Even then he might have escaped and have quaffed that cup of happiness to his heart's content, for there is not enough light falling from the room on the terrace to read the letter by; but his evil genius-that evil genius which, so the superstitious legend declares, haunts a Ferndale at his happiest moments—impels him to go to the window of the dining-room, and there, with an impatient gesture stretched out beyond the apparently of distasteful reluctance, he unfolds terminable gardens, and backed up the letter. As he does so it gives out

a delicate perfume, which almost decides him to return the letter to his pocket, for he knows the perfume, and -hates it. But with a curt laugh at his folly as he calls the warnings of his better genius, he goes close to the window whose shadow is thrown from one of and reads; there is an elaborately-

CHAPTER XX. DECEIVED.

At those terrible words Jeanne shrinks back, and looks at him as if she fears he has gone mad, or that she has suddenly taken leave of her own senses. Not only is the voice utterly chang-

ed, but his face has undergone some wonderful transformation. Five minutes ago she had looked around and seen him leaning against the bal ustrade of the terrace, his handsome face set in that peaceful look of re pose which a man wears who has din ed well and has his newly-made bride within reach. Now it is hard and strained, haggard and working, as if with some suppressed emoton.

At the instant one of those wild sudden thoughts strikes Jeanne's dazed brain-suppose Vane, the lover and the lovable, has gone forever, and this thought, but it seizes her and renders 2% yards of 36 inch material. her motionless.
