HARRIS & CO. PROPRIETORS.

WATFORD, JULY 13, 1917

Food Control

Hon. W. J. Hanna, Canada's food controller, addressed the Toronto Women's Press Club last Friday and made clear a point that has probably not come home to all Canadians. The object of food control is not so much to benefit those in Canada as to make sure that sufficient supplies will be available and will be delivered to the allied countries in Europe and the troops in the trenches. It makes an altogether different case of the matter if it is to be considered from this point of view, rather than that of supplying ourselves. If any morals or ethics are to be introduced, this point of view elevates the issue materially.

The necessity for thrift and the elimination of all waste is borne home at once to anyone arriving from Europe and observing the wasteful and uneconomic habits of the people of this continent. In restaurants in Montreal a hundred different articles might be ordered. A few of the plainest, suggested Mr. Hanna, were sufficient. Breakfast and luncheon should have no more than two courses, and dinner no more than three.

Getting down to details, Mr. Hanna suggested that as far as possible perishable articles of diet should be used for food, in order to save those that can be stored and shipped abroad. There should be the utmost effort made to can all food that cannot be saved otherwise or used immediately.

Lambton Farms Wanted

The eighth list of farms for sale in Lambton County will be published by the Lambton County Publicity Association on the 4th of August, 1917. Farms that appeared in the last list will reappear in the forthcoming list if request be sent to the Secretary before above date and present price of farm stated. These lists will have wide circulation at the Canadian National Exposition, Toronto, and other places of concourse.

Those who have farms for sale will please send a full description, the price, and post office address of owner, to the undersigned, in order that the parties enquiring may be brought into personal touch with those who have land to sell.

There will be no charge or commission of any kind, and the parties furnishing descriptions are not bound in any way. Give details as to situation, lot numbers and concession, acreage, roads, improvements, soil, distance from churches and schools, towns, railways, telephone service, etc., etc., that would be of interest to prospective purchasers at a distance. When sale of farm takes place please notify the Secretary so that it may be struck off the list. Parties offering large farms, suitable for fruit growing, would do well to offer them in lots of 15 to 50 acres. The Publicity Association exists for the purpose of advertising Lambton County and for no other purpose. It consists largely of the members of the County Council and the expense of the advertising is paid by the County.

The information is wanted for the purpose of placing a list of farms in the hands of those who wish to buy and who have written to the Secretary in answer to general advertisements and descriptions of Lambton which have been published in various newspapers in Canada, the United States and Britain.

The description may be sent by mail to R. STIRRETT, Petrolia, Secretary of the Publicity Association, not later than Saturday, August 4th, 1917.

An electric headlight to be mounted on a horse's bridle, supplied with current by dry batteries attached to the harness, is the invention of an Arkansas man.

A French company will exploit a lake in Venezuela, the waters of which are so strongly impregnated with potash salts that they are used locally as a fertilizer.

An Ohio inventor is the patentee of a stepladder with two additional legs at the sides, adjustable for length, so that it will stand securely on uneven surfaces.

Last year for the first time there was a considerable production of lithographic stone in the United States, practically all of it coming from quarries in Kentucky.

Using a gasoline engine for power, a machine has been invented by a New Jersey teacher that digs up gardens or small farms, manual labor being required only to guide it.

Send the Children

WE LOVE THE CHILDREN!

MANY of the shoppers who visit our store daily are bright little men and women. And they are shrewd buyers, most of them, in their way. They are always welcome here—and you may rest assured that every attention will be shown to an order forwarded by them—just as much as would be given to yourself. It is a convenient way of getting groceries in a hurry and is used by many of your neighbors.

Send the children for some of the following specials this week:

ONTARIO POTATOES	CANNED TOMATOES
BANANAS AND ORANGES	CANNED PEAS AND CORN
GREEN VEGETABLES	PICKLES AND OLIVES
