BOOSTING NEWCASTLE

We note a good deal is being said at present in the way of boosting our eastern towns by means of writing them up and picturing them in papers and magazines. Would it not be a good time just now, when wealthy men and women are coming in large numbers to our town en route to North Shore sporting grounds, if each citizen would spend a few minutes each morning and evening to clear away the grasses, weeds, and rubbish from the street, sides and grounds around their houses, and remove the cow pasture print from street and sidewalk and give these people an impression that they see a town of enterprise, or at least taste and cleanliness? Their impression will tend to boost the town or discredit it in proportion as they see progress or lothargy in its appearance.

OYSTER BEDS.

We were much interested last winter when the Northumberland County Council passed resolutions asking the government for assistance to enable the farmers of Miramichi to secure for their farms the fertilizer which nature heaped in abundance in our midst, namely the Oyster mud beds of the Miramichi River, but have heard of no move on the part of the government to further this scheme of practical benefit for farming. This would mean real assistance and apparently there is not sufficient funds to supply the "white collars" and "silk gloves" of its agriculture policy and also go something practical, hence the latter must wait.

IN WASHINGTON STATE

We learn from an Exchange that a club of farmers have formed a co-operation association in Washington state. The union consists of one hundred members. They have purchased and stocked a general store, groceries, provisions, farm implements and all commodities usually purchased by farmers are in stock. Each member carries a key and is his own clerk. No double prices and short measures for middle men there. The fact that these organizations are springing up in some form or another all over America and in fact all over the world is very good evidence that there is an economic leak to be stopped, a wrong to be righted and the injured are struggling to find a remedy. It is interesting to watch and study the workings of the various attempts of the real producers to exchange their productions at a reasonable cost without the exorbitant rake off of the trust, combine and the middleman.

PERSONAL MENTIONED

Mr. Fred McRae of Campbellton was in town last week. Mrs. C. I. Landers of Boston was a guest at Hotel Miramichi yesterday. His Worship Mayor McMurdo came home on Saturday from an extended visit to St. John and Boston. Mr. and Mrs. Jas. McCormick received word last week of the serious illness of their daughter, Mrs. Fulton Gyertz of New York. Her brother, Mr. Harry McCormack, student at the Mass College of Pharmacy, is at present in New York with Mrs. Gyertz. Her many friends here wish her a speedy recovery.

GOOD HEALTH FOR BABY AT VERY LITTLE COST

Baby's Own Tablets only cost 25 cents a box. A box bought now may save baby's life. Summer complaints come suddenly, and carry away thousands of little one every year. If the stomach and bowels are kept in order there is little danger from these troubles. Baby's Own Tablets is the best medicine in the world for preventing and curing stomach and bowel troubles. They can be given with perfect safety to the new-born baby or the well grown child. An occasional dose of the Tablets will regulate the stomach and bowels and prevent summer complaints. The mother who keeps these Tablets on hand may feel assured her little ones are safe. If you have not got a box of the Tablets get one without delay. Do not wait until trouble comes; it may then be too late. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PANAMA-PACIFIC INTERNATIONAL EXPOSITION

San Francisco is determined to be the city in which the completion of the Panama Canal will be celebrated. 1915 is fixed for the event. Already, five years ahead, Chas. S. Fee, Chairman, Committee on Publicity and Exploitation is urging all friends of San Francisco to request their representatives in Congress to select San Francisco as the celebration City. New Orleans and Washington are also aspirant Cities, the City of the Golden Gate appears to have a long lead.

Among the interesting claims now advanced by Mr. Fee, are that the citizens of San Francisco have subscribed \$6,300,000 and will make it \$7,500,000—and that the city or State of California will add as much or more; that 90 per cent. of the people who take vacations do so in the summer and on of the factors influencing their destinations is cool climate; that (contrary possibly to general belief in the East) cool summer climate is San Francisco's strongest card, temperature averaging 59 degrees which is only seven degrees higher than winter; that the new San Francisco built in the past four years at a cost of \$300,000,000 is the last word in great Cities, and in itself is a magnificent exposition of everything modern and beautiful, in structure and the things that stand for a clean, healthy place to live and do business; that it is best equipped in hotels, and finally that the success, financially and otherwise, of the exposition is assured from the fact that experience has shown that 75 per cent. of the attendance at previous great exhibitions came from within a radius of 250 miles, and as San Francisco and the Cities around its Bay within 30 minutes ride, have a population of 900,000 within 50 miles of San Francisco 1,000,000 and with in 240 miles 1,400,000 the people nearby can be depended upon to make it go as well as to give sufficient life and snap to insure pleasant reception for those coming from a distance. ST. JOHN WOMAN THROWN FROM THIRD STORY

Shocking Act of a Husband Crazed With Drink.

St. John, Sept. 18.—With her jaw dislocated, one rib broken and her arm broken, Mrs. Kenneth Kerr was picked up Saturday night on St. Patrick street in the yard where her husband had thrown her from a third story window. The man was crazed with drink and after the woman had been taken to the hospital the police returned and placed him under arrest, his screams alarming the neighborhood. The body of Patrick O'Neill, of Restigouche Co., who escaped from the insane asylum and jumped from the suspension bridge into the river on June 25th last, was recovered today.

Where Mary And Her Little Lamb Went To School.

"Mary Had a Little Lamb" is as familiar to school children as their A B C's, but not many of them know that it is a "really, truly" story. It all happened in Massachusetts many years ago. Mary Sawyer lived in a pretty little house in Sterling. Her father owned a number of sheep, and when one of them died, leaving a dear little lamb motherless, Mary carried it into the house, gave it milk and made a little bed in a box by the fire for it. The lamb grew day by day and before long showed its devotion to Mary by trotting after her wherever she went. But the story of its faithfulness did not reach the world until "it followed her to school one day." No wonder the sight of a snow white lamb within the halls of learning "made the children laugh and play."

It was not long after that a friend of the teacher, who had been told the story, wrote a poem which soon known throughout the entire country, and has ever since been a favorite with the children. Mary's care of the lamb was amply repaid. Many years later, when she was a grown woman, happily married, and a member of the Old South Church of Boston, Mary unravelled a stocking made from the wool of that very lamb, wound bits of it on cards and sold each of them for twenty-five cents. The money she made in this way she gave to the fund which saved the Old South Church from being razed to the ground.—The Designer for January.

KIDNEY DUTY.—It is the particular function of the kidneys to filter out poisons which pass through them into the blood. Amatite ROOFING

Ideal for Farm Buildings

AMATITE is the ideal roof for farm buildings. No other approaches it in economy or durability. Here are some of its features:

- 1. Low Price. Amatite costs, weight for weight, about half as much as ordinary smooth-surfaced roofing.
2. No Painting Required. Amatite costs absolutely nothing to maintain because it has a real mineral surface.
3. Absolutely Waterproof. Amatite is waterproofed with coal tar pitch, the greatest waterproofing compound known.
4. Easy to Lay. No skilled labor is needed for Amatite. It is just a matter of nailing down.
5. Stormproof. Amatite is not a flimsy, paper-like felt. It is one the heaviest and most substantial ready roofings made, weighing 90 lbs. to the square, against 40 to 60 of material in the ordinary "Rubber" roofings.
The three important points to be remembered are that Amatite has a real mineral surface, that it needs no painting, and is waterproofed with Coal Tar Pitch. You are only sure of getting them in Amatite. We send samples free to everybody that asks for them. Drop a postal to our nearest office.
