LIGHT, HEAT, COMFORT!

The proprietor of one of the best known multiple shopping systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them, I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is—well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable air of welcome and invitation as one stands for a moment on

the pathway and lets one's gaze travel inside it. The subdued, restful lighting effect that so charms because of its very un-

obtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experi-

encing a delicious sense of warmth and comfort and cheerful-

ness-all these are part of its appeal. Truly a shop with an

showroom and see our latest Lighting and Heating Appliances, by the adoption of which the ideal outline in the above extract from a London paper may be easily secured. Our new RADIO X. Lamp and GASTEAM Radiators fill all light and heat re-

GERMAN COMMENT ON AMERICAN ANSWER.

BERLIN, To-day.

The American answer to the German note has been printed in the morning newspapers here. Having received from the British News Agency a despatch, commenting on statement in the document that United States could not accept any condition, affecting the protection of the lives of Americans, the Lokal Anzeiger says, President Wilson is de-molishing a man of straw with this statement. The German note says the paper, contains no such condi-tions. It merely expresses the exthe American Government will hold Britain to the observance of its du-ties under International Law. Other newspapers refrain from comment with the exception of Die Post and Tages Zeitung, in which latter paper Count Von Reventlow expresses by mplication the hope that Germany' spectation really amounted to a con-

great balm has cured many cases of eczema and other skin diseases after everything else had failed. The case of Mr. G. J. Taylor, of Lower Napan, N.B., is an illustra-tion. Mr. Taylor writes: "For twenty years I suffered con-

stantly with eczema. I consulted doctor after doctor, who gave me ointments and blood-tonics, but I got very little relief. I tried all the so-called "eczema cures" I had heard of, but without result. By this time my body was entirely covered with eczema, and the burning and irritation was intense. I was so badly disfigured that I was obliged to give up my work, and had despaired of ever finding a cure. Then I heard of Zam-Buk and lost no time in trying it. The first few applications gave me sufficient relief to encourage me to continue. I did so, with the result that the skin stopped peeling, the burning and irritation entirely disappeared, after twenty years standing, is completely and perenanently cured."
