven per cent.

Roads are being opened through these lands, and no better opportunity has ever been offered to men of small means to secure a good farm, and intending purchasers will be wise by availing themselves of this chance before prices advance, as the lands are being rapidly taken and settled upon.

The lands more immediately on the line of the Detroit, Mackinac, and Marquette Railroad, from the Straits of Mackinac to Marquette, are more heavily timbered, and are almost universally good agricultural lands, leaving splendid farms when the timber is removed.

The from and lumber interests of the upper peninsula are of such magnitude as to call for all the charcoal and lumber that the timber and wood upon the lands will produce—this will enable the settler to make good wages while clearing the land.

Lumber Mills and Charcoal Kins will be built at various points along the line, and Furnaces are now being erected along the line of the road at Point St. Ignace.

The great demand and good prices for labour, both in winter and summer, make these lands particularly desirable as homes for the poor man. The lands adjacent the railroad are offered at prices from \$5 upwards. according to location, value of timber, etc. The lands are at your very door, and are being rapidly settled by Canadians.

For pamphlets, maps, and other information, address
