Soldiers From Cestrian.

and Gives His Reason

Acting Mayor Winnett has failed to arrange any suitable welcome to the soldier boys who arrive home Saturday night.

He said today that the men who came on the Cestrian have not seen active service. For this reason he did not take steps to accord them any formal civic welcome. His failure to do this will be regretted by citizens who feel that after the display of patriotic spirit that these London boys have given, fighting or no fighting, their home-coming should not lack a

warm and hearty welcome.

Tonight a band concert is to be given at Queen's Park. It would not have required the expenditure of much energy on the part of the acting mayor to have switched this concert on to Saturday night and thereby let the nome-coming of the soldiers be celebrated in hearty fashion.

New York, July 30.—The funeral of the late Chief Rabbi Jacoby, head of the Orthodox Hebrews of the United States, held here today, was the oc-casion of one of the most remarkable demonstrations ever witnessed in this city, and led to a collision between the Jewish mourners and the police.

The streets were packed with thousands of Hebrews, the stores were generally closed, and every point of vantage along the route taken by the funeral procession to the different

synagogues was crowded. In front of the house where the body lay in state over 100 patrolmen kept the surging crowd from the entrance with considerable difficulty. After the services at the house the body was taken to each of the six synagogues on the east side where brief services were held. When the procession was passing

> Los Alamos, Calif., July 31.-The most severe earthquake in the history of this place occurred at 1:30 this morning. It is not possible yet to estimate the damage, but it is very heavy. No lives are known to have been lost, though there were many narrow escapes. Every brick building in the town was destroyed or badly wrecked. In nearly every house windows were broken. The Presbyterian Church, a large and handsome brick structure, was razed to the ground and a similar fate befell the general store of W. S. Wickenben, also a brick building. The shock seems to have had a spiral motion. Goods were hurled from shelves of stores and piled in the middle of the

rooms. Even such heavy articles as desks were thrown about. Not a chimney is left standing in the town. All brick walls are badly damaged, but frame structures generally, escaped serious injury. The whole town was aroused and people fled from their homes to the streets in panic. There have been several light shocks since July 27, when the first heavy shock occurred, but that of this morning exceded in violence any yet experienced. It lasted 30 seconds, and threw people from their beds. Los Alamos is a town of about 600

In Portugal, if the wife publishes literary works without her husband's consent the law frees him at once from all his matrimonial obligations.

A Cold Bath on a Hot Day.

A cold bath on a hot day is refreshing. Every pore of your body is more open in hot weather and requires more frequent cleansing than in cold weather. The pores in hot weather absorb more freely than in cold weather; it is therefore most undesirable, after taking a morning bath, to cover the body with underclothing that has been washed with adulterated common soap. For comfort, cleanliness, and freedom from skin disease, the clothing worn next the skin should be washed with a pure and well-made soap. If Sunlight Soap be used in the laundry your pores absorb purity.
