TO ENGINEERS:

If you want to keep your boiler good and clean this Spring use **BIRD ARCHER COMPOUND**, it positively prevents pitting and puts an enamel-like surface on the inside of boiler. We can supply you with this famous compound in any quantity from a single pound to a ton.

WHY WORRY?

You don't have to, if you use **FIRMITE JOINTING**. This celebrated Jointing will resist the highest pressure over heat, steam, oils and acids. One of our chief engineers says: "A joint that could not be made to stand longer than one week has stood three months with Firmite."
