She did not say it with much spirit. She waited a little breathless to see what he would say next. As a matter of fact, her position was not as comfortable as it might be. She was living with a married sister, and their relations had been somewhat strained lately. In some way the latter had discovered her interest in this unknown man, and had talked in so direct and brutal a fashion about it that Bella found it no longer comfortable to live on at home. She had already resolved to take the few dollars she had saved and secure a room in the city. Now that she had lost her job she was more than ever resolved to do this, though it made it all the harder. She did not say it with much spirit made it all the harder.

### The Real Cause of Most Bad Complexions

[From Family Physician.] is a stern fact that no truly beauti-complexion ever came out of jars or tles, and the longer one uses cosmetics the worse the complexion becomes. Skin, to be healthy, must breathe. It also must expel, through the pores, its share of the body's effete material. Creams and powders clog the pores, interfering both with elimination and breathing. If more women understood this, there would be fewer self-ruined complexions. If they would use ordinary mercolized wax instead of cosmetics, they would have natural, healthy complexions. ### LEPERS SHOT TO DEATH AND BODIES BURNED

Missionaries Report Atrocious Act of Chinese Provincial Authorities.

"I have made a faithful trial of the Sargol treatment, and must say it has brought to me new life and vigor. I have gained twenty pounds, and now weigh 170 pounds, and what is better. I have regained the days of my boyhood. It has been the turning point of my life. My health is now fine. I don't have to take any medicine at all and never want to again." Shanghai, Jan. 10. - Thirty-nine lepers recently were put to death in an atrocious manner by order of the provincial authorities at Nanning, province of Kwang Si. The sufferers from the dread disease first were shot and then their bodies were burned in a huge trench.

These advices were received here today in letters from the Catholic mission at Nanning. The letters were dated Dec. 14. They stated that the lepers lived in the woods a few miles outside of the city of Nanning. The mission sought permission to build at its own expense a lazarette for them, and the provincial authorities, pretending to consent, dug a pit in which was placed wood soaked in kerosene At the point of the bayonet the lepers were then driven into the pit

and shot, and the pyre was lighted and their bodies burned in the presence of a large crowd. The authori ties offered rewards for the discovery of other lepers, and this offer resulted in the shooting of one more man af flicted with the disease.

The governor after the massacre issued a proclamation in which he accused the lepers of having committed outrages. The letters from the mission say there is no foundation for this charge.
