

UNCLE SAM IS NOW COUNTING THE NOSES

Great Decennial Census in United States Now Under Way—It Will Cost \$4,000,000—Will Take Fifteen Days—Expected to Show 50,000,000.

Washington, D. C., April 18.—Today marks the real beginning of Uncle Sam's great decennial task of counting noses and taking stock, a task imposed upon him by the Constitution of the United States. This morning, in every nook and corner of the country, the 15,000 census enumerators look to the field with pencil and pad in hand. When their work is completed and the results tabulated by the wonderful electric devices now in use in the census office in this city, Uncle Sam will know to what extent his family has increased during the past ten years. He will know also how rich he is, how prosperous he is, and how his farms, manufactures, mines and quarries are faring, and everything else worth knowing about himself.

Will Take 15 Days. The actual collection of data will continue fifteen days in the cities, and thirty days in the country districts. Each enumerator is assigned a certain area to cover. First, the location of the house, the street and the city or town will be taken. Then will come the full name of the head of the household, his or her relationship to the head of the family, sex, color or race, age at last birthday, whether single, married, widowed or divorced, and number of years of present marriage. Then will be chronicled the place of birth, trade or profession, general nature of industry, whether employed or employer, ability to read and write, physical defects, whether the home is owned or rented, and whether the person is a survivor of the Union or Confederate army or navy.

Will Cost \$4,000,000. Dr. E. Dana Durand, the chief of the census bureau, hopes to be able by June 1 to report the number of inhabitants in the United States, probably between 58,000,000 and 61,000,000. It will take four months to cover the manufacturing interests and probably three years to tabulate and study the vast undertaking. The completed task will represent the labor of 75,000 men and women enumerators, and 700 regular and 3,000 temporary clerks in the census bureau.

Previous Figures. Shows the population of the United States has grown—

Year	Population
1790	3,929,214
1800	5,308,483
1810	7,267,132
1820	9,633,822
1830	12,866,029
1840	17,069,453
1850	23,191,876
1860	31,443,321
1870	38,556,371
1880	50,155,783
1890	62,982,950
1900	76,303,387
1910 (estimated)	80,000,000

AWFUL MURDER OF CHILD. Six-Year-Old Alfreda Doverska Drowned in Chicago.

Chicago, Ill., April 19.—A revolting murder was unearthed here yesterday when the body of six-year-old Alfreda Doverska, daughter of Martin Place, was found in a disused shed two doors away. She had been choked to death. At her side the police found a ball of candy. She left her home for a neighboring candy store on Thursday evening. She bought the candy, and that was the last seen of her case and several suspects have been required to give a strict account of themselves.

GREAT HARBOR IMPROVEMENTS. With Ice Breakers Believed Montreal Can Be Kept Open Ten Months.

Montreal, April 18.—Major Geo. W. Stephens, of the Montreal harbor commission, who returned from Europe yesterday, announced that work on the Montreal harbor will be started at once and will entail an annual expenditure of \$1,000,000 for the next five years. The first work to be undertaken will be the raising of the Victoria pier from a low to a high level which will allow a draught of 25 instead of 20 ocean vessels; the building of an upper level railway for a distance of seven miles eastward to eventually be connected around the whole island and the dredging of a portion of the harbor. Mr. Stephens expressed the opinion that modern ice breakers, the harbor should be open for ten months of the year.

DROVE THE OPERATOR OUT. Crazy Man Tosses Out Telegraph Lines at Niagara.

Niagara Falls, Ont., April 18.—An apparently crazy man entered the telegraph office at Marshville station on the Welland railroad about five miles west of Welland, this morning at 7:30 o'clock, flew at the ticking telegraph instruments and pulled them off the table. The operator, afraid of the man, ran from the office to get assistance. The man, after tearing the telegraph switchboard, which contained three wires, from its fastenings on the wall, and putting all wires out of business, set both the semaphores at danger and destroyed westward. The cable passing under the canal feeder just west of Welland junction, was found to be broken and it is supposed to have been the work of an insane man.

WERE 12 YEARS SEPARATED. Mother and Daughter Meet in Detroit Hospital.

Detroit, April 18.—After an absence of twelve years, Mary Gibson, a London, Ont., girl, was brought face to face with her mother in a Detroit hospital today. The meeting had been arranged by the girl's friends, and only brought about after much correspondence. Miss Gibson was but seven years old when, on account of the poverty of her parents, she was taken from them by the Humana society in London, and since then has been in many parts of Canada with friends of her father. The meeting between the mother and daughter was extremely affecting, the more so owing to the fact that, as a result of an operation, the mother can live but a short time.

WESTON 16 DAYS AHEAD OF SCHEDULE. Payson, N.Y., April 19.—Edward Payson Weston, who is walking from Los Angeles to New York, spent Sunday at Fredonia, where he formerly lived. He put in most of the day renewing old acquaintances. Yesterday afternoon he delivered a lecture. A midnight start for Buffalo, where he expects to arrive tomorrow, today. Weston is sixteen days ahead of his schedule.

MUST APPEAL TO PEOPLE. Next Congress Will Discuss—Outlook for Reasonable Reciprocity Treaty.

New York, April 19.—The Journal of Commerce says: When Taft was treating with the representatives of the Canadian government to secure what might pass for "concessions" to remove "undue discrimination" which did not exist, in order that he might proclaim that Canada was entitled to a continuance of the "minimum tariff of the United States" upon her products imported into this country, he did not hesitate to hold out the inducement of readiness to confer thereafter with a view to the adjustment of trade relations "on broader and more liberal lines." He expressed himself clearly and with evident sincerity in favor of a reasonable plan of reciprocity in trade. It was this assurance that induced the Canadian government to make a semblance of concessions sufficient to cover the President's retreat from the rather menacing candy assumed at first by his negotiators at Ottawa. That such an assurance of efforts at a policy of reciprocity which would have a substantial effect would be distasteful to such hardened defenders of the "exclusionists" as Senators Aldrich and Hale, and conservative leaders of his party generally, was certain. It is now apparent that the next Congress will have to be appealed to, but to have the appeal effective it must be made beforehand to the people. If anything substantial is to be done for reciprocity it must be by the adoption of an aggressive and resolute course. Timidity and vacillation will accomplish nothing.

AWFUL MURDER OF CHILD. Six-Year-Old Alfreda Doverska Drowned in Chicago.

NEW REGULATIONS ON MINERAL RIGHTS

Department of Interior Issues New Rules Regarding Disposal of Rights in Dominion Lands or Crown Land and the Property of the Crown.

The department of the interior has recently issued new regulations governing the disposal of mineral rights on government land, the property of the crown. The lands in question are situated in Manitoba, Alberta, Saskatchewan, and the Northwest Territories. The purpose is to revise the regulations relative to all mineral rights, but specific subjects being dealt with at this time relate to petroleum, natural gas and tarsand rights. The regulations are promulgating the new regulations is to conserve to the people of Canada their interest in the natural resources that a broad liberal policy of the government, while affording every opportunity and inducement for the investment of capital in their actual development. In former times it was the policy of the government to dispose outright of mineral rights, but it is now apparent along such lines was in its inefficiency, and it was regarded as proper and necessary that a broad liberal policy should be practised in order to encourage and foster the building up of such industries. At that time land was sold in small values, and added inducement to capital, individuals and corporations were permitted to acquire freehold, and to lease the surface on lands on which they undertook to develop mineral.

AWFUL MURDER OF CHILD. Six-Year-Old Alfreda Doverska Drowned in Chicago.

WESTON 16 DAYS AHEAD OF SCHEDULE. Payson, N.Y., April 19.—Edward Payson Weston, who is walking from Los Angeles to New York, spent Sunday at Fredonia, where he formerly lived. He put in most of the day renewing old acquaintances. Yesterday afternoon he delivered a lecture. A midnight start for Buffalo, where he expects to arrive tomorrow, today. Weston is sixteen days ahead of his schedule.

Method of Applying. The applicant for tarsand rights must make application in person to the agent for Dominion lands or crown land in the lands district in which the lands applied for are situated, and must show that he has personally staked the land by placing a wooden post four inches square and four feet high at one corner of the tract, on which has been inscribed the name of the applicant, the boundaries of the tract, and a notice posted declaring the intention of the applicant to apply within thirty days for a lease of the land applied for. The applicant will be entitled to apply for no more than one mile of water frontage.

The lease granted the applicant embraces only the tarsand rights, but the lessee may, upon making application, be permitted to purchase at \$10 an acre so much surface rights as the minister may consider necessary for working the tarsand rights. The lessee is required to begin active operations upon the land within one year from the date upon which he is notified of his acquisition. Such application may not be given until the expiration of the first year of the lease. When the land is staked the quantity of asphalt the lessee will be required to produce, which amount may be increased from time to time, but may never be made to exceed ten tons per annum for each acre of land leased.

Increased Value. A Few Pictures and Some Remarkable Rugs Offered.

New York, April 19.—The Y-rke auction passed the \$20,000 mark at Mendelssohn Hall last evening, and there are two sessions more of the sale to come next week at the Yerkes residence in Fifth avenue. Of yesterday's two sessions the one in the afternoon netted \$13,000, and the tapestry were sold yielded \$38,900, of which the rugs brought \$281,500, and that in the evening, comprising the last of the paintings, \$185,900, or a total for the day of \$504,800. Last evening's sale was in the nature of a clearance sale, what had not been selected for the first three evenings' offerings. Among the pictures were "Madonna and Child," "St. John and an Angel," "Botticelli," "The Last Supper," "Claude Lorraine," \$1,900, not exactly striking prices for such eminent names in such a widely hailed collection. Of the four Guards none went above \$1,725, except the "Grand Canal," which Harry Payne Whitney took at \$29,000, the highest price of the evening, and then he asked Henry Duveen who had been a bidder for it, why he had made him (Mr. Whitney) pay so much for it—a very high figure for a Guardi, at any rate in this country. The rug sale in the afternoon there was a large attendance, but the number of collectors or rugs and of the pictures was not so large as in the previous sessions at which the painting have been sold.

WHALE PLATINA SAFE. Seaman's Tail That It Was Lost Proved to Be a Falsehood.

New Bedford, Mass., April 18.—When Wm. Garrity, a man, landed at Boston from London in February last, and related a tale of the loss of the New Bedford whaling bark Platina, he was indulging in a wild flight of imagination. The bark is safe. The first direct news from the whaler since she was reported in October last at St. Michael's came today in a cablegram to her owners from the vessel's master, Captain McKensie, announcing that he placed her under way on December 1 and that he and one other man were the only survivors.

FISHER FOR THE SENATE. Senator Loughheed Wants to Know If Press Rumors are Correct.

Ottawa, Ont., April 19.—In the Senate today, Senator Loughheed said he had noticed persistent rumors in the press that Hon. Sydney Fisher was to come to the Senate. His adjutant, Senator Loughheed, would be hailed with satisfaction, inasmuch as he would carry with him the important portfolio of agriculture. The Senate in the past had two cabinet ministers among its members. He asked if reports were true. Sir Richard Cartwright said he would not advise Senator Loughheed to place too much reliance in what the papers said, particularly the Opposition papers, as to the intentions of the government, but the government's attention would be given to the remarks of Senator Loughheed on the desirability of enlarging the government representation in the Senate. It would be a pleasure to him to have a colleague in the Senate. As to the rest of the question, Sir Richard said Senator Loughheed would have to wait until the government had time to consider the important question he had raised.

SMASHED WINDOWS. Every Irishman Has Grudge Against The Times.

London, April 19.—Horace Davis, an Irishman, called at the office of the Times and demanded to see the editor. When told the editor did not come to the office until the evening, Davis hurled a brick through a window, smashing the plate glass. He was arrested and taken to the police court. There the magistrate asked him, "What grudge have you got against the Times?" "Every decent Irishman has a grudge against the Times," the prisoner retorted. "I know that this is no place to talk politics, but I am thinking about Bigot and LeCaron. The magistrate remanded him."

MINING FRAUD SENTENCED. Chicago, April 19.—William S. Phillips, president of the American Mexico Mining and Development Co., was sentenced to three years' imprisonment and a fine of \$1,000 by Judge Conner in the United States District Court here today. It was alleged he sold \$500,000 worth of stock in the mining company, and to have paid large unearned dividends out of money received from purchasers of the stock. His victims are said to have lost an aggregate of \$500,000.

TORONTO USERS CONVICTED. Toronto, April 19.—Merrill Lusher and Norman Smith were convicted yesterday on a charge of larceny. Sentences were deferred until the May session.

OCTOPAGIAN, BORN BLIND, IS DEAD. Hamilton, April 19.—David Forster, an octopagian, 89 years of age, is dead at his home in Dundas.
